Computer Science and Engineering

2018

For Rising High School Freshmen

Computer Science and Electrical Engineering

**Dates: June 11—15
June 18—22**

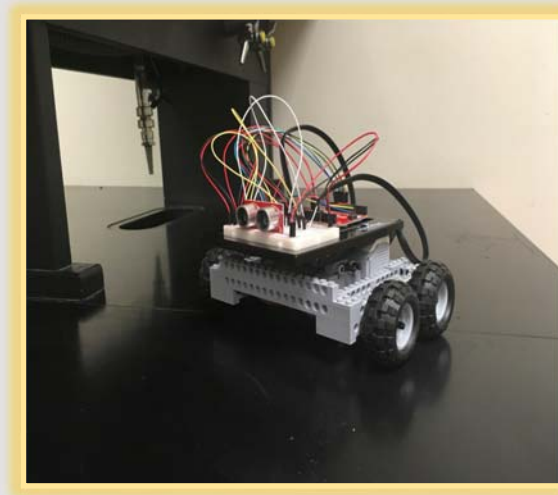

Explore the basics of Computer Science and Learn how to build, design, and create circuits and programs!

- ♦ Learn how computers process and store data.
- ♦ Learn about encryption and computer security.
- ♦ Gain improved critical thinking and math skills.
- ♦ Build a strong foundation for learning programing and computer engineering.

The program utilizes a modified version of CS UNPLUGGED

- ♦ Learn basic and advanced programming concepts.
- ♦ Learn how to layout and design circuits using Arduinos.
- ♦ Gain the skills needed to change the world around you.

- ♦ Build a strong foundation for learning programing, computer engineering and electrical engineering.
- ♦ Learn to use open source software and hardware to expand your world.

Requirements

Must be entering the 9th grade
in fall of 2018

Complete and submit the attached
Application. Include \$50 application fee
(make Check payable to UAB-CORD)
by **5pm May 25, 2018**

Please select the week
you would like to attend:

**Computer Science and
Electrical Engineering**

_____ June 11— 15

_____ June 18 — 22
