Tip of the Month

GoToMeeting: Create a Personal Meeting Room
You can create your own personalized meeting room by reserving a URL and customizing the look and feel of your meeting room. Reserving a meeting room allows you to quickly launch a meeting and have attendees join at the same URL each time (without having to send out an invite for each meeting), which is ideal for recurring or spur-of-the-moment meetings. For more information on Citrix GoToMeeting, please register for a training session with us.
