

Learning Objectives

- Upon completion of the 44<sup>th</sup> Annual UAB Anesthesiology Review Course, participants will be able to:
- Develop strategies for patient safety in the office based surgical practice
  - Implement the latest approach to trauma anesthesia
  - Create a safe plan for anesthetizing the obese and the morbidly obese in the ambulatory surgical setting
  - Apply the various parameters of the enhanced recovery after surgery protocols
  - Identify the current changes in health care from a government perspective
  - Adapt simulation to non-operative areas of patient care
  - Integrate the latest care for the hypertensive pregnant patient
  - Examine drug abuse in health care providers
  - Debate the various possible causes of drug diversion from the health care workplace

Accreditation Statement

The University of Alabama School of Medicine is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

The University of Alabama School of Medicine designates this educational activity for a maximum of 12 AMA PRA Category 1 credit(s)<sup>™</sup>. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

The University of Alabama School of Medicine is an equal opportunity/affirmative action institution.

Faculty Disclosure

The University of Alabama School of Medicine adheres to ACCME Essential Areas, Standards, and Policies regarding industry support of continuing medical education. Disclosure of faculty and commercial relationships will be made known at the activity, to identify and resolve conflicts of interest for all individuals in a position to control content of this CME activity.

Commercial Support Acknowledgment

This CME activity is supported by educational grants. A complete list of supporters will be provided at the course.

Disclaimer

The information provided at this CME activity is for continuing medical education purposes only and is not meant to substitute for the independent medical judgment of a physician relative to the diagnostic and treatment options of a specific patient's medical condition.

Statement of Need

The objective of the conference is to change the scope of anesthesiology practice and increase knowledge among anesthesia, critical care, and perioperative health care providers. This course will address the need for more interdisciplinary discussion of the changing practice of cardiac assist device management, transfusion triggers, perioperative blood pressure management, perioperative fluid management challenges, local anesthetic toxicity and concerns about cervical spine surgery.

Special Needs

The UAB Department of Anesthesiology and Perioperative Medicine is committed to making its activities accessible to all individuals. If you need a particular accommodation, please do not hesitate to call and/or submit a description of your needs in writing.
