

## Creating a Turnitin 2 Assignment

1. Login to the Bb Learn system and go to the course that you want to add content into.
2. Go to **Assignments**, click on **Create Assessment** and choose **Turnitin Assignment**.
3. Select the assignment type by clicking the radio button of the desired selection. Please note a paper assignment must exist before any other assignment type can be created. Click on the **Next Step** button to continue.

4. Enter an **assignment title** and choose the **start** and **due dates** for the assignment. Please note that in Bb, the **post date** relates to the availability of **GradeMark** papers only and has no bearing on when grades are posted to the **Bb Grade Center**. By default, papers submitted to this assignment will be checked against all **Turnitin** databases.

5. Click the "**more options**" button to enter special instructions, generate originality reports for submissions, allow submissions after the due date, set student grade reporting functions, and set search options for the assignment.

6. Click **Submit** when you have finished. A column for this assignment will automatically be created in the **Grade Center**. The column name will be the same as the **assignment title**. Please note that **Turnitin** assignment columns can never be deleted from the **Grade Center** once they are created even if the assignment has been deleted from the course. The column can only be hidden from view to make it invisible in the **Grade Center** to all users.

Grade Center : Full Grade Center

In the [Screen Reader mode](#), the table is static and grades may be entered on the Grade Details page accessed by selecting the table cell for the grade. In the interactive mode of the Grade Center, grades can be typed directly in the cells. Use the arrow keys or the tab key to navigate through the Grade Center and the Enter key to submit a grade.
