UAB Research Methods and Secondary Data Analysis Seminar Series

Mark Your Calendars -

- **1st Thursdays of the month at noon** (11:45am-1:15pm Central Time/ 1:00pm ET/ 11am MT/ 10am PT)
- UAB Medical Towers 634 and
- via Video Conference (VC) and Phone connecting to partners via RealPresence http://iits.uasystem.ua.edu/RP.html
- **RSVP to Dawn Fizer** at dfizer@uabmc.edu (Lunch provided for reservations)

This seminar series convenes researchers, managers, and trainees interested in a broad spectrum of Health Disparities, Aging and Outcomes and Effectiveness Research. Speakers are invited to share research methods that may be applied to other areas of research, and secondary dataset information and availability as well as analyses results from the data, and other tips and techniques applicable to health services and health disparities research.

Goals for the overview of secondary data sets available for analysis:
- Present an overview of the dataset and its data elements
- Provide examples of research questions that can be addressed with dataset
- Include participation of junior investigators who have used data, if possible
- Discuss protocol for access to data and resources for data management/analysis

Goals for the Health Services Research/Outcomes Effectiveness Research methods in current research projects, grants, and/or publications:
- Present work with detail on research methods that may be applied to other areas of research
- Focus on scientific methods with attention for potential cross-pollination in terms of application/adaptation of methods and/or new collaboration
- Discuss research methods and tools with potential for wider implementation. Ex: How can x technology or approach that has been used to successful study disease y in z setting translate or be applied to study another disease in another setting?

The seminars are broadcast via video conference (VC) to scholars and researchers at partnering institutions including Alabama State University, Morehouse School of Medicine, Tuskegee University, Jackson State University, Creighton University, and the University of Alabama, and others.

To Connect via Video Conference (VC) or Phone:
- Download and install free RealPresence video conference software to your computer to connect. This must be installed and tested with IITS at least one day **in advance.** http://iits.uasystem.ua.edu/RP.html
- **All desktop participants dial in to the video conference via: 99900634**
- You may call into the VC using phone number **205-930-6575** (if you are off-site, or there are internet connection problems with our video conferences)
- If you have connection or technical issues please contact IITS at 205-975-6854
