Student Handbook 2016
INTRODUCTION

DEAN’S WELCOME MESSAGE

Welcome to the University of Alabama at Birmingham School of Health Professions (SHP), one of the nation’s leaders in the health care industry.

We are home to one of the largest health professions schools in the nation with more than 20 programs at the baccalaureate, master’s, and doctoral levels with nearly 2,000 undergraduate and graduate students enrolled. The School of Health Professions is part of UAB’s thriving academic health center. As one of our students, you will have the opportunity to work side-by-side with world-renowned researchers and faculty, utilize advanced technologies and experience cutting-edge approaches to clinical treatment.

We understand that health care needs are constantly changing. That is why we continue to add innovative programs such as Biotechnology, Genetic Counseling, our one-of-a-kind Low Vision Rehabilitation graduate certificate, Healthcare Quality and Safety, a Ph.D. in Rehabilitation Science, and a Master’s in Biomedical and Health Sciences which can be completed within eleven months. We offer Health Physics, our newest program. We offer all of these in addition to our many other well-established programs.

Our degrees and programs are fully accredited by their respective professional organizations. This means you will be eligible for licensure, national certification or registration, and enjoy being in high demand within the job market. Our first-time student exam pass rate on credentialing exams is an astounding 98 percent.

Several of our programs preside among the nation’s top 25 of the U.S. News and World Report including our bachelor’s degree in Health Care Management- ranked at number two, our master’s in Health Administration- ranked at number two, entry level Physical Therapy- ranked at number 19, Physician Assistant program- ranked at number 16 and Occupational Therapy- ranked at number 85. We continue to be rated at the top of the list in research funding from the National Institutes of Health, and SHP is the only school in the country to house both an NIH-funded Nutrition and Obesity Research Center and an NIH Diabetes Research and Training Center.

Graduating from SHP means you will have acquired an esteemed degree, enjoy choosing among a host of job options in health care, an industry that continues to grow rapidly, and be well-prepared to make a difference in your field.

Our alumni give advice to current students that is worth repeating: be a sponge, learn your craft, be a better professional for your patients, be open minded to future possibilities, and remember to have a healthy work/ life balance. I look forward to seeing you grow in your respective field and watch as you become the professional we know you can be.

Harold P. Jones, PhD
Dean, UAB School of Health Professions
OVERVIEW OF THE SCHOOL OF HEALTH PROFESSIONS

A leader in federally funded research, the UAB School of Health Professions (SHP), is the largest academic institution of its type in the United States and currently boasts several nationally ranked programs. What began in the 1950’s as a collection of courses in various para-professional disciplines has grown into an internationally recognized center of academic excellence.

The SHP initially took shape in 1969 as UAB gained autonomy within the University of Alabama System. Originally christened the School of Community and Allied Health Resources (SCAHR), the school incorporated the School of Health Services Administration and the Division of Allied Health Sciences from the College of General Studies with parts of the Department of Public Health and Epidemiology from the medical school. An innovative facility designed to meet the growing needs of the health care industry, the SCAHR was divided into four academic divisions that functioned like regular academic departments: Health Services Administration, Public Health and Environment, Allied Health Sciences, and the Regional Technical Institute for Health Occupations.

Throughout the 1970’s and 80’s the school’s offerings were amended to reflect the changing health care industry. As a result of those changes, SCAHR became SPAH (the School of Public and Allied Health), before becoming SCAH (the School of Community and Allied Health), and then SHRP (the School of Health Related Professions). During that time, the school added several new areas of study including the consistently nationally ranked Nutrition Sciences program.

In 2001, Dr. Harold Jones was recruited to become the school’s dean. Through his visionary leadership and guidance the school has experienced a period of unparalleled success beginning with the SHRP’s reorganization and relocation. Up that point in time, the SHRP’s programs had been housed in various locations throughout the UAB campus but during the spring of 2002, many of the classrooms, laboratories and faculty offices moved into the newly completed School of Health Professions Building (SHPB), the first such building dedicated to housing those programs since their original grouping more than 30 years before.

Today the school is known as the School of Health Professions, and is comprised of more than 25 programs – at the baccalaureate, master’s and doctoral levels – across five academic departments: Clinical and Diagnostic Sciences, Health Services Administration, Nutrition Sciences, Occupational Therapy, and Physical Therapy. The school is housed in three buildings, the Susan Mott Webb Nutrition Sciences Building, the Learning Resource Center Building, and the SHPB.

With more than 2,100 faculty, staff and students, the SHP is one of the six schools comprising the world-renowned UAB Academic Health Center. Students are exposed to vast resources, state-of-the-art facilities, and progressive research during their academic and clinical education at UAB.

SHP is proud of many accomplishments including:

- U.S. News & World Report ranks several SHP programs in the nation’s top 25
- Research funding is rapidly approaching the $12 million level
- The school is at the top of the list in research funding from the National Institutes of Health for schools of its type and has been either first or second in funding received since 1969
- All of the school’s programs with professional accrediting agencies are fully accredited by those associations
The SHP Office of Student Recruitment, Engagement and Success (OSRES) supports UAB’s mission and values with a focus on achievement, collaboration and diversity and furthers the School of Health Professions' mission to be a leader who is shaping the future of healthcare. OSRES’s mission is to recruit the best and brightest to SHP; develop students to impact the campus and communities; and graduate tomorrow’s healthcare leaders. Guided by this commitment OSRES provides support to all students through a number of programs including:

- Academic coaching
- Peer tutoring and Supplemental Instruction
- Career skills training
- Campus resource referral

The OSRES also coordinates the School of Health Professions Student Affairs Committee (SAC.) SAC is responsible for student activities, services, programs, organizations, policies and procedures consistent with the university’s non-academic conduct policies. Subcommittees of SAC include the following:

- Homecoming
- Orientation
- Student Activities
- Non-Academic Conduct Grievances

We understand that undergraduate and graduate studies can be challenging. Therefore, we provide students with a network of services specifically designed to address those challenges and explore the opportunities afforded by attending an internationally renowned research university. We have created a series of seminars to assist students with the following skill areas:

- Test taking strategies
- Time management
- Résumé preparation
- Interview skills and techniques
- Professionalism in health care

Additionally, the OSRES team recognizes that with classes and labs, internships, and studying, students in the health professions have particularly demanding schedules. In response, we bring resources to you and serve as liaison between us and campus student service areas. One of these programs is the OSRES Brown Bag Lunch Seminar Series. Each semester, campus representatives are available to provide information and answer questions.

The team at OSRES is here to support students and student groups. We have an open-door policy and encourage students to connect. Students should feel free to drop-by, no appointment needed –call 205-934-4194, email shp@uab.edu, or schedule a meeting. We are here to help students make the most of their UAB experience.
SECTION 1 – SCHOOL AND UNIVERSITY INFORMATION

ACADEMIC CALENDAR
All dates related to registration, payments of tuition and fees, drop/add dates, other administrative requirements, and official school holidays are recorded on the UAB Academic Calendar available at www.uab.edu/academiccalendar.

ACADEMIC HONOR CODE (UAB)
The University expects the highest ethical and professional behaviors from the academic community. The code, including penalties for violations, is published on the UAB website at http://www.uab.edu/graduate/area-3/online-orientation/227-the-uab-academic-honor-code.

The UAB Academic Honor Code

The University of Alabama at Birmingham expects all members of its academic community to function according to the highest ethical and professional standards. Students, faculty, and the administration of the institution must be involved to ensure this quality of academic conduct. Academic misconduct undermines the purpose of education. Such behavior is a serious violation of the trust that must exist among faculty and students for a university to nurture intellectual growth and development. Academic misconduct can generally be defined as all acts of dishonesty in an academic or related matter. Academic dishonesty includes, but is not limited to, the following categories of behavior:

ABETTING is helping another student commit an act of academic dishonesty. Allowing someone to copy your quiz answers or use your work as their own are examples of abetting.

CHEATING is the unauthorized use or attempted use of unauthorized materials, information, study aids, the work of others, or computer-related information.

PLAGIARISM means claiming as your own the ideas, words, data, computer programs, creative compositions, artwork, etc., done by someone else. Examples include improper citation of referenced works, the use of commercially available scholarly papers, failure to cite sources, or copying another person’s ideas.

FABRICATION means presenting falsified data, citations, or quotations as genuine.

MISREPRESENTATION is falsification, alteration, or the misstatement of the contents of documents, academic work, or other materials related to academic matters, including work substantially done for one class as work done for another without receiving prior approval from the instructor.

Violations of the UAB Academic Honor Code are punishable by a range of penalties, from receiving a failing grade on an assignment, to an F in the course, to dismissal. Any course grade of F for academic misconduct supersedes any other grade or notation for that class. Withdrawal from a course while a possible violation of the Academic Honor Code is under review will not preclude the assignment of a course grade that appropriately reflects the student’s performance prior to withdrawal if the violation is substantiated.

AskIT
AskIT is the technology help desk for faculty, staff, and students. AskIT staff provides free support via telephone, email, or in-person. AskIT is physically located in the Center for Teaching and Learning in the Education Building, room 238. You can make contact through the website at https://ask.it.uab.edu/ or
Attendance
Class attendance is expected in all SHP programs. Specific program requirements for class, laboratory, and clinical site attendance may be more stringent than those established by the University. Please refer to the program requirements elsewhere in this handbook and in individual course syllabi for program attendance policies. The UAB policy for undergraduates follows. Please note the categories of excused absences; they typically apply to both undergraduates and graduates.

UAB Attendance and Excused Absence Policy
The University of Alabama at Birmingham recognizes that the academic success of individual students is related to their class attendance and participation. Each course instructor is responsible for establishing policies concerning class attendance and make-up opportunities. Any such policies, including points for attendance and/or participation, penalties for absences, limits on excused absences, total allowable absences, etc., must be specified in the course syllabus provided to students at the beginning of the course term. Such policies are subject to departmental oversight and may not, by their specific prescriptions, negate or circumvent the accommodations provided below for excused absences.

The University regards certain absences as excused and in those instances requires that instructors provide an accommodation for the student who misses assignments, presentations, examinations, or other academic work of a substantive nature by virtue of these excused absences. Examples include the following:

- Absences due to jury or military duty provided that official documentation has been provided to the instructor in a timely manner in advance.
- Absences of students registered with Disabilities Services for disabilities eligible for "a reasonable number of disability-related absences" provided students give their instructors notice of a disability-related absence in advance or as soon as possible.
- Absences due to participation in university-sponsored activities when the student is representing the university in an official capacity and as a critical participant, provided that the procedures below have been followed:
  o Before the end of the add/drop period, students must provide their instructor a schedule of anticipated excused absences in or with a letter explaining the nature of the expected absences from the director of the unit or department sponsoring the activity.
  o If a change in the schedule occurs, students are responsible for providing their instructors with advance written notification from the sponsoring unit or department.
  o Absences due to other extenuating circumstances that instructors deem excused. Such classification is at the discretion of the instructor and is predicated upon consistent treatment of all students. In these instances, instructors must devise a system for reasonable accommodation including, for example, policies allowing for dropped exams/quizzes, make-up exams, rescheduling of student classroom presentations or early or later submission of written assignments.
AWARDS AND HONOR SOCIETIES
All students in the School of Health Professions are eligible for consideration for following awards or society memberships.

