

Lister Hill Library at UAB University Hospital Table of Contents Service (TOCS)

The Lister Hill Library at UAB University Hospital (LHL@UH) offers a Table of Contents service to provide an easy and effective way to keep up with the biomedical literature. With this service, you will receive by email on a weekly basis the tables of contents from up to ten (**10**) journals available electronically through the Lister Hill Library of the Health Sciences. Each table of contents link will allow you to access the full text of articles in that journal issue with the click of a mouse.

You may identify journals to include in your TOC subscription in the following ways:

- Search the list of online journals at www.uab.edu/lister/ejournals
- Search for a particular journal title or by subject in the LHL catalog, <http://catalog.lhl.uab.edu>
- List the journals of interest to you, and we will verify the availability and notify you.

Return this form to *Table of Contents Service, Lister Hill Library at University Hospital, WP 235.*
