**Pediatric Imaging Center (PIC):** provides x-ray, CT (cat scan), MRI, ultrasound and sedation imaging services

**Laboratory:** comprehensive laboratory services

**One Day Surgery:** provides care for patients undergoing outpatient procedures involving general anesthesia for diagnostic and therapeutic procedures

**After Hours Clinic (AHC):** is a referral clinic that is open evenings and weekends when your pediatrician's office is closed. Patients must be referred by their private pediatrician first and will then be given the AHC phone number.