*Alfred W. Sangster Award for Outstanding International Student* – This award is presented annually to an international student in recognition of his or her academic and non-academic achievements.

*Alpha Eta Society* – The UAB Chapter of this Society recognizes students registered in the final term of a baccalaureate or graduate health professions program. Inductees must have a cumulative grade point average of 3.0 (4.0 = A), and be in the upper 10% of their program. Nominations are made by program directors in spring and summer terms.

*Cecile Clardy Satterfield Award for Humanism in Health Care* – This award is made annually to recognize one outstanding student for humanitarianism, professionalism, and commitment to health care. Nominations are coordinated by program directors, but may also be made by faculty, students, patients, or preceptors.

*Charles Brooks Award for Creativity* – This award is made annually in recognition of creative accomplishments such as written publications or artistic contributions which complemented the student’s academic activities. Nominations are made by program directors.

*Dean’s Leadership and Service Award* – Presented to a maximum of three outstanding SHP students annually, this award recognizes leadership to the School, UAB, and the community. Nominations are made by program directors or faculty.

*Phi Kappa Phi* – This is the oldest, and most selective, all-discipline honor society in the nation. Membership is by invitation to the top 7.5% of junior students and the top 10% of seniors and graduate students. Nominations are made by program directors.

*Who’s Who Among Students in American Colleges and Universities* – Membership in this national organization is open to outstanding college juniors, seniors, and graduate students. Criteria include scholarship, leadership, and service to the School and community. Applications should be submitted in spring term to the Office of Student Recruitment, Engagement and Success.

Please refer to the program section of this handbook for awards and honors available to students in individual programs.

BACKGROUND CHECK
By policy, SHP students are required to undergo a background check using the school’s approved vendor, CastleBranch, at the time of program admission, and again prior to placement in a clinical rotation. Instructions for requesting the background check and appropriate consent forms will be provided to students by their programs. Please refer to the policy section of this handbook for the policy statement.
**BlazerID / BlazerNET / Email**

All students are assigned a unique identification, their BlazerID, which is established by the student at www.uab.edu/blazerid. BlazerNET is the official portal to the UAB information networks. The portal can be accessed from any Internet-accessible computer, on- or off-campus from the UAB home page www.uab.edu. To activate blazerid, select “Activate Accounts.” Your BlazerID is required to access BlazerNET and other campus information resources, such as your UAB email account. Your UAB email is the official communication medium and should be monitored routinely. UAB student email is provided through Microsoft Office 365, a cloud based email and file storage system. Students have 50 GB of email space and 25 GB of free file 1 TB storage.

**Blazer Express**

The UAB Blazer Express Transit System is a bus service operating under the Business & Auxiliary Services Department. The service provides transportation throughout the University campus. With a valid UAB ID badge, students, employees, and authorized visitors can enjoy fare-free bus transportation along 6 designated routes. All buses are ADA-accessible and can seat approximately 35 riders. For an updated schedule, route maps, and hours of operation please go to http://www.uab.edu/blazerexpress/.

**Bookstores**

Two bookstores are located on the UAB campus, both offering a wide variety of products and services to students, including online purchasing and shipping. Both bookstores stock UAB memorabilia and college wear in addition to all required textbooks and course material.

**UAB Barnes and Noble Bookstore**
- Location: 1400 University Blvd, 35233
- Hours: M – F 9:00 a.m. – 5:00 pm.; Sat 7:00 a.m. – 6:30 p.m.; Sun --Closed
- Telephone: (205) 996-2665
- Email: Through website contact page.
- Website: http://uab.bncollege.com

**Snoozy’s Bookstore**
- Location: 1321 10th Avenue South
- Hours: M – F 7:45 a.m. – 6:00 p.m.; Sat 10:00 a.m. – 2:00 p.m.; Sun - Closed
- Telephone: (205) 328-2665
- Email: info@snoozysbookstore.com
- Fax: (205) 933-2229
- Website: www.snoozysbookstore.com

**Campus OneCard**

The UAB OneCard is the official university identification card. It is used for personal identification, for entry to campus events and the recreation center, for library check-out, and other UAB services. It also serves as a declining balance card for the UAB meal plans and for Blazer Bucks accounts. Additional information is available at www.uab.edu/onecard.
CAMPUS MAP
UAB’s campus map can be found at the following:  
http://www.uab.edu/map/

CANVAS LEARNING MANAGEMENT SYSTEM
The Canvas Learning Management System is the platform used for managing instructional materials online. Canvas course sites can be accessed through BlazerNET or at  
http://www.uab.edu/online/canvas. Students should monitor their course sites routinely for communications from faculty and to manage course assignments.

COUNSELING SERVICES
The Counseling and Wellness Center offers no cost, confidential counseling for UAB students related to physical, emotional, social, intellectual, or spiritual concerns. The Center is located in Student Health and Wellness Center at 1714 9th Ave. S. For more information, call 205-934-5816 or visit:  
http://www.uab.edu/studenthealth/counseling

DIRECTIONS STUDENT HANDBOOK
The UAB student handbook, Directions, may be accessed online at http://www.uab.edu/handbook/. The Graduate School has an additional handbook available at:  

DISABILITY SUPPORT SERVICES
The purpose of these services is to make UAB’s programs and services accessible to students with disabilities. Students must be registered with DSS and be assessed for type of disability and need for accommodations. It is best to register with DSS upon application to UAB. A request for assessment and accommodations can be made at any time, but accommodations are not granted retroactively. For more information about DSS, contact the office directly or visit their website.

Disability Support Services  
(205) 934-4205 (Voice)  
Fax: (205) 934-8170  
Website: http://www.uab.edu/dss

DRUG SCREENING
By policy, SHP students are required to undergo a routine drug screen using the school’s approved vendor, CastleBranch, at the time of program admission and again prior to placement in a clinical rotation. Instructions for requesting the drug screen and appropriate consent forms will be provided to students by their programs. Please refer to the policy section of this handbook for the school and university policy statements related to drug use and substance abuse.  
www.castlebranch.com
EMERGENCIES
Any suspicious or threatening activity should be reported to the UAB Police Department immediately. In addition to calling via a regular telephone, more than 300 emergency blue light telephones connected directly to the police dispatcher are located throughout the campus. Police are staffed 24 hours, seven days a week.

UAB Police Numbers: 911 from a campus phone; 934-3535; 934-HELP (4357); 934-4434.

Emergency situations affecting the campus are communicated to students in several ways:
- Webpage: www.uab.edu/emergency
- University home web page: www.uab.edu
- Cell phone messages and SMS text – register to receive these notices with the UAB Emergency Notification System (B-ALERT) via www.uab.edu/balert; text short code will be 23177 or 63079; cell phone calls will come from (205) 975-8000. Store these numbers and codes in your cell as B-ALERT.
- Mass emails – uses the official xxx@uab.edu email system
- Announcements on the BlazerNET portal
- Facebook and Twitter – B-Alert integrates with these media at www.facebook.com/UABALERT and @UABALERT: www.twitter.com/uabalert
- Weather and Emergency Hotline: (205) 934-2165

DIVERSITY, EQUITY AND INCLUSION
The mission of the UAB Office of Diversity, Equity and Inclusion is to “increase, retain and enhance faculty, student, and staff diversity at all levels of the University and to ensure equity.” UAB defines diversity as “the full range of human difference and potential...” This administrative office supports faculty recruitment, provides scholarships for graduate and undergraduate students, and promotes programs to enhance the campus diversity experience. The office provides a diversity awareness training program for employees. A key component of this Office is the Commission on the Status of Women, which is charged with assuring the best possible conditions for women who work and study at UAB. Additional information is available at http://www.uab.edu/equitydiversity/. Dr. Paulette Patterson Dilworth is the Vice President responsible for the activities of this Office.

FERPA
The Family Educational Rights and Privacy Act of 1974 provides protection for all educational records related to students enrolled in an educational program. Information about your rights and protection of your records is available at the following sites: https://sa.uab.edu/enrollmentservices/ferpa/; https://sa.uab.edu/enrollmentservices/ferpa/FERPA_students.asp. If you have questions or concerns about FERPA issues, you may email FERPA@uab.edu, or contact the SHP Office of Student Recruitment, Engagement and Success.

FINANCIAL AID
Located at 1700 University Blvd., Lister Hill Library, Room G20. Hours of Operation are from 8:00 am to 5:00 pm Monday thru Friday. Phone: (205) 934-8223; Fax: (205) 975-6168. Additional information can be located on the website http://www.uab.edu/students/paying-for-UAB.
FOOD SERVICES
UAB offers seven meal plans for students that are billed to the student’s account. All students, even commuters, are required to purchase a meal plan. Up to 25% of dining fees not used by the end of the school year are converted to Blazer Bucks, which can be used to shop at campus bookstores, local restaurants, and the campus CVS. Several dining facilities that accept the meal plans are available on campus. Those closest to the SHP buildings include:

- Commons on the Green – located on the Campus Green, just south of 9th Avenue and the Campus Recreation Center.
- Einstein’s Bagels – located at the plaza entrance to the Learning Resource Center. Hours vary per semester.
- Sandella’s—NEW to Lister Hill. Open Monday-Friday.

There are soda and snack vending machines available in the basement of the Learning Resource Center and on the 6th floor of the Webb Building. Additional information about meal plans and campus dining facilities is available at www.uab.edu/dining.

GRADUATE SCHOOL
The UAB Graduate School offers doctoral programs in 40 areas, eight post-master’s specialist programs, and master’s level programs in 51 areas. Most graduate programs in SHP are coordinated through the Graduate School and students must adhere to the Graduate School policies and procedures. Graduate School information for current students is available at http://www.uab.edu/graduate/.

GRADUATION
UAB offers two commencement ceremonies, one in the fall and one in the spring. All students must complete an application for degree six months prior to graduating. For more information and important deadlines please go to http://www.uab.edu/commencement/degree-applications. SHP also offers its own graduation ceremonies for fall and spring.

STUDENT HEALTH SERVICES AND MEDICAL CLEARANCE
The University provides prevention, counseling, and treatment services to students through the UAB Student Health and Wellness located at 1714 9th Avenue South. The clinic is open from 8:00 a.m. – 5:00 p.m. Monday – Friday, but is closed between noon and 1:00 p.m. daily. Detailed information about services and operating practices is located on the SHS website at www.uab.edu/studenthealth. Appointments may be scheduled by calling 205-934-3581.

SHP students are required to receive medical clearance at the time of program admission. A secure web-based process using BlazerNET, UAB Student Health Services and Castlebranch, an external vendor, is used to document medical information and immunization records. Each student will have a personal account with Castlebranch for storage of required documents. More information is available at the Student Health and Wellness website http://www.uab.edu/studenthealth/medical-clearance.
HIPAA TRAINING
The Health Insurance Portability and Accountability Act includes significant requirements for protecting individual privacy of health information. All students in the School of Health Professions must complete an online tutorial and be tested on HIPAA regulations at the time of program admission. A BlazerID is required to access the training site, located at www.uab.edu/learningsystem. Compliance with the training requirement is monitored monthly. Students who have not completed the training are reported by name to the Office of Student Recruitment, Engagement, and Success for follow-up with the appropriate program director.

INSTITUTIONAL REVIEW BOARD FOR HUMAN USE (IRB)
Student researchers must comply with all requirements for protection of human subjects. Detailed information is available on the IRB website www.uab.edu/irb, including resources and services specifically for students. The brochure “IRB Guidance for Student Research and Class Projects” may be downloaded from this site as a PDF document.

