Pediatric Heart Transplant Study
Published Papers
January 1993 - Current

1996
Outcome of Cardiac Transplantation in Children: Survival in a Contemporary Multi-institutional Experience

1997
Survival and Risk Factors for Death after Cardiac Transplantation in Infants: A Multi-Institutional Study

Predicting Outcome After Listing for Heart Transplantation in Children: Comparison of Kaplan-Meier and Parametric Competing Risk Analysis

Infection after Pediatric Heart Transplantation: Results of a Multi-institutional Study

Outcome of Listing for Heart Transplantation in Infants Younger than Six Months: Predictors of Death and Interval to Transplantation

1999
Induction Immunotherapy in Pediatric Heart Transplant Recipients: A Multi-Center Evaluation

2000
Survival after Listing for Cardiac Transplantation in Children

2001
Death after Rejection with Severe Hemodynamic Compromise in Pediatric Heart Transplant Recipients: A Multi-Institutional Study
Pediatric Heart Transplant Study

2003
Late Rejection Episodes More Than 1 Year after Pediatric Heart Transplantation: Risk Factors and Outcomes

2004
Risk Factors For Recurrent Rejection in Pediatric Heart Transplantation: A Multicenter Experience

2005
Fate of Infants with Hypoplastic Left Heart Syndrome Listed for Cardiac Transplantation: A Multi-center Study

The Impact and Outcome of Transplant Coronary Artery Disease in a Pediatric Population: A 9 Year Multi-Institutional Study

2006
Lymphoproliferative Disorders After Paediatric Heart Transplantation: A Multi-institutional Study

Should Status II Patients Be Removed From the Pediatric Heart Transplant Waiting List? A Multi-Institutional Study

Lessons Learned from the Pediatric Heart Transplant Study

Outcomes of Children Bridged to Heart Transplantation with Ventricular Assist Devices: A Multi-Institutional Study

Outcome of Listing for Cardiac Transplantation for Failed Fontan: A Multi-institutional Study

Updated March 21, 2013
Page 2 of 7
Hyperlipidemia in Children after Heart Transplantation

Cardiac Re-transplantation in Pediatrics: A Multi-Institutional Study

Disparate Distribution of 16 Candidate Single Nucleotide Polymorphisms Among Racial and Ethnic Groups of Pediatric Heart Transplant Patients. (In collaboration with SCCOR)

2007
ISHLT Monograph Series Volume 2: Pediatric Heart Transplantation

Recipient Characteristics

Sudden Death Prior to Pediatric Heart Transplantation: Would Implantable Defibrillators Improve Outcome?

2008
Genetic Polymorphisms Impact the Risk of Acute Rejection in Pediatric Heart Transplantation: A Multi-Institutional Study (In collaboration with SCCOR)

2009
Genotypic variation and phenotypic characterization of granzyme B gene polymorphisms (In collaboration with SCCOR)

The Effect of Age, Diagnosis, and Previous Surgery in Children and Adults Undergoing Heart Transplantation for Congenital Heart Disease
Association of Left Ventricular Dilation at Listing for Heart Transplant With Postlisting and Early Posttransplant Mortality in Children With Dilated Cardiomyopathy

Outcomes of Children With Cardiomyopathy Listed for Transplant: A Multi-institutional Study

Outcome of Pediatric Patients With Dilated Cardiomyopathy Listed for Transplant

Outcomes of Pediatric Patients With Hypertrophic Cardiomyopathy Listed for Transplant

Outcomes of Children With Restrictive Cardiomyopathy Listed for Heart Transplant: A Multi-institutional Study

Does Cytomegalovirus Serology Impact Outcome After Pediatric Heart Transplantation?

2010

Rejection with hemodynamic compromise in the current era of pediatric heart transplantation: A multi-institutional study

Decline in Rejection in the First Year after Pediatric Cardiac Transplantation: A multi-institutional study

Association of Race and Socioeconomic Position with Outcomes in Pediatric Heart Transplant Recipients

Outcomes of pediatric heart transplant recipients transitioned to adult care: An exploratory study
Association of Genetic Polymorphisms and Risk of Late Post-Transplant Infection in Pediatric Heart Recipients (In collaboration with SCCOR)

Minimizing Infection and Rejection Death: Clues Acquired from 19 Years of Multi-institutional Cardiac Transplantation Data

Infection and malignancy after pediatric heart transplantation: The role of induction therapy

Gene Polymorphisms Impact The Risk Of Rejection With Hemodynamic Compromise: A Multicenter Study (In collaboration with SCCOR)

The Impact of Heart Failure Severity at Time of Listing for Cardiac Transplantation on Survival in Pediatric Cardiomyopathy

Invasive Fungal Infections in Pediatric Heart Transplant Recipients: Incidence, Risk Factors, and Outcomes

Outcomes Following Listing for Primary Transplantation for Infants with Unoperated Non-Hypoplastic Left Heart Syndrome (Non-HLHS) Congenital Heart Disease: A Multi-Institutional Study

Allosensitization and Outcomes in Pediatric Heart Transplantation

Risk Factors for Late Renal Dysfunction after Pediatric Heart Transplantation: A Multi-institutional Study
Pediatric Heart Transplant Study

Sudden Death after Pediatric Heart Transplantation: Analysis of data from the Pediatric Heart Transplant Study Group

Outcomes of Pneumocystis jiroveci pneumonia infections in Pediatric Heart Transplant Recipients

2012
Comparison of risk factors and outcomes for pediatric patients listed for heart transplantation after bidirectional Glenn and after Fontan: an analysis from the Pediatric Heart Transplant Study

ABO-incompatible Heart Transplantation: Analysis of the Pediatric Heart Transplant Study (PHTS) Database

Early survival after heart transplant in young infants is lowest after failed single-ventricle palliation: a multi-institutional study

Early Predictors of Survival to and After Heart Transplantation in Children with Dilated Cardiomyopathy

Has Late Rejection Decreased in Pediatric Heart Transplantation in the Current Era? A Multi-institutional Study

Renal Function and genetic polymorphisms in pediatric heart transplant recipients

2013
Outcomes of Cardiac Transplantation in Single Ventricle Patients with Plastic Bronchitis—a Multi-Center Report
Ten years of Pediatric Heart Transplantation: A Report from the Pediatric Heart Transplant Study

Total Number of Published Papers: 55
