

## Undergraduate Research Experience Agreement Science and Technology Honors Program

Student: \_\_\_\_\_ Mentor: \_\_\_\_\_

Term: Fall \_\_\_\_\_ Spring \_\_\_\_\_ Summer \_\_\_\_\_ Year: \_\_\_\_\_

Course for which student is registered (e.g., STH 398) \_\_\_\_\_

### Expectations for STHP Research Rotations

- Students will assist in the laboratory for approximately 3-4 hours per credit hour of registration, with the specific schedule set by agreement between the student and the mentor.
  - Student commits to \_\_\_\_\_ hours per week.
- **Goals to be accomplished during this term:**
  - Students will attend lab meetings and participate in other laboratory activities if invited by their mentor, unless there is a conflict with their class schedule.
  - Students are expected to be punctual and reliable
  - To document their activities, students will keep a copy of research protocols and results from their work, unless the mentor prefers that they not do so.
  - Students will meet with their mentor or designated supervisor to review their activities and to clarify questions about the ongoing research and to receive feedback about their performance in the lab:
    - Specify frequency and time \_\_\_\_\_.
  - The mentor will complete an evaluation of the student at the end of the rotation and review it with the student. The evaluation will then be sent to the \_\_\_\_\_ director (*Campus address and email*).
  - The student will complete a Research Experience Semester Summary form at the end of the semester and return it to the Program Director.
  - The Program Director will review the summary and evaluation and will **assign a grade after the Research Experience Evaluation and Research Experience Summary forms are received.**
