Retention Services:
Provision of follow-up services to enrolled study participants for ongoing study participation.

What is the RRSF?
The RRSF specializes in developing and implementing project specific recruitment plans, facilitates the recruitment of research participants, and specializes in recruiting minority, women, and older individuals.

Benefits of the RRSF:
- Professional, dedicated staff members with over 44 years of experience
- Survey Research Interviewers, Focus Group Moderators and Co-Moderators

RRSF Staff Members:
- Dr. Smith
- Dr. Johnson
- Ms. Lee
- Dr. Patel

Proven expertise in recruiting low resource and minority patients:
- Summary of Success in 96 Research Studies
  - 29,470 Enrolled Participants
  - 19,343 White
  - 9,049 African American (31% AA)
  - 1,078 Other
- 74,243 Study Specific Questionnaires (39% AA)
  - 53,237 Eligible
  - 21,005 Ineligible
- 20,691 General Questionnaires (45% AA)

Project Tailored Recruitment Strategies:
- Established community network of churches, senior centers, etc.
- Mass Mailings (commercial lists, targeted mailings, patient lists, etc.)
- Health Profile System

Patient Navigators:
Lay individuals trained as patient navigators build relationships with cancer patients in order to support them by overcoming barriers to clinical trial enrollment.

Successful Recruited Studies:
- National Lung Screening Trial (NLST), Prostate, Lung, Colorectal, and Ovarian (PLCO), Multiple Myeloma, Ruth, Rhythm, Organ Donation, Patient-Provider Communication, ASPREE, T-Trial, Going Forward, Scale, Medfast 5 & 1 Plan
