Learning Objectives

Upon completion of the 2014 UAB Annual Anesthesiology Review Course, participants will be able to:

- Develop treatment strategies for the anesthetic care of the very elderly patient population
- Develop anesthetic strategies for the pediatric patient population based on quality and safety outcome studies
- Implement rational, evidence-based processes for the development of the anesthesia-driven surgical home
- Apply up-to-date practices in the delivery of labor analgesia
- Integrate an understanding of clinical hemodynamics to patient care
- Demonstrate a basic understanding of transthoracic echocardiography
- Assess and differentiate the risks of the head-injured patient undergoing non-neurological surgery
- Develop strategies for discussing unanticipated outcomes
- Develop treatment strategies that employ multimodal pain management that integrates emerging analgesic techniques

Accreditation Statement

The University of Alabama School of Medicine is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

The University of Alabama School of Medicine designates this educational activity for a maximum of 12 *AMA PRA Category 1 credit(s)*[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity.
