**Class Meetings**

Class meetings will be held Friday, 1:25-2:15 PM in CH 458.

**Material to be Covered**

There is no formal textbook for the course, but there will be many handouts of assignments and instructions distributed in class.

**Assignments**

There will be an assignment made every week. Reading assignments will require a one page “reflection” to be handed in at the next class meeting. Reflections should address the three most important thing you got out of the reading. Other assignments will have their own specialized instructions.

**Tests**

There are no tests during the class. However, to receive a final grade for the course, you must take and report to me your score on one of the following nationally-normed tests:

1. Praxis II: Mathematics Content Knowledge (CDT Code 5161).
2. GRE Mathematics Subject Test: [http://www.ets.org/gre/subject/about/content/mathematics](http://www.ets.org/gre/subject/about/content/mathematics).
3. Major Field Test for Mathematics: [http://www.ets.org/mft/about/content/mathematics](http://www.ets.org/mft/about/content/mathematics).

A scanned copy of an individual score report is acceptable.

**Grading**

Grades for the course will be based upon participation in class and completion of class assignments on schedule.

**Withdrawal**

The usual UAB rules apply for withdrawing from the course.

**Disability Support Services**

If you are registered with Disability Support Services, please make an appointment with me as soon as possible to discuss accommodations that may be necessary. If you have a disability but have not contacted Disability Support Services, please call 934-4205 or visit DSS at 516 Hill University Center. Students who may need course accommodations are welcome to make an appointment to see me during office hours. Students with disabilities must be registered with Disability Support Services, HUC 516 or 934-4205, and provide an accommodation request letter before receiving academic adjustments.