INTELLECTUAL PROPERTY
Intellectual property refers to an asset that originated conceptually, such as literary and artistic works, inventions, or other creative works. These assets should be protected and used only as the creator intends. Training materials defining inventor status, patent criteria, and other intellectual property issues is available at http://www.uab.edu/research/administration/offices/OSP/Pages/Training.aspx.

LACTATION CENTERS
Through the work of the UAB Commission on the Status of Women, the University has provided several lactation centers for students, faculty, and staff across the campus. Locations of the centers are available at http://www.uab.edu/women/lactationcenters.

LIBRARIES AND LEARNING RESOURCE CENTER
Libraries
UAB’s libraries house excellent collections of books, periodicals, microforms, and other media. The libraries have online remote access to catalogs and online collections. Customer services are extensive. All facilities have computers available for student use during regular hours of operation.

Birmingham Public Library
In addition to the main library facility, there are 17 branch libraries. The library holdings include print and digital media. Library services are described on the website.
Location: 2100 Park Place
Hours: M – Tu 9:00 a.m. – 8:00 p.m.; W – Sat 9:00 a.m. – 6:00 p.m.; Sun 2:00 p.m. – 6:00 p.m.
Telephone: (205) 226-3600 Website: http://www.bham.lib.al.us/

Lister Hill Library of the Health Sciences
This is the largest biomedical library in Alabama, and one of the largest in the south. Located across the crosswalk from the School, the LHL has extension libraries in University Hospital and The Kirklin Clinic. Dedicated librarians hold “office hours” in the Learning Resource Center weekly.
Location: 1700 University Boulevard
Telephone: (205) 934-2230 Website: www.uab.edu/lister/
Mervyn H. Sterne Library
A collection of more than one million items supporting teaching and research in the arts and humanities, business, education, engineering, natural sciences and mathematics, and social and behavioral sciences.
Location: 913 13th Street South
Telephone: (205) 934-6364 (Reference) (205) 934-4338 (User Services)
Website: [www.mhsl.uab.edu](http://www.mhsl.uab.edu)

Reynolds Historical Library
A collection of rare and important books, manuscripts and artifacts in the medical sciences. The Reynolds historical collection is located on the top floor of the Lister Hill Library.

Learning Resource Center (LRC)
The School of Health Professions Learning Resource Center (LRC) is charged with providing a unique set of enterprise solutions that promotes a learning environment that is exciting, intriguing and innovative. Under the leadership of the LRC Director with direction from the SHP-LRC Executive Committee, LRC is responsible for all applications and systems that are provided centrally to support the school’s academic, administration, and research missions.

Learning Resource Center
The LRC is designed to provide state-of-the-art, highly specialized services for SHP faculty, staff and students that includes:
- State-of-the-art media studio
- Audio/visual support
- Information technology management of public, classroom and testing labs computers

Hours of Operation and Contact Information
- Monday-Thursday: 7:00 am-8:00 pm
- Friday: 7:00 am-5:30 pm
- Saturday: Closed
- Sunday: Closed

Phone: (205) 934-5146
Fax: (205) 934-1190
Email: shplrc@uab.edu
Address: 1714 9th Avenue South, Birmingham, AL 35294

OneStop Student Services
If you have questions or need assistance with an academic or administrative process, the UAB OneStop is where to go! Advisers will help you solve your problem or do the legwork for you if another UAB resource is needed. OneStop is located in the Hill Student Center 1400 University Blvd. You may contact the OneStop office by phone or email at (205) 934-4300; 855-UAB-1STP; (855) 822-1787; onestop@uab.edu. Additional information is available at [www.uab.edu/onestop](http://www.uab.edu/onestop).

Parking
Student vehicles must be registered with UAB Parking and Transportation Services, located at 608 8th Street South. The office is open Monday – Friday from 7:30 a.m. – 5:00 p.m. Parking is allocated on a first-come, first-served basis. Commuter student lots are designated as Lot 15, Deck 12, and Deck 16. Parking fees are established by location, payable by semester or year, and are billed to the student’s account. Additional information is available at [http://www.uab.edu/parking/](http://www.uab.edu/parking/).
**Patient Care Partnership**

Students in health professions programs learn general information about the health care industry as well as knowledge and skills specific to their chosen profession. The American Hospital Association (AHA) [www.aha.org](http://www.aha.org) is an excellent resource for industry information. One role fulfilled by the AHA is that of patient advocate. The Patient Care Partnership brochure (link below) outlines rights and responsibilities of patients during hospital stays.

**Plagiarism and TurnItIn**

Plagiarism is academic misconduct that will result in a grade of zero on the plagiarized assignment and may result in dismissal from the School of Health Professions and the University (see DIRECTION Student Handbook or SHP Grievance Procedures for Violations of Academic Standards). All papers submitted for grading in any SHP program may be reviewed using the online plagiarism monitoring software, Turnitin.com. Please note that all documents submitted to Turnitin.com are added to their database of papers that is used to screen future assignments for plagiarism.

**Recreation Center**

The campus Recreation Center, located at 1501 University Blvd, Birmingham, AL 35294, is open to faculty, staff, students, and their families. A valid student identification card or membership card is required for access. Facilities include basketball courts, racquetball courts, weight rooms, swimming pools, exercise rooms, and indoor track. Check the website for information about hours and services at [http://www.uab.edu/campusrecreation](http://www.uab.edu/campusrecreation).

**Scholarships**

Many programs in the School have scholarships available to currently enrolled students. Please see the program section of this handbook for that information. The following scholarships are available to students enrolled in any program in the School.

*Dean’s National Alumni Society Scholarship* – Funding from the UAB National Alumni Society for two scholarships per year, one to a graduate student and one to an undergraduate student. One student per program is nominated by the program director for consideration by the School’s Scholarship Committee.

*Ethel M. and Jessie D. Smith Endowed Nursing and Allied Health Scholarship* – Funding for baccalaureate students with GPA 3.0 or above and unmet financial need. Students apply to the UAB Office of Student Recruitment, Engagement and Success, SHPB 230.

*Lettie Pate Whitehead Foundation Scholarship* – Funding for female students from selected states (AL, FL, GA, LA, MS, NC, SC, TN) enrolled in SHP programs. Award amounts are variable and are based on unmet financial need. Students apply in the SHP Office of Student Recruitment, Engagement and Success, SHPB 230.

*Matthew F. McNulty Jr. Health Services Emergency Loan* – Students enrolled in any SHP program may apply for this low interest loan to address emergencies. Loan amounts are variable based on need. Students apply in the Office of Student Recruitment, Engagement, and Success, SHPB 230.
**SHP General Scholarship** – Funding to recruit or retain outstanding students. Awards are based on academic achievement, and unmet financial need. Program directors apply for funding on behalf of qualified students. Awards up to $4500 over the length of the student’s duration in the program are made by the School’s Scholarship Committee.

**SOCIAL MEDIA**

Social media such as Facebook and Twitter are useful communication tools, but health professions students should use these forums judiciously. In addition to the School’s official sites listed below, individual programs and student organizations may have networking sites.

- Website: [http://www.uab.edu/shp/](http://www.uab.edu/shp/)
- Twitter: [https://twitter.com/uab_shp](https://twitter.com/uab_shp)
- Facebook: [http://www.facebook.com/UABSHP](http://www.facebook.com/UABSHP)
- LinkedIn: [http://www.linkedin.com/groups?gid=3596638](http://www.linkedin.com/groups?gid=3596638)
- Vimeo: [http://vimeo.com/uabshp](http://vimeo.com/uabshp)
- YouTube: [http://www.youtube.com/uabshp](http://www.youtube.com/uabshp)
The School’s Academic Affairs Committee published the following guidelines related to use of social media.

<table>
<thead>
<tr>
<th>UAB School of Health Professions</th>
</tr>
</thead>
<tbody>
<tr>
<td>Guidelines for Social Networking</td>
</tr>
</tbody>
</table>

The Academic Affairs Committee proposes the following for social networking vehicles. Online communities like Facebook, MySpace, Flickr and Twitter provide opportunities for faculty, staff, and students to share and explore interests that enrich the higher education learning experience. However, using these mediums with discretion is advised. UAB online community members are expected to act with honesty, integrity, and respect for the rights, privileges, privacy, sensibilities, and property of others.

**Professional Use**
Only UAB employees authorized by their departments may use social networking Web sites to conduct University business. The authorized employee/position will serve as the point of contact for the web site. In keeping with University policy\(^1\), the authorized employee may post on a social network profile: the University’s name, school, department, and/or unit information, a University email address or University telephone number for contact purposes, or post official department information, resources, calendars, and events. The employee should use care that any personal opinions or opposition to the University either by direct statement or perception not be published.

**General Use**
The following guidelines are strongly suggested:
1. Use networking sites legally and appropriately. Consider your personal obligation as a citizen of the university. Use proper conduct in your posts regarding the university and your colleagues/fellow students.
2. Consider the use of a student, staff or faculty member to monitor any departmental social pages. All parties need to understand the guidelines presented.
3. Remember, you cannot ensure who does and does not have access to your information. Any text or photo placed online is available to anyone in the world—even if you limit access to your site.
4. Information that you post online may continue to stay on the World Wide Web even after you erase or delete that information from your profiles or blog. Do not post anything that could reflect negatively on you, your family, your friends, and the university.
5. Do not post any confidential or sensitive information online.
6. By agreeing to the terms of use, online communities have your permission to republish your content worldwide and share information with advertisers, third parties, law enforcement, and others.
7. You are legally responsible for your posts on the social networking sites. Be discreet, respectful, and as accurate/factual as you can be in any comments or content you posted online.
8. Potential employers, admissions officers, and scholarship committees often search social networking sites to screen candidates. Your profile will be a part of how others know you.

\(^1\) The Official UAB Web Policy >> [http://www.uab.edu/brand/web/planning/policies-and-standards](http://www.uab.edu/brand/web/planning/policies-and-standards)
TUITION AND FEES
Tuition and fees for the University are published annually under the “Current Students” tab of the UAB website. There are two tuition rates: Alabama resident (in-state) and Non-resident (out-of-state). Currently, non-resident students who register for online course sections pay resident tuition for all lecture-based courses. Non-resident tuition is charged for clinical practicums, independent study courses, and project courses.

SHP programs may have specific fees attached to courses or laboratories. These fees will be addressed in the program section of this handbook. Questions about program-specific fees should be addressed with your program director. Current standard tuition and fees for the School, and links to program cost estimations, are posted at http://www.uab.edu/shp/home/admissions-tuition/tuition.

Payment deadlines for each semester are published on the official academic calendar and on the UAB website at http://www.uab.edu/whentopay/. Please note that failure to meet payment deadlines can result in administrative withdrawal from courses.

Tuition and fees may be paid through BlazerNET.

WEATHER
Severe weather situations that may affect the safety of students, faculty, and staff are communicated through the same channels as other emergencies. Severe weather precautions are published at http://www.uab.edu/emergency/preparedness. Other information sources include:

- Webpage: www.uab.edu/emergency
- B-ALERT system: Register to email, cell phone, and text notices with the UAB Emergency Notification System via; www.uab.edu/balert
- Hotline: (205)- 934-2165
- WBHM Radio (90.3 FM): Announcements about University closings or delayed openings are made on the UAB radio station.

