Serum chemistry and hematology

Standard and custom chemistry panels

Laboratory rodents included

Volume discounts

Results faxed within 24 hours

Free sample pick-up

Call for sample collection protocol

Analyses available

Basic

Albumin	Magnesium
ALP (alkaline phosphatase)	Total protein
AST (aspartate aminotransferase)	CO ₂
ALT (alanine transaminase)	Chloride
Bilirubin, direct	Potassium
Bilirubin, total	Sodium
BUN	Amylase
Calcium	Lipase
Creatinine	GGT (gamma-glutamyl transpeptidase)
CPK (creatinine kinase)	LDH (lactate dehydrogenase)
Glucose	Cholesterol
Phosphorus	Triglycerides
Iron	

Special

Fructosamine	Estradiol
Digoxin	Testosterone
Phenobarbital	Canine TLI (trypsin-like immunoreactivity)
Bile acids	Cortisol
T4	T3
Free T4	TSH
Progesterone	Urine protein:creatinine ratio (2 mL sample)
