JOURNAL CLUB

Paul Boothe, M.D.

“Inappropriate Repeats of Six Common Tests in a Canadian City: A Population Cohort Study Within a Laboratory Informatics Framework”

Tuesday, September 5, 2017

10:45 a.m. - 11:45 a.m.

WPCC-Room D

TARGET AUDIENCE: Departmental Faculty, Fellows, Residents, Medical Students, Other Health Sciences Students, & Nurses

Objectives:
1) Describe “Ulysses Syndrome” and it’s relation to laboratory testing
2) Describe the difficulties and advantages of objectively defining inappropriate testing
3) Critically review article about utilizing an informatics framework for study of inappropriate testing

DISCLOSURES AND ACKNOWLEDGEMENTS: Dr. Boothe discloses that he has no relevant financial relationships that create a conflict of interest related to the content of his presentation. There is no commercial support for this session.