WITHDRAWAL FROM COURSE / PROGRAM
Withdrawal from a course or from your program is an official process and should be discussed with your academic advisor and / or program director. Most programs in the School are full-time and the curriculums are specifically sequenced. Withdrawal from a course may put you at risk for being required to wait for a full year before resuming courses in the program. Course withdrawals are made through the UAB registration system via the Student Resources tab in BlazerNET. Program withdrawal should be made in writing to the program director. Please refer to the program section of this handbook for additional information.

SECTION 3 – DEPARTMENTAL POLICIES

DEPARTMENT OF CLINICAL AND DIAGNOSTIC SCIENCES

Welcome
The Department of Clinical and Diagnostic Sciences is comprised of academic programs essential to today’s healthcare system. Our programs provide training for future health care professionals in a variety of disciplines ranging from the diagnosis of illness and disease, the administration of advanced treatment therapies, and the performance of vital roles in surgical suites and in outpatient and inpatient healthcare settings. Graduates of our programs are well poised for a wide variety of job opportunities due to the outstanding education received at UAB.

About the Department
Comprised of multiple academic programs, the Department of Clinical & Diagnostic Sciences provides training for tomorrow’s health care professionals from physician assistants and genetic counselors to nuclear medicine technologists. Students receive hands-on training from renowned faculty while using the tools to prepare them for a career in health care.

CDS Professional Development Program
Professional success after graduation requires many skills beyond the discipline specific technical skills that each student will master during their program. The CDS Professional Development Program is designed to provide students with a strong foundation in a variety of non-technical skills such as interpersonal communication and team based care. The program also provides practical instruction in areas such as professional networking and interviewing to enable students to be successful job candidates upon graduation. Each student will be provided with detailed information about the Professional Development Program activities and assignments.

Accreditation Information
The accrediting agencies for programs offered by the Department include:

<table>
<thead>
<tr>
<th>Program</th>
<th>Accreditation</th>
</tr>
</thead>
<tbody>
<tr>
<td>Physician Assistant Studies (PAS)</td>
<td>Accreditation Review Committee for Physician Assistant, Inc. (ARC-PA) <a href="http://www.arc-pa.org/">http://www.arc-pa.org/</a></td>

</tr>
</tbody>
</table>
CDS Policies

Academic Progress

Academic Progress Review is implemented to promote, assist, and maintain student performance. The main purpose is to provide feedback to students regarding their performance and to identify areas of strength and/or weakness in performance or behavior.

Generally speaking, program faculty, and/or the program director, may academically counsel students on a semester-by-semester basis to assess progress in the curriculum and to provide students counseling regarding deficiencies as needed. These meetings may be documented and the student may be required to sign the documentation of the academic progress sessions with associated notes placed in the students file.

In cases regarding deficiencies, suggestions and/or action plans may be developed in conjunction with the student so as to provide a plan for reversing the deficiencies by a specified timeframe. Such suggestions and/or action plans will be documented and signed (by both faculty and the student) and will be placed in the students file. If a student does not comply with the suggestions and/or action plan and/or does not meet the deadlines as specified, the student may be dismissed from the program.

Attendance and Excused Absences

CDS Attendance Policy

Attendance is mandatory for all classes, lectures, labs, program-related seminars, clinical practice, internships, etc.

Absences are either excused or unexcused and both require timely notification to the course instructor. Students who are absent during clinical practice or an internship must notify both the program clinical practice coordinator/internship coordinator and the clinical practice instructor/clinical internship instructor as soon as possible. Time missed during clinical practice or the internship must be made up and this may result in a delay in graduation.

Below is a list of excused absences recognized by the Department of Clinical and Diagnostic Sciences and UAB:

- Absences due to jury or military duty, provided that official documentation has been provided to the instructor in a timely manner in advance.
- Absences of students registered with Disabilities Services for disabilities eligible for “a reasonable number of disability-related absences,” provided students give their instructors notice of a disability related absence in advance or as soon as possible.
- Absences due to participation in university-sponsored activities when the student is representing the university in an official capacity and as a critical participant, provided that the procedures below have been followed:
Before the end of the add/drop period, students must provide their instructor a schedule of anticipated excused absences in or with a letter explaining the nature of the expected absences from the director of the unit or department sponsoring the activity.

- If a change in the absence schedule occurs, students are responsible for providing their instructors with advance notification from the sponsoring unit or department.

- Absences due to other extenuating circumstances that instructors deem excused. Such classification is at the discretion of the instructor and is predicated upon consistent treatment of all students.

- Absences due to religious observations provided that students give faculty written notice prior to the drop/add deadline of the term.

In instances resulting in unavoidable absence(s), a student is expected to inform the program office and the associated course instructor in advance of the planned absence. For unforeseen events (car accident or breakdown, injury), the student is expected to notify the program and course instructor at the earliest possible time.

Make-up of missed class information or assignments is the student’s responsibility. Make-up of class activities and projects is at the discretion of the course faculty – refer to individual course syllabi for more detailed attendance policies pertaining to the course.

*NOTE: The program cannot guarantee that all work missed for an excused absence can be made up. Some activities (including laboratories) due to their complex, time intensive, and/or cost intensive nature will not be able to be made up. Similarly, when students arrive to laboratories late they risk missing important information/directions that may adversely affect their grade. Instructors are not obligated to repeat directions for students when they are tardy.

**ATTENDANCE INFRACTIONS**
For each unexcused absence, there will be a 1% overall grade reduction for that course or lab per absence. Two tardies will equal one unexcused absence. A tardy is considered being more than 10 minutes late to class. Faculty may choose to include attendance and timeliness in grading criteria and may implement a more restrictive attendance policy. The attendance policy for each course will be described in all course syllabi. The Department of Clinical and Diagnostic Sciences also reserves the right to institute an attendance policy for official program/department activities.

**CONSENSUAL ROMANTIC RELATIONSHIPS**

**DATA PROTECTION AND SECURITY**
**Dress Code**

Guidelines for professional attire require consideration for patients, visitors, and coworkers, as well as personal safety. Therefore, CDS students are expected to promote a professional image by following these guidelines.

**Clothing:**
- Clothing should be clean, neat, in good repair, and appropriate for the profession.
- Casual or athletic wear, such as sweat suits or warm-up pants, are not acceptable.
- Shorts are not acceptable.
- Skirt length shall be no shorter than two inches above the top of the knee and may not be tight fitting.
- Undergarments shall be worn and shall not be visible, even when in stretching or bending positions.
- Shoes shall be appropriate for the work environment and compliant with professional attire. Flip flops are not appropriate.
- Caps or head coverings are not acceptable unless they are for religious purposes or are part of a uniform.
- Sunshades (or hand-tinted, non-prescription glasses) shall not be worn unless they are required for medical purposes.
- Identification badges shall be worn at all times.

**Grooming:**

**Piercings**
- Facial and/or body adornments are not permitted other than in the ear lobe.
- No more than two pairs of earrings may be worn. Earrings will be no longer than one inch in diameter or length.

**Hair**
- Hair should be clean and neat.
- Hair may not be dyed unnatural colors and/or have patterns.
- Hair ornaments should be moderate and in good taste.
- Hair should be well-groomed, closely trimmed beards, sideburns, and mustaches are allowed.

**Daily Hygiene**
- Daily hygiene must include clean teeth, hair, clothes, and body, including use of deodorant.

*In addition to these basic guidelines, students are expected to follow any additional provisions of a facilities dress code while in clinical practice.*
Dress Code Infractions:
Failure to comply with the above dress code requirements will result in removal from program activities until requirements are met. Students will be counted as absent (unexcused) and will receive a grade of zero for any missed work during that time with no opportunity to make-up the missed work.

*Note- The above Dress Code is a minimum standard set forth by the Department of Clinical and Diagnostic Sciences. Each program and/or course within CDS has the liberty to set forth and enforce a stricter dress code. Similarly, clinics also have their own dress codes that must be followed precisely.

Food and Drink in the Classroom
Food or drinks in laboratories is prohibited. Food and drink in classrooms is allowed at the discretion of faculty.

Grading Policy
In each CDS course, the instructor will announce the grading criteria and publish it in the course syllabus. The following policy relating to the I (incomplete) grade or deferred credit supplements the School of Health Professions’ policy.

Incomplete & Deferred Credit Policy
The awarding of an “I” (incomplete) grade is not done lightly. An “I” will be given only when an emergency or unexpected event prohibits the student from meeting course objectives in a timely manner. A student receiving a grade of “I” (incomplete) must arrange with the instructor to complete the course requirements as soon as possible, and in order to progress within the program the student must arrange to complete the requirements prior to the final day of registration for the next term. A grade of “I” not changed by the instructor by the beginning of the next regular term will automatically convert to an “F.”

Infection Control
Because students are working with patients having low immunities, the clinical supervisor reserves the right to send any student to UAB Student Health Services if the need arises. The clinical supervisor will call UAB Student Health and Wellness and request that the student be sent off duty if he/she has an infection of any kind. The student must then acquire a doctor’s written permission to return to clinical education. Students are required to adhere to the policy of the clinical affiliate for working with patients with local infections or infectious diseases. Students are required to inquire about this policy at the beginning of rotation through a clinical affiliate.

Liability Insurance
Liability insurance is provided by the University for all students registered for clinical education courses. The coverage protects students in any assigned clinical site to which they are assigned as a student.
NON-ACADEMIC STUDENT CONDUCT
http://catalog.uab.edu/undergraduate/progresstowardadegree/#conductcomplainttext

NON-RESIDENT TUITION POLICY

PREGNANCY POLICY
All students are encouraged to inform the program director immediately in writing once pregnancy has been confirmed. If students choose not to inform the program of their pregnancy, the program will not consider them pregnant and cannot exercise options that could protect the fetus.

For students who voluntarily disclose pregnancy the program director will discuss factors to be considered in cases of pregnancy with the student based on acceptable professional guidelines.

A student is offered three alternatives after the consultation with the program director. These are:

1. Immediate withdrawal in good standing from the program. Readmission to the program after the pregnancy will be in accordance with the Readmit Policy.

2. Continuation in the program after being given specific instruction regarding safety practices, safety monitoring, and specific clinical and laboratory assignments.

3. Continuation in the program with additional safety monitoring but without modification of assignments.

The student must be able to progress in her educational experiences, both clinical and academic. If the student cannot, she will be strongly advised to withdraw as in alternative number one.

If there are any questions regarding any aspect of the above statements, please call the Program Director.
SECTION 4 – PROGRAM INFORMATION

MISSION
The UAB Health Physics Program is dedicated to providing a quality master’s level program by offering didactic and practical coursework in a curriculum that is designed to prepare students to become competent and productive health physicists.

