LET US HELP YOU MAKE A CONNECTION...

SHARPEN SCIENCE WITH PROJECT PANELS
- Panels Done Quickly (PDQs) – smaller, agile & more focused groups
- Nascent Project Panel (NPP) – large multi-disciplinary group
- Translational Investigator Exchange Service (TIES) – connecting investigators for collaboration

CONNECT WITH SCIENTIFIC CORES AND CAPACITIES
- Biostatistics, Epidemiology and Research Design (BERD)
- Informatics – consulting services and tools
- Model Systems – zebrafish, Drosophila, C. elegans, rats, mice, etc.
- Microbiome

CLINICAL SERVICES TO ACHIEVE STUDY AIMS
- Phase I Unit – skilled investigators, research nurses and lab personnel to implement PK/PD protocol requirements
- Specimen processing and analytical capacity
- Bionutrition – research design, data collection and dietary analysis

ACCELERATE SCIENCE THROUGH PILOT RESEARCH
- Translational Research Intramural Grant Program – in partnership with Council of Center Directors
- Drug Discovery and Development Program
- CTSA Multi-institutional Collaborative Translational Research Pilots

CLINICAL TRIALS INITIATIVE
- Clinical Research Support Program (CRSP) – pool of trained, certified research nurses and coordinators to assist investigators
- Investigational New Drug & Investigational Device (IND/IDE) assistance
- Clinical Research Training Program

PARTNER NETWORK OPPORTUNITIES
- Access to diverse populations
- Collaborations with researchers in AL, LA, and MS

GRANT AND SCIENTIFIC WRITING EXPERTISE
- PubMed Central and My NCBI
- Individual and institutional training / career development awards
- R-series, U/P expertise
- Project Panels to strengthen science

CONNECTIONS TO TRAINING ACADEMY RESOURCES
- Degree, certificate and training programs
- Resources for training grant directors
- Information on mentoring training and resources
- Responsible Conduct of Research instruction
