- 2013-Present **UNIVERSITY OF ALABAMA AT BIRMINGHAM**, Birmingham, AL  
 Doctor of Philosophy, Health Education and Health Promotion  
Relevant coursework: Cancer Epidemiology & Control, Mixed Methods Research II, Clinical Trial Design in Behavioral Science, Computer Applications & Advanced Statistical Methods, Planning & Administration of Health Education & Health Promotion Programs, Intermediate Statistics I, Dissemination & Implementation in Health, Advanced Theoretical & Scientific Basis of Health Education & Promotion, Professional Writing & Publishing
- 2008-2011 **UNIVERSITY OF SOUTH FLORIDA**, Tampa, FL  
 Master of Public Health, Behavioral Health  
 Thesis: *Fear of Recurrence in Men Undergoing Treatment for Prostate Cancer*
- 2002-2008 **UNIVERSITY OF SOUTH FLORIDA**, Tampa, FL  
 Bachelor of Arts, Psychology  
 Honors Thesis: *The Presence of Weight Bias in the Courtroom*

**CERTIFICATIONS**

---

- Current Certified in Public Health, National Board of Public Health Examiners (NBPHE-IND-7235)  
 Current HIPAA Certification  
 Current IRB Human Subjects Certification

**RELATED EXPERIENCE**

---

- 2014-Present **GRADUATE ASSISTANT**  
 Cancer Prevention and Control Training Program, University of Alabama at Birmingham, Birmingham, AL  
 Supervisor: Wendy Demark-Wahnefried, Ph.D.  
 NCI-funded program (R25) consisting of an interdisciplinary team recruiting, supporting, and mentoring pre- and postdoctoral trainees who undertake a specialized curriculum tailored to disciplinary and research interests, and conduct cancer prevention and control-related research.  
 Assist in the following research protocols:
- NCI-funded R21, *Vegetable Gardening Study in Cancer Survivors*, examining the feasibility of the Harvest for Health gardening intervention in older cancer survivors who have completed their primary cancer treatment
  - Women's Breast Health Fund-funded, *Harvest for Health*, building upon pilot data to further explore possible benefits of a gardening intervention in breast cancer survivors who have completed their primary cancer treatment
- Responsibilities include:
- Screening and recruiting participants
  - Obtaining informed consent
  - Coordinating appointments and research materials
  - Acting as liaison between Master Gardeners, study staff, and participants
  - Performing at-home study visits to collect patient data
  - Participating in conducting research and writing for publication
- 2013-2014 **GRADUATE TRAINEE**  
 Department of Health Behavior, University of Alabama at Birmingham, Birmingham, AL  
 Supervisor: Peter S. Hendricks, Ph.D.  
 Grant-funded lab conducting research in addiction, novel interventions, clinical trials, expectancies, motivation, and positive psychology:
- Conduct original research

- Attend weekly meetings to discuss research ideas
  - Prepare protocols and manuscripts
- Assist in the following research protocols:
- NIH/NIDA-funded, *Early Withdrawal Exposure with Withdrawal Regulation Training for Tobacco Dependence*, which aims to pilot an in vivo early withdrawal exposure with withdrawal regulation training intervention for smoking cessation
  - NIH/NIDA-funded, *Who and Why Cigarette Smokers Use E-cigarettes after Hospitalization*, which aims to examine cognitions and behaviors regarding e-cigarettes among patients in an urban tertiary care hospital to develop a predictive model of e-cigarette use

2008-2013

**RESEARCH COORDINATOR**

Department of Health Outcomes & Behavior, Moffitt Cancer Center, Tampa, FL

Supervisor: Paul B. Jacobsen, Ph.D.

Coordinated the following research protocols:

- Multisite, NCI-funded R01, *Older Breast Cancer Patients: Risk for Cognitive Decline*, which examined cognitive effects of systemic cancer therapy on older women with breast cancer
- *Quality of Life after Allogeneic Hematopoietic Cell Transplantation: Understanding the Patient's Perspective*, which assessed how patients and their caregivers perceive their quality of life after bone marrow transplant
- Multisite, NCI-funded R01, *LHRH Agonist Therapy and Cognitive Functioning in Men with Prostate Cancer*, which evaluated the impact of androgen ablation therapy on cognitive functioning in men with prostate cancer

Assisted in coordinating the following research protocols:

- NCI-funded, *Genetic Predictors of Cognitive Function, Depression, and Fatigue in Cancer*, which explored genetic variants as predictors of cognitive functioning, depression, and fatigue related to patients diagnosed with cancer and treated with hematopoietic cell transplant
- DOD-funded, *Motivational Interviewing to Promote Physical Activity in Breast Cancer Survivors*, a randomized controlled trial, which examined behavioral effects of motivational interviewing over a 24-week period in female survivors of breast cancer

Managed volunteer research interns:

- Recruited, interviewed, and managed undergraduate research interns

Responsibilities across all studies:

- Screened and recruited participants
- Obtained informed consent
- Coordinated appointments and research materials
- Acted as liaison between clinic and study staff
- Ran neuropsychological battery on study participants
- Consulted with clinical and laboratory staff for blood draws
- Participated in conducting research and writing for publication

2011-2012

**FIELD EXPERIENCE**

Department of Health Outcomes & Behavior, Moffitt Cancer Center, Tampa, FL

Supervisor: Brian M. Rivers, Ph.D., M.P.H.

Coordinated the protocol *Fishers of Men: Evaluating a Digital Training Curriculum*, which trained African American prostate cancer survivors to serve as lay health advisors to disseminate culturally appropriate information regarding prostate cancer screening:

- Received qualitative research and focus group training
- Conducted systematic literature reviews
- Conducted in-depth interviews with prostate cancer survivors, medical and technological experts
- Developed training modules for online digital curriculum
- Pre-tested materials

2011-2012

**MASTER'S THESIS**

Department of Health Outcomes & Behavior, Moffitt Cancer Center, Tampa, FL

Supervisor: Heather S. L. Jim, Ph.D.

Research protocol, *Fear of Recurrence in Men Undergoing Treatment for Prostate Cancer*, which identified worse quality of life across multiple domains mediated higher levels of fear and recurrence in men receiving androgen deprivation therapy:

- Proposed topic and study design

- Completed all IRB paperwork required
- Carried out all data collection
- Analyzed final data
- Summarized findings, submitted as abstract, presented as poster
- Article pending

2008-2009

**UNDERGRADUATE HONORS THESIS**

Body Image Research Group, Department of Psychology, University of South Florida, Tampa, FL  
Supervisor: J. Kevin Thompson, Ph.D.

Research protocol, *The Presence of Weight Bias in the Courtroom*, which identified potential bias and contributing factors of bias present in the courtroom:

- Proposed topic before committee
- Completed all IRB paperwork required
- Carried out all data collection
- Analyzed final data
- Defended thesis

2008-2009

**RESEARCH SCHEDULING & DATA MANAGEMENT COORDINATOR**

The Team Feedback Study, Department of Psychology, University of South Florida, Tampa, FL  
Supervisor: Michael D. Covert, Ph.D.

Research protocol, which manipulated task feedback and work context to observe subsequent effects on teamwork processes:

- Created weekly schedules for research assistants specifying when to run experiments, transcribing and coding videos of participants, and entering data
- Resolved issues regarding scheduling conflicts
- Worked with rating coordinator to establish procedure for transcribing and coding videos

2008

**RESEARCH ASSISTANT**

The LINK Study, Department of Psychology, University of South Florida, Tampa, FL  
Supervisor: Tammy D. Allen, Ph.D.

Research protocol that examined behavioral and dietary effects of working parents with children enrolled in after-school care:

- Recruited 8-11 year-old participants, obtained informed assent
- Administered surveys
- Recorded height, weight, and body fat composition using bioelectrical impedance analysis (BIA) of participants
- Transcribed, coded, and entered data

2007-2010

**RESEARCH ASSISTANT**

Body Image Research Group, Department of Psychology, University of South Florida, Tampa, FL  
Supervisor: J. Kevin Thompson, Ph.D.

Conducted original research, *Fat stigmatization on YouTube: A content analysis*, and assisted in weekly lab activities:

- Attended weekly meetings to discuss research ideas
- Assisted in scale development, item generation, and evaluation of face validity

2007-2008

**INTERN VOLUNTEER**

Greenwood Associates, Inc., Tampa, FL  
Supervisor: Janet Greenwood, Ph.D., C.E.P.

Research protocol, which examined parental feedback with former clients, parents of children who had been placed in away-from-home behavior modification programs, via telephone:

- Abstracted psychosocial information from former clients' files
- Located former clients' families and recruited them for participation
- Provided support as needed to troubled parents of children who had harmed themselves or others