GOALS
1. Provide students with the knowledge and skills to secure employment in fields where radiation protection and planning are essential – industry, universities, medicine, national laboratories, government, nuclear power generation, and radioactive waste management.
2. Prepare students for Part 1 of the certification examination administered by the American Board of Health Physics (ABHP).
3. Provide students training to develop non-cognitive skills desirable of health professionals including the ability to relate well to people, deal with stressful situations, and display sound judgment and integrity.
Norman E. Bolus, MSPH, MPH, CNMT, FSNMMI – TS
Program Director and Assistant Professor

Department of Clinical & Diagnostic Sciences
1705 University Boulevard, SHPB 446
Birmingham, AL 35294
(205) 934-3427
bolusn@uab.edu

Norman Bolus is the Program Director and an Assistant Professor for the UAB Nuclear Medicine Technology Program. He was in clinical practice for 3 years prior to joining the School of Health Professions. He has served in many capacities for the program as lab instructor, teacher, assistant professor and clinical coordinator before assuming the role of program director in 2007. Mr. Bolus received his undergraduate Bachelor of Science degree in Biology/Chemistry in 1988 and a degree in Nuclear Medicine Technology in 1989 from UAB. He also obtained a Master in Public Health in Occupational Health and Safety from UAB in 1998 and has an additional Master of Science degree from the UAB School of Public Health in Environmental Toxicology. He is an active member of the Society of Nuclear Medicine and Molecular Imaging (SNMMI) and is the Editor-in-Chief of the Journal of Nuclear Medicine Technology through 2016.

Courses Taught: Introduction to Clinical Nuclear Medicine, Patient Care, Instrumentation, Radiation Biology, Radiopharmacy, Seminar courses and Correlative Imaging along with assisting in NMT labs.

Emily A. Caffrey, PhD
Adjunct Faculty

Department of Clinical and Diagnostic Sciences
1705 University Boulevard, SHPB
Birmingham, AL 35294
emilycaf@uab.edu

Emily Caffrey is an adjunct faculty member for the UAB Health Physics program. She recently completed her PhD in Health Physics at Oregon State University, where she also received her B.S. in Nuclear Engineering. She is a member of the American Nuclear Society and the Health Physics Society.

Courses taught: Principles of Health Physics. She also assists with Physics of Diagnostic Imaging, Principles of Dosimetry, and Nonionizing Radiation.
Remo George, PhD, CNMT  
Assistant Professor  

Department of Clinical and Diagnostic Sciences  
1705 University Boulevard Blvd, SHPB 452  
Birmingham, AL 35294  
205-934-7378  
remo@uab.edu

Remo George is an Assistant Professor in the UAB Nuclear Medicine Technology Program. He was in clinical practice for over 10 years in Indiana, Michigan & India prior to joining the school of health professions as a faculty member. He has extensive experience in nuclear medicine procedures, radiopharmaceuticals, instrumentation, and PET applications. He is also a U.S. Nuclear Regulatory Commission approved Medical Radiation Safety Officer.

Dr. Remo George received his Ph.D. in Biochemistry and Molecular Genetics from University of Alabama at Birmingham School of Medicine, and a Master’s degree in Biophysics from Mahatma Gandhi University, India. He is a diplomate of the American Board of Science in Nuclear Medicine, Nuclear Medicine Technology Certification Board, and the Atomic Energy Regulatory Board of India. He is also a U.S. Nuclear Regulatory Commission licensed Medical Radiation Safety Officer. Dr. George is a member of the Health Physics Society, The Society of Nuclear Medicine and Molecular Imaging, and the American Society for Biochemistry and Molecular Biology. His research interest is in the use of antisense molecular beacons for the detection and attenuation of latent mycobacteria.

Krystle W. Glasgow, MIS, CNMT, NMAA  
Instructor, Clinical Coordinator  

Krystle Glasgow is the clinical coordinator for the UAB Nuclear Medicine Technology Program. She was in clinical practice for 5 years prior to joining the School of Health Professions. Mrs. Glasgow received her undergraduate Bachelor of Science degree in Nuclear Medicine Technology with a concentration in Computed Tomography in 2010 from UAB. She obtained a Master of Imaging Science at The University of Arkansas for Medical Science in Little Rock Arkansas. She is a certified Nuclear Medicine Technologist and also a Certified Nuclear Medicine Advanced Associate (NMAA). She is an active and contributing
member of the Alabama Society of Nuclear Medicine and the Society of Nuclear Medicine and Molecular Imaging.

**Courses taught:** Clinical Practice I, Clinical Practice II, Clinical Practice III, Patient Care, Instrumentation Lab, Procedures II, Applications of Radiation Protection and Biology, Radiochemistry and Radiopharmacy Lab.

---

**Liliana Navarrete, MS**
Assistant Professor

Department of Clinical and Diagnostic Sciences
1705 University Boulevard, SHPB 450
Birmingham, AL 35294
205-934-4168
lilinav@uab.edu

Liliana Navarrete is an assistant professor for the UAB Nuclear Medicine Technology program. She held various teaching and research positions in the higher education sector for over 10 years prior to joining the UAB faculty in 2008. Ms. Navarrete received her B.S. degree in physics from National University of Colombia, Bogota Colombia in 1994. She received M.S. degrees in physics from Kyushu University, Fukuoka Japan in 1998, and from the University of Alabama, Tuscaloosa, Alabama in 2006. She is a member of the American Physics Society and the Health Physics Society.

**Courses taught:** Physics for Technologist, Medical Radiation Physics, Instrumentation, Physics and Instruments of Nuclear Magnetic Resonance, Survival Spanish for Health Professions, and assists with Instrumentation Lab, Applications of Radiation Protection and Biology, and a Physics Review module for the UAB Nurse Anesthesia program.

---

**Administrative Staff**
The Department of Clinical & Diagnostic Sciences has a centralized staff team that supports all CDS programs. For student questions, please contact the CDS Receptionist:

(205) 975-4CDS (4237)
ASKCDS@uab.edu
MHP Practicum Sites

Practical, hands-on education is a major component of the health physics program. This allows the student to get practical, hands on experience in a variety of settings, thus allowing the students to get real world experience as part of their overall education. This provides the student with the necessary experience to obtain employment as a health physicist and to take Part 1 of the Certified Health Physics Exam.

The following Alabama facilities serve as supervised practice sites:

- UAB Hospital, Birmingham
- UAB Office of Radiation Safety, Birmingham
- UAB Advanced Imaging Center, Birmingham
- Alabama Department of Public Health, Office of Radiation Control, Montgomery

Total Hours MHP Curriculum 53
**STUDENT RESPONSIBILITIES**

- Maintain academic integrity by refraining from cheating. Incidents of cheating among others should be reported if and when it is witnessed.
- Check email on a daily basis.
- Turn off all cell phones and/or beepers prior to beginning class.
- Report to all class meetings on time.
- Bring all course materials to class.
- Assist in maintaining a constructive classroom environment by refraining from inappropriate disruptions or outbursts. Respectful behavior toward instructors, classmates, and guests is expected.
- It is recommended that you join the Health Physics Society ([http://hps.org/](http://hps.org/)) as a student member. Student membership is free for the first year, and then $40 per year.
- It is recommended that you join the local HPS Chapter as a student member.
- Have access to a computer with MS Office software for participation in on-line work (software available at UAB bookstore at reduced cost to students.)
- Refer to the Student Policies and Procedures Handbook when in need of program and or didactic policy information. Refer to the student practicum manual when in need of information pertaining to your practicum. Failure to meet student responsibilities may lead to counseling, reprimand and/or probation.

**PROGRAM GRADING POLICIES**

1. The following grading scale is utilized in all health physics courses with the prefix MHP.

   \[ A = 90 - 100, \ B = 80 - 89, \ C = 70 - 79, \ F = < 70 \]

2. The following grading scale is utilized in all nuclear medicine technology courses with the prefix NMT. It is to be pointed out that this is based on an 8 point scale rather than a 10 point scale.

   \[ A = 92 - 100, \ B = 84 - 91, \ C = 75 - 83, \ F = < 75 \]

3. A current student who receives an “F” in any required course while admitted to the health physics program will be dismissed from the program unless there are mediating circumstances. These circumstances must be extreme in order to be considered.

   In the case of extreme circumstances, the student will be suspended from the program rather than expelled, and must wait until the next time the course in which the failing grade was made is offered again. The student will then be allowed to take the course again. Under the recommendation of the program director, the student may be required to take remedial courses prior to repeating a health physics course. If the student passes the course, then the student may petition the program director for re-entry into the program. If the class size warrants, the
student MAY be allowed to re-enter the program at the discretion of the program director. Re-entry into the health physics program is NOT guaranteed. If the student takes the course again and still fails to make a passing grade, the student will be expelled from the program. The student may reapply to the program, and must complete the full application process again and enter the program as a new student. Entry into the program is still not guaranteed, but will be on a competitive basis with the other applicants.

4. Cheating: If a student is caught and proven to be cheating, the student is in violation of the UAB Honor Code (found on the Home Page under Course Information) and will be subject to the UAB policies on Academic Misconduct. At the least, the student will receive a zero for the exam or assigned work and will be put on Academic Probation (see Program Policies and Procedures on Academic Misconduct/Probation). If placed on Academic Probation, a second infraction OF ANY KIND will result in dismissal from the program.

5. Plagiarism: All papers and assignments must be the original work of that student, or have the work of another in quotation marks with proper reference notations immediately following the direct quote. If a student is proven to have plagiarized another individual’s work, claiming that work as his or her own, the student is in violation of the UAB Honor Code (found on the Home Page under Course Information) and will be subject to the UAB policies on Academic Misconduct.
TEXTBOOK LIST
2016-2017
The following are the required textbooks for use while enrolled in the program. This list is subject to change.

FALL
MHP 601
Introduction to Health Physics
Cember and Johnson
ISBN: 9780071423083

MHP 601
Nuclides and Isotopes: Chart of the Nuclides
Knolls Atomic Power Laboratory
ISBN: 9780984365302

NMT 610
Medical Imaging Physics
Hendee and Ritenour
ISBN: 9780471382263

NMT 621
Physics in Nuclear Medicine
Sorenson, Phelps, and Cherry
4th Edition
ISBN: 97801416051985

NMT 621
Nuclear Medicine Instrumentation
Prekeges, Jennifer
2nd Edition
ISBN: 9780763766382 (Provided by program- on loan)

SPRING
MHP 611
The Essential Physics of Medical Imaging
Bushberg
ISBN: 9780781780575  
MHP 620  
Radiation Shielding  
Shultis and Faw  
2000  
ISBN: 9780894484568

NMT 641  
Essentials of Radiation Biology and Protection  
Forshier, S., Delmar  
2nd Edition  
Thompson Learning, 2002  
ISBN: 978142812173

NMT 641  
Radiation Protection in the Health Sciences (with problem solutions manual)  
Noz and Maguire  
2nd Edition  
World Scientific  
ISBN: 9789812705976

NMT 641  
Guide for Diagnostic Nuclear Medicine and Radiopharmaceutical Therapy  
Jeffery A. Siegel  
Society of Nuclear Medicine  
ISBN: 9780972647823

SUMMER  
MHP 621  
Introduction to Health Physics  
Cember and Johnson  
ISBN: 9780071423083

MHP 651  
Radiobiology for the Radiologist  
Hall  
ISBN: 9781608311934
SECOND YEAR FALL
MHP 652
Chemistry and Analysis of Radionuclides
Lehto and Hou
1st Edition, 2010
ISBN: 9783527326587

UAB AND PROGRAM ASSESSMENTS AND EVALUATIONS
The student is requested to do several types of assessments throughout their participation in the program. A list of those assessments and a brief explanation are below.

By completing the evaluations of the program, the program can identify areas in need of improvement or enhancement in order to better meet the educational needs of the student.

