LockDown Browser is a custom browser that secures the testing environment in Canvas. It prevents printing, copying, accessing other applications, and closing a quiz until it is submitted for grading. Quizzes created for use with LockDown Browser cannot be accessed with standard browsers.

**INSTALLING LOCKDOWN BROWSER**

LockDown Browser must be installed to each computer (Windows or Mac) being used to take a test.

- If LockDown Browser is not installed, you will see a message displayed when you attempt to take the quiz. Click the download link to install.

- On the following screen, select Install Now.

- Follow the onscreen instructions to complete the install.

- Once installed, click finish and close the window.

1. Locate the “LockDown Browser” shortcut on the desktop and double-click it. (For Mac users, launch “LockDown Browser” from the Applications folder.)

2. If prompted to close a blocked program (e.g. screen capture, instant messaging, other web browsers) choose ‘Yes.’ You may need to relaunch LockDown Browser after blocked applications are closed out.

3. Once launched, enter your student BlazerID and password.
