Reynolds-Kirschbaum Recital Hall

### ***Briana Pobiner, Ph.D.***

Dr. Briana Pobiner is a Research Scientist and Museum Educator at the Smithsonian Institution's National Museum of Natural History and an Associate Research Professor of Anthropology at George Washington University. She is a paleoanthropologist whose research centers on the evolution of human diet, with a focus on meat-eating, but has included topics as diverse as human cannibalism and chimpanzee carnivory. Since joining the Smithsonian in 2005 to help curate the Hall of Human Origins, in addition to continuing her active field, laboratory, and experimental research programs, Dr. Pobiner leads the Human Origins Program's education and outreach efforts which includes managing public programs, website content, social media, and exhibition volunteer training.