1. Course / Instructor Evaluation
   • This is done by the student electronically at the completion of each course at the end of each semester.
   • While the student is not required to do the evaluation, the information is vital for the instructor to use to improve the course.
   • The evaluations are anonymous.

2. Student End-of-Term Evaluation
   • This is done at the end of each semester the student is enrolled in supervised practice (MHP 691, Summer Year 1 and Fall Year 2).
   • The student is requested to submit a self-assessment for those semesters (see page 76).
   • If necessary, a meeting with the student and the program director will be arranged to work out any identified problem areas.

3. Exit Interview
   • This is done at the end of the last semester of the program.
   • The student is requested to do an evaluation of the program’s strengths and weaknesses as perceived by the student.
   • The evaluation is anonymous.
ACCREDITATION
Accreditation: The MHP program will be seeking accreditation starting in Fall 2017 from the Accreditation Board for Engineering Technology (ABET).

ABET
415 North Charles Street
Baltimore, MD 21201
Phone: 410.347.7700
accreditation@abet.org
http://www.abet.org/

Credentials Conferred: A Master of Science in Health Physics Degree is awarded by the University of Alabama at Birmingham.

Board Certification: Graduates of the program are eligible to apply for the part 1 of the certification examination offered by the American Board of Health Physics (ABHP).

American Board of Health Physics
Nancy Johnson ABHP
1313 Dolley Madison Blvd, Ste 402
McLean, VA 22101

STUDENT SEIZURE PROTOCOL
1. If a student has a seizure and comes out of the seizure physically unharmed and appears to be fine after the event:
   - Do not call 911.
   - Do not write up an incident report.
   - Make sure the student is ok.

2. If a student has a seizure and is physically harmed but seems fine otherwise (i.e. a fall occurs, the student bumps their head etc.):
   - Write up the incident as a “not a medical emergency” incident (see item 5 on the attached incident reporting policy).
   - Notify the program director immediately: (205) 934-3427 or (205) 975-4237
   - Transport the student to student health (1714 Ninth Avenue South) with a medical authorization form. This may be done by faculty or staff.
3. If the student has a seizure and is unresponsive or alert but not coherent:
   - Call 911.
   - Write up the incident as a “major medical injury” (See item one on the attached incident reporting policy).
   - Accompany the student to the ER to present the completed medical authorization form. This may be done by faculty or staff.
   - Notify the program director immediately.

If this were to occur a medical authorization form and incident report form would need to be completed.

**Closing Notifications**
Your safety should always take precedence to official closings. To find out if class cancellation occurs due to bad weather (snow and ice) on an assigned class day use the following official sources:

UAB radio station WBHM 90.3

The UAB Web site at [www.uab.edu](http://www.uab.edu)

BlazerNet at [www.uab.edu/blazernet](http://www.uab.edu/blazernet)

The UAB inclement Weather Hotline at (205) 934-2165

**MHP Code of Ethics**
Health Physicists must strive as individuals and as a group to maintain the highest of ethical standards.

The Principles (HPS Code of Ethics) listed below are not laws, but standards of conduct to be used as ethical guidelines by health physicists.

**Principle 1:** The Health Physicists shall strive to improve their professional knowledge and skill.

**Principle 2:** The Health Physicists shall be a judge of his/her competence and will not undertake any assignment beyond his/her abilities.

**Principle 3:** The Health Physicist shall never compromise public welfare and safety in favor of an employer’s interest.

**Principle 4:** The Health Physicist will gladly accept every opportunity to increase public understanding of radiation protection.
**Principle 5:** Professional statements made by Health Physicists shall have sound scientific basis. Sensational and unwarranted statements of others concerning radiation and radiation protection shall be corrected, when practical.

**Principle 6:** The Health Physicists shall protect the sources of confidential communications, provided that such protection is not itself unethical or illegal.

**Principle 7:** The Health Physicist shall ensure that all relations with employers, coworkers, clients, governmental agencies, and the general public are based upon and reflect the highest standard of integrity and fairness.

**MHP Drug Testing Policy**
In addition to the SHP Drug Testing Policy, the MHP program reserves the right to test any MHP student, with cause, at any time while they are enrolled in the program under the direction of either the Program Director or Clinical Coordinator.

**Student Awards & Scholarships**

**Scholarships**
Once the student is admitted to the Health Physics Program, the student becomes eligible to apply for specific scholarships offered by the School of Health Professions as well as scholarships offered through the Health Physics Society (HPS).

**Health Physics Society (HPS)**
The Health Physics Society provides a listing of scholarships and grants from a variety of institutions, including the American Association of Physicists in Medicine, Department of Homeland Security, Department of Energy, Environmental Protection Agency, and Nuclear Regulatory Commission, among others. Links to each scholarship and grant can be found on the HPS website at: [https://hps.org/students/scholarships.html](https://hps.org/students/scholarships.html).

**Michael Thompson Scholarship Fund**
Professor Emeritus Michael Alford Thompson, Professor of Medical Physics for 27 years at the University of Alabama at Birmingham (UAB) School of Health Professions, suddenly and unexpectedly passed away on January 2, 2009 at the age of 59. He retired in 2007 from the faculty of the UAB Nuclear Medicine Technology Program after suffering with Parkinson’s disease for 7 years. His 30 year career at UAB began in 1977 as a Radiation Safety Monitor in the Occupational Health Safety Office. He transferred to the School of Health Professions in April of 1980 and began utilizing teaching experience he obtained at Francis Marion College in Florence, South Carolina, where he taught Physics and Mathematics from 1974-1977. In May 1986, just six short years after joining the faculty, he was honored with the School of Health Professions highest faculty award, the Joseph F. Volker Outstanding Faculty Award. He received the President’s Excellence in Teaching Award in May of 1993 and twice (1995 and 1997) was a
finalist for the highest faculty award given by UAB, The Ellen Gregg Ingalls / UAB National Alumni Award.

These faculty awards are a testament to Michael Thompson’s reputation as an outstanding educator. Numerous former students were led to the field of Health Physics through Professor Thompson’s efforts. He continuously promoted the field and would personally hand out application forms to students he thought had any interest in health physics. As a long-time member he would sign off on the applications and personally mail them into the society. Many former students went on from the UAB NMT Program to pursue a Health Physics degree at Georgia Tech with recommendations provided by Professor Thompson.

In addition to being an outstanding educator for the School of Health Professions and promoter of the field of health physics, Professor Thompson created and marketed many educational materials through the years. His Principles of Radiation Protection Video Series has been sold internationally. His most recent undertaking has been educational PowerPoint CD packages which have included topics on nuclear instrumentation, radiologic physics, radioactive decay processes, and radiation protection. In 1994, he led the effort for publication of a text book for radiography entitled “Principles of Imaging Science and Protection” from the W.B. Saunders Company.

Professor Emeritus Michael Thompson was beloved by the many students he taught over his 30 year career and will be remembered for being a kind, gentle, and generous person who gave all he could to his students to help them in the learning process. Being a talented educator and a dedicated professor devoted to life-long learning, he will be greatly missed by all who were fortunate enough to be his students.

In an effort to honor the contributions Professor Thompson made during his career at UAB, the MHP and Nuclear Medicine Technology (NMT) Programs will establish a student scholarship in his name as a lasting remembrance of Professor Emeritus Michael Thompson.
SECTION 4 – STUDENT PRACTICUM MANUAL

STUDENT PRACTICUM MANUAL: MASTER IN HEALTH PHYSICS PROGRAM
**STUDENT RESPONSIBILITIES**

1. Incorporate oneself into the individual department routine. Starting times, coffee breaks and lunch periods are scheduled according to scheduling, staffing needs and constraints, and the educational needs of the student.

2. Consistently attend all scheduled experiences on time. If absence or lateness is unavoidable, both the site instructor/manager and your MHP adviser must be contacted within 30 minutes of the scheduled starting time. The supervisor at each site will set the starting time for the individual student. The starting time may change during the rotation to afford the student specific experiences. The student must complete a total of 252 practicum hours during the semester.

3. Wear nametags and personal dosimetry monitoring devices provided.

4. Wear appropriate attire as required by the participating institution. If none is required, appropriate professional attire is still expected (see CDS Dept. Dress Code page 53 and UAB Hospital Dress Code in Appendix B).

5. Wear disposable gloves when handling radioactive materials.

6. Demonstrate professional behavior at all times by:
   a. Refraining from criticizing and/or comparing hospitals, personnel or other students.
   b. Refraining from any inappropriate discussion with colleagues in public areas and/or in any way that is not pertinent or relevant to the procedure.
   c. Refraining from extraneous or boisterous conversation while any procedure is in progress.
   d. Maintaining confidentiality of records and/or any information entrusted to you.
   e. Refrain from using cell phones during assigned practicum times (see Cellular Phone & Electronic Devices Policy page 55).

7. Demonstrate professional judgment and responsibility by:
   a. Observing the rules and regulations of the department.
   b. Working in an orderly fashion with the assigned practicum instructor.
   c. Considering consequences before acting.
   d. Recognizing which decisions require approval.
   e. Recognizing own limitations and responsibilities in the work situation.
   f. Adjusting the pace to situation requirements.

8. Assume responsibility for one’s own learning by:
   a. Utilizing all available resources (e.g., books, journals, charts, team personnel).
   b. Using unstructured time wisely.
   c. Functioning without prodding.
   d. Showing interest by asking questions and seeking new learning experiences.
   e. Accepting constructive criticism gracefully.
   f. Evaluating one’s own performance and checking those perceptions with instructors.

9. Maintain a notebook and enter into it a daily report of experiences. Program faculty will review students’ notebooks during each site visit to ascertain that students are receiving a comprehensive practical experience and are participating at a level commensurate with their experience.

10. Adhere to the policies and procedures described in this handbook (see Failure to Follow Policies/Procedures, page 56).
11. Evaluate the experience received at a particular site at the conclusion of each rotation (see Summary Evaluation, page 74-75).

HEALTH PHYSICS PROGRAM PRACTICUM AFFILIATES

ATTENDANCE POLICY
1. Students are expected to be present on site as scheduled.
2. Punctual attendance is mandatory.
3. If absence or lateness is unavoidable, both the site and your MHP adviser must be notified within 30 minutes of the scheduled starting time each day that the student is late or absent.
4. Excessive tardiness or absences may affect the practicum grade adversely.
5. No absences from practicum are allowed.
6. Absences must be made up before the end of the last official final exam day.
7. If class cancellation occurs due to inclement weather on an assigned practicum day, every effort should be made to be present since it is possible the site could be in need of assistance on such days. Your safety, however, should take priority. If you cannot get to your assigned site, notify your instructor/manager and your MHP adviser.

DRESS CODE
1. All students must wear a long sleeved, knee length lab coat over appropriate street clothes or uniform. No jeans, short skirts, revealing clothing, caps or headwear of any kind are permitted. Headdresses may be worn for religious reasons if approved by faculty, staff and practicum site affiliate.
2. Whole body and finger personal dosimetry badges must be properly worn whenever radiation is handled, particularly due to handling radioactive material as required by federal, state and institutional regulations.
3. Student name badges must be worn at all times.
4. Footwear should be clean, cover the entire foot, closed-toed and provide good balance. No high heels, clogs, open-toed shoes are permitted. Properly and securely laced black or white athletic shoes in good condition may be worn.
5. Jewelry, make-up, cologne, and perfume should be understated and kept to a minimum. Fingernails should be clean and neatly trimmed. While piercings other than one set of earrings are discouraged, all students must abide by the practicum affiliates’ rules and regulations concerning this issue.
6. Hair should be neat in appearance. Longer hair must be worn up and secured off the face. Excessive or unconventional hairstyles or colors are prohibited. Facial hair must be trimmed and neatly kept.
7. No visible tattoos are allowed.
8. Students may be required to comply with the dress code of a particular institution. See Appendix B, Institutional Dress Code for the UAB Hospital/Advanced Imaging Center.

