CLINICAL CAMPUS CHANGE REQUEST

Based on UASOM procedure, campus assignment for clinical years may be changed only when there are “compelling and significant reasons that have occurred since the original campus assignment was made” AND there are positions available at the requested campus. We must maintain the appropriate number of students on each campus. Notice that students may not “trade” their campus assignments. If you would like to request a campus change, please return this form to Dr. Laura Kezar’s office in Volker Hall 102A by 12:00 pm on Friday, October 14, 2016. Leaders from the four campuses will interview each student and evaluate the requests. [This request is confidential.]
