UAB ANNOUNCES INAUGURAL ONLINE CONSTRUCTION MANAGEMENT CLASSES COMMENCING MAY 2009

Managers and executives in the engineering and construction arena must have a global business view, strong communications skills, and technical expertise... an enormous challenge in today's fast-paced world!

Join highly motivated peers in a multi-disciplinary environment for advanced study of these topics and more in the UAB 18-month Master of Engineering Construction Management Program. Complete the degree online in just five terms. Students from all regions of the country are encouraged to apply.

PROGRAM HIGHLIGHTS:

- 33 Credit Hours (11 courses)
- Each term is eleven weeks:
 - ⇒ **Kick off with a Friday/Saturday boot camp in Birmingham**
 - ⇒ **Remaining 10 weeks online**
- Complete MEng degree in 18 Months
- Interact with peer professionals
- Multi-disciplinary faculty with extensive industry experience
- Over 40 different companies already represented in the first year alone!
- First online class boot camp will be May 15-16
- Qualified students can participate from anywhere in the world

ADMISSIONS REQUIREMENTS:

- Bachelors degree from an accredited U.S. College or University
- Undergraduate GPA of 3.0 or higher (individuals not meeting this requirement may start on a probationary status with strong interview and recommendations)
- **NO ENTRANCE EXAM REQUIRED**
- Two letters of recommendation
- Interview with program director and coordinator