RADIATION DOSIMETERS
1. MHP students are issued a whole body badge and TLD ring badge to monitor radiation exposure.
2. Students are responsible for the security of their radiation dosimeters, and are expected to wear them appropriately in the practicum and laboratory settings at all times.
3. Whole body and ring badges will be collected during the last week of each month. Students must review and initial their radiation exposure reports as they become available.

4. Lost badges should be reported to the Clinical Coordinator immediately. Students are not permitted to participate in instructional or practicum activities involving radioactivity without appropriate radiation dosimeters. There is a replacement charge of $5.00 for ring badges and $5.00 for whole body badges, payable at the time the new badge(s) is (are) received. A lost film badge report form must also be completed as required by the UAB Radiation Safety Office.

ACCIDENTS AT PRACTICUM SITES

Students who are involved in accidents during their practicum should report the incident to their supervisor immediately. Initial treatment for the injury may be rendered by on site as appropriate. A charge may be made to the student or the student’s insurance for all or part of that treatment. If more extensive treatment is required, depending on the nature of the injury, the student should report to the Student Health Service or the UAB Hospital Emergency Department. If the injury involves a needle stick or exposure to infectious disease, see policy by this link: http://www.uab.edu/studenthealth/emergencies/blood-a-body-fluid-exposure.

An incident report should be completed at the site where the accident occurred and copies should be forwarded to Student Health Services and the MHP Program Director.

The MHP Program Director or Clinical Coordinator should be informed promptly after the accident has occurred.

EXPOSURE TO INFECTIOUS DISEASE

Students who have received a needle stick injury or who may have been exposed to an infectious disease (e.g., HIV, hepatitis B, tuberculosis) should report the incident to the practicum supervisor immediately.

If the student is at UAB:
Contact UAB Employee Health (934-3675) during regular daytime working hours or page the Rapid Response Needle Stick Team (934-3411) after hours. The student will be instructed where to report for evaluation and treatment.

If the student is in Birmingham, but outside UAB:
If the institution will not provide care free of charge to the student, contact UAB Student Health (934-3580) or UAB Employee Health (934-3675) for advice about where to report for evaluation and treatment.

If the student is outside of Birmingham:
Contact UAB Student Health (934-3580) during regular business hours or, if after hours, page the Rapid Response Needle Stick Team (934-3411) for advice about where to be evaluated. If travel to Birmingham is not practical, the student will be advised to seek care at the local emergency department if the practicum facility will not provide evaluation through its own employee health service.
An incident report should be completed at the site where the exposure occurred and should include the following details:

a) the type of exposure
b) the hepatitis or HIV status of the patient

(Note: If the patient’s serological status is unknown, the practicum supervisor should contact the patient’s attending physician and request the physician obtain a specimen for serologic testing.)

The student should submit a copy of the incident report and/or copy of the treatment received at the emergency department within a week of the injury/exposure. This documentation should be mailed or hand delivered. Faxes will not be accepted to comply with guidelines governing patient confidentiality.

The MHP Program Director or Clinical Coordinator should be informed promptly after the needle stick/exposure has occurred.

**CELLULAR PHONE AND ELECTRONIC DEVICES POLICY**

While at a practicum site, a student is permitted to have a cell phone; however, the use of a cell phone is only permitted during breaks and lunch periods.

If an emergency situation occurs where the student must be in contact with family or friends, cell phones may be left on in silent or vibrate mode only and any emergency calls must be taken away from any patient areas. It is the student’s responsibility to notify the site manager/supervisor of such situations beforehand.

Any other personal electronic devices must only be used during breaks and lunch periods.

**PREGNANCY POLICY**

The purpose of the student pregnancy policy is to assure students a safe pregnancy and to be in compliance with federal and state radiation control regulations as well as the Equal Employment Opportunity Commission guidelines. Pregnant students may continue in the MHP Program. It is the individual student’s responsibility to utilize the guidelines set forth in this policy for protection of the embryo/fetus and self.

**Procedure:**

1. Any suspected or known pregnancy can be voluntarily reported to the Program Director and/or the Academic Clinical Coordinator in writing. The program faculty will discuss with the pregnant student the effects of irradiation in utero inclusive of radioprotective procedures.

2. The pregnant student will sign the Pregnancy Release form to acknowledge comprehension of the information provided by the Program faculty. The student will also be referred to the ASRT guidelines and other pertinent references on the subject.

3. The pregnant student will be issued an additional fetal monitor (radiation dosimeter) which will be worn at the waist and under a protective apron.

4. According to NCRP Report #53, the maximum permissible dose equivalent from occupation
exposure to the expectant mother is 500 mrem (5 mSv) for the entire pregnancy.

5. The monthly radiation exposure report inclusive of accumulative dose for each individual is made available to the Program faculty and the student.

6. In accordance with the pregnancy policy of the specific practicum assignment, a student will wear an appropriate lead apron as needed.

7. It is not recommended that a pregnant student perform or observe any radiation therapy technique or PET procedure for the duration of the pregnancy.

8. Practicum rotation schedules may be modified to schedule the pregnant student through low radiation areas especially during the first trimester.

9. The pregnant student is expected to meet all objectives of the supervised practice course without exception. Failure to complete all required assignments could possibly result in a failing grade for that term of practical education.

10. For further information on this matter, visit the NRC website at www.nrc.gov/.

11. A student is offered two alternatives after the consultation with the Program Director upon voluntarily declaring pregnancy. These options are:
   a. The declared pregnant student can immediately withdraw from all practical and didactic courses and write a letter to the Health Physics Program Director requesting re-entry the following year.
   b. The declared pregnant student can continue in the program after being given specific instruction regarding radiation safety practices, additional radiation monitoring, and specific practical and laboratory assignments.

12. The student must abide by the regulations set forth by UAB Radiation Safety concerning Occupationally Exposed Pregnant Personnel and complete any advised training or informational programs requested by UAB Radiation Safety.

**Scheduled Practical Site Visit Policy**

Students are to remain at practicum site until the scheduled visit has been changed or is complete. A scheduled visit will be conducted by the University of Alabama at Birmingham Health Physics Program personnel. No student is to leave the practicum site prior to site visit unless an emergency occurs. In the event of an excusable emergency, proper documentation should be submitted.

**Professional Behavior in Practicum Policy**

Students are expected to be professional in their practicum assignments. They are to exhibit professional behavior with practicum managers and other personnel. Professional behavior includes not using electronic devices without permission, not sleeping, and any other behavior deemed inappropriate by MHP Program personnel.
**Failure to Follow Policies and Procedures of the Practicum Handbook**

Students are required to follow the policies and procedures as outlined in the Practical Education Handbook. The Handbook is distributed at the beginning of the student's first year, and is always available online. **Ignorance of the contents of the Practical Handbook is not an excuse for noncompliance.**

Violations of the policies and procedures will be handled in the following manner:

**First violation:**
The program director or clinical coordinator will review the policy or procedure in question with the student to ensure that the student understands the expected behavior. The counseling session will be documented in writing and maintained in the student's file.

**Second violation:**
The student will receive written notification that he/she is being placed on probation for failing to adhere to a policy or procedure for the second time. The period of probation will extend for the remainder of the term in which the second violation took place and the following term.

**Third violation:**
The third infraction will result in the student's dismissal from the program.

**Student Evaluation of Practical Experience**

Students' perceptions about the effectiveness of the supervised practice courses are very helpful in improving and strengthening this portion of the MHP curriculum. To gather this information in a systematic way, students are asked to evaluate the hands-on instruction they have received at the conclusion of each term (summer and fall). The completed evaluation form (see Appendix C) should be returned to the MHP Program Director within three days of the end of a term.

**Practical Education**

**Overview of Practical Education**

The purpose of practical education is to provide students with experiences that cannot easily be reproduced in a classroom or instructional laboratory setting. Every effort will be made to ensure each student in the Health Physics Program has the opportunity to gain experience in one or more of the following areas based on interest and availability:

- General Imaging
- Radiopharmacy
- PET Imaging
- Cyclotron Facility
- Radiation Safety Office – University and Hospital Level
- Radiation Safety Office – State Level

At the end of each term, each student will meet with the MHP Program Director to review the student's self-assessment and to identify the next practicum site.
HEALTH PHYSICS PROGRAM EXAMPLE PRACTICUM OBJECTIVES:
Upon completion of the supervised practice portion of the MHP curriculum (two terms of MHP 691), the student will be able to perform the following tasks:

DEPARTMENT ADMINISTRATION/MANAGEMENT FUNCTIONS
1. State the code numbers and the emergency dialing procedures for cardiac arrest, fire, and security.
2. State the location of the emergency equipment for use in the nuclear medicine department.
3. Describe the daily department routine in relation to scheduling, radiation surveys, radiopharmaceutical ordering, and general supplies ordering.
4. Interact with hospital and departmental staff to schedule examinations most effectively.

RADIATION SAFETY/PROTECTION
1. Use time, distance and shielding techniques consistently to minimize radiation exposure to self and others.
2. Wear protective clothing and personnel monitoring devices consistently.
3. Use appropriate methods for storing and disposing of radioactive materials and waste.
4. Perform area radiation surveys and wipe tests for contamination on a regular schedule.
5. Perform decontamination procedures as required.
6. Review own monthly radiation exposure and take appropriate action to decrease exposure, as needed.
7. Receive and process radioactive shipments according to department protocol and regulatory requirements.
8. Maintain records of radiation surveys, wipe tests, waste disposal, radioactive material receipt, and radioactive spills and decontamination according to regulatory requirements.

INSTRUMENTATION
1. Perform routine scintillation camera quality control (uniformity, linearity, resolution and center of rotation) using standardized parameters.
2. Review scintillation camera quality control results and compare with previous results to determine acceptability and need for service.
3. Perform dose calibrator quality control (constancy, linearity, accuracy, geometric variation,) at prescribed intervals using the appropriate radiation sources.
4. Review dose calibrator quality control results and compare with previous results to determine acceptable performance.

5. Calibrate a scintillation spectrometer.

6. Perform daily background checks, chi-square evaluations and energy resolution checks on a scintillation spectrometer.

7. Review scintillation spectrometer quality control and compare with previous results to determine acceptable performance.

8. Operate a survey meter, checking the batteries and check source before each use.

9. Maintain records of instrumentation quality control results according to regulatory requirements.

**Radiopharmacy**

1. Correctly elute a Mo-99/Tc-99m generator using aseptic and radiation protection techniques.

2. Assay the eluate and determine its concentration.

3. Perform Mo-99 and Al$^{13}$ breakthrough checks on Tc-99m eluate, determine if the eluate is acceptable for administration and record the results.

4. Prepare Tc-99m-labeled radiopharmaceuticals according to kit instructions.

5. Calculate the final concentration of the preparation.

6. Determine the radiochemical purity of each prepared Tc-99m radiopharmaceutical, analyze and record the results.

7. Using a calculator and decay factor chart, calculate the volume or number of capsules in a unit dose.

8. Dispense a unit dose using appropriate radiation safety and aseptic techniques, and label the syringe or syringe shield.

9. Verify each unit dose in a dose calibrator before administration.

10. Record unit dose information in the appropriate format.

11. Dispose of radioactive and bio-hazardous waste appropriately.

12. Maintain records of eluate and radiopharmaceutical quality control, and unit dose records according to regulatory requirements.
**PROFESSIONAL BEHAVIOR**

1. Assess his/her own work objectively and implement changes for improvement.

2. Exercise independent judgment while remaining within limits of responsibility.

3. Interact with personnel in a professional and empathetic manner.

4. Maintain confidentiality of all information.

5. Cooperate effectively with other staff members.
EXAMPLE PRACTICUM ASSIGNMENT
ASSIGNMENT #1: ASSESSMENT OF COMPLIANCE WITH NRC REGULATIONS

Name: ____________________________ Date: ________________

COMPLIANCE EVALUATION STUDENT CHECK LIST

Specific Licenses

Human use by institutions:

Appointed Radiation Safety Officer? ___ Name: ___________ Qualifications: __________

Medical Radiation Safety Committee instituted? ____ If no, reasons: ______________
___________________________________________________________________

If yes, committee members:
___________________________________________________________________
___________________________________________________________________

Users are physicians trained in isotopes? ____ Isotopes authorized _____________

Purpose of use (10 CFR 35.100, 200, etc. with description): ____________________
___________________________________________________________________

Clinical facilities for patient care?:
___________________________________________________________________
___________________________________________________________________

Registration of Sources

Sealed source inventory on file?: ________________________________

Security

Sources locked up when not in use? _________________________________

Uncontrolled Area Levels

At all points, dose rate less than 2 mrem/hr or 100 mrem/week or 0.5 rem/year? ___
___________________________________________________________________

Surveys & Tests

Periodic area surveys? ___________________ How often? _________________

Periodic contamination surveys? ____________ How often? ________________
Practicum Assignment #1: Assessment of Compliance with NRC Regulations Continued...

Semi-annual leak test of sealed sources? _________________________________

Instrument calibration

Periodic instrument calibrations? _________ Briefly explain each type with frequency:

Gamma Camera____________________________________________________
Uptake Probe_____________________________________________________
Well Counter_______________________________________________________
Dose Calibrator___________________________________________________
Survey meter_______________________________________________________
Software (eg: flood correction tables)________________________________
Any other_________________________________________________________

Waste Disposal

Disposal by sewer? ____________________________ Burial? _________________
Transfer? ______________________________________ To whom? ______________

Package Receipt

Radioisotope orders placed by RSO/ designee? __________________________
Packages monitored upon receipt? ____________________________________

Personnel Dosimeters

Available to persons likely to be exposed? ________________ How many? _____
Radiations measured: _____________________________________________
Available at all high radiation areas? _________________________________

Signs and Labels

Radioactive materials areas posted? _________________________________
Radiation areas posted? ___________________________________________
High radiation areas posted? _______________________________________

Instruction of Personnel

Regulations, licenses and operating procedures available? _______________
“Notice to Employees” posted in work areas? ___________________________
Personnel exposure records available? _________________________________
Emergency procedures posted? _____________________________________
Adequate training in safety procedures? _______________________________
Practicum Assignment #1: Assessment of Compliance with NRC Regulations Continued...

Competency Evaluation

**DOSE CALIBRATOR CONSTANCY CHECK**

<table>
<thead>
<tr>
<th>STUDENT: ________________________________</th>
<th>DATE: __________</th>
</tr>
</thead>
</table>

Before this evaluation is attempted, the student must have completed independently daily dose calibrator quality control at least 3 times under the supervision of a technologist. The technologist evaluating the student should circle the performance level for each item.

1. Choose correct reference for constancy test
   - Met
   - Not met
   - Not applicable
2. Measure standard at appropriate radionuclide settings
   - Met
   - Not met
   - Not applicable
3. Obtain background at each radionuclide setting
   - Met
   - Not met
   - Not applicable
4. Subtract background from measurement at each radionuclide setting
   - Met
   - Not met
   - Not applicable
5. Correct each measurement for decay
   - Met
   - Not met
   - Not applicable
6. Calculate percent difference between calculated and measured readings.
   - Met
   - Not met
   - Not applicable
7. Record and review results; determine if calibrator is operating within acceptable limits.
   - Met
   - Not met
   - Not applicable

Comments:

After observing the student complete constancy testing on the dose calibrator, I believe that he/she is competent to perform this procedure with minimal assistance.

Technologist: ________________________________  Date: ________________
Competency Evaluation

**RADIATION SAFETY/PROTECTION PRACTICES**

<table>
<thead>
<tr>
<th>STUDENT: ______________________________</th>
<th>DATE: ______________</th>
</tr>
</thead>
</table>

The technologist evaluating the student should circle the performance level for each item.

1. Consistently wears personal radiation dosimeters correctly
   - Met
   - Not met
   - Not applicable

2. Consistently uses appropriate measures to reduce radiation exposure (time, distance, shielding)
   - Met
   - Not met
   - Not applicable

3. Routinely uses syringe shields when preparing or administering doses
   - Met
   - Not met
   - Not applicable

4. Routinely monitors hands & feet before leaving the area
   - Met
   - Not met
   - Not applicable

5. Disposes of radioactive waste appropriately
   - Met
   - Not met
   - Not applicable

6. Consistently wears gloves when handling radioactive materials
   - Met
   - Not met
   - Not applicable

7. Promptly cleans radioactive spills and decontaminates area correctly
   - Met
   - Not met
   - Not applicable

Comments:

After observing the student complete this task, I believe that he/she is competently performs these procedures with minimal assistance or reminders.

Technologist: _____________________________ Date: ___________________
Competency Evaluation

**AREA SURVEYS / WIPE TESTING**

**STUDENT:** ________________________________  **DATE:** ________________

Before this evaluation is attempted, the student must have completed independently at least 3 area surveys and wipe tests under the supervision of a technologist. The technologist evaluating the student should circle the performance level for each item.

1. Check batteries in survey meter before making measurements  
   - Met  - Not met  - Not applicable

2. Measure background radiation level  
   - Met  - Not met  - Not applicable

3. Use survey meter properly  
   - Met  - Not met  - Not applicable
   (adjust scale; aim window at area being measured; move probe slowly over area to obtain accurate measurement)

4. Monitor areas according to department floor plan  
   - Met  - Not met  - Not applicable

5. Record measurements in appropriate format  
   - Met  - Not met  - Not applicable

6. Correctly identify areas needing Decontamination  
   - Met  - Not met  - Not applicable

7. Perform wipe tests on contaminated areas to determine removable condition  
   - Met  - Not met  - Not applicable

8. Decontaminate areas, as necessary, to background level  
   - Met  - Not met  - Not applicable

Comments:

After observing the student, I believe that he/she competently performs these procedures with minimal assistance.

Radiopharmacy Assignment

1. Supply the following information about the Mo-99/Tc-99m generators used in this radiopharmacy.

   Manufacturer ___________________________________________

   Wet or dry column? ______________________________________

   Size (Mo-99 activity at calibration) _________________________

2. For “dry” column generators, what volume of saline is added to the generator? What size evacuated vials are used to collect the eluate?

3. Is the eluate concentration approximately the same from one elution to the next?

4. How often is a particular generator eluted?

5. Calculate the elution efficiency of one of the generators in use at this facility. Show all your work.

6. For how many days is a generator used?
7. What is the expiration time of the Tc-99m eluate?

8. Identify the quality control tests performed on the eluate. State the acceptable limits for each test performed.

9. What is the DOT Transport Index on the generator shipping container when it is received?

10. For how long is a spent generator stored before it is returned to the manufacturer?

11. Describe the packaging process used to return a spent generator to the manufacturer.

12. What is the Transport Index on the spent generator shipping container when it is returned to the manufacturer? How is the Transport Index determined?
SUMMARY EVALUATION

A summary evaluation is to be completed for each practicum site.
## UAB Health Physics Program Summary Evaluation

**Student:** ________________________________  **Instructor/Supervisor:** ________________________________
SELF-ASSESSMENT

One self-assessment is to be completed at the end of each semester of MHP 691.
The ability to assess your own performance is an important skill. This is one skill that professionals can use to direct their personal professional development over their entire career. The following questions are designed to help you reflect on the practical experience you have just finished. After you have completed this form, it should be reviewed with your advisor.

Note: Only one self-assessment is needed per term.

In completing this form, consider technical, communication, and administrative/management skills.

1. During this practicum, what new skills or knowledge have you acquired, and how do you anticipate using this information in your future career?

2. Are there any areas where you felt like your experience could have been improved?
Self-Assessment continued...

3. How could the area(s) identified in #2 be improved?

4. Are there additional skills that you feel you need to develop further?
APPENDICES
All students are covered by professional liability insurance when they are enrolled and participate in the supervised practice courses of the MHP Program. Students who become employees in a clinical area and whose work takes place outside of the MHP curriculum are not covered by student liability insurance.

For work that requires monitoring of radiation exposure, unless the student is a UAB employee, students must wear dosimeters provided by their employers. Students must wear personnel dosimeters provided by UAB only when they are functioning as a UAB MHP student in an assigned clinical facility or when they are working as a UAB employee in an area where occupational radiation exposure is monitored.
1. **PURPOSE:**
   To set forth dress standards that will present a professional image of UAB University Hospital.

2. **PHILOSOPHY:**
   It is our belief that the dress/appearance of staff promotes a positive, professional image that projects a caring atmosphere to our patients/customers. It is the responsibility of each Department director/manager to use discretion in the interpretation of this policy to ensure that these standards are met.

3. **POLICY:**
   3.1 All employees are expected to maintain the standards of neatness, cleanliness, grooming and dress. The following guidelines represent minimum standards. Department directors/managers may adopt additional dress standards more stringent (but not less stringent) than the requirements indicated below.

   3.2 Hospital identification badges will be worn at collar/shoulder level while on the Hospital premises for work related purposes. The name and picture will be visible. Clinical areas may alter the location of the identification badge when engaging in an activity that may affect patient safety.

   3.3 Street clothes/uniforms will be clean, wrinkle free and loose fitting to allow for freedom of movement. No halter tops, sweat pants/shirts, or leggings (that are not part of the department uniform) will be worn. Shirt tails must be tucked into pants.
Appendix B Continued...

3.4 Clothing with slogans, advertisements, or logos will not be worn (except that employees may wear clothing with slogans, advertisements, or logos promoting Hospital-sponsored events and initiatives that are authorized by Hospital management (department directors/managers)).

3.5 Dresses/skirts cannot exceed two inches above the knee in length.

3.6 Dress shorts can be worn with a jacket/blazer and cannot exceed two inches above the knee in length.

3.7 Hosiery will be worn with dresses, skirts and dress shorts. Patterned, appliquéd or seamed hosiery are not acceptable.

3.8 Shoes should be comfortable, appropriate for the work environment and consistent with professional attire.

3.9 Sunshades (or other tinted, non-prescription glasses) shall not be worn inside hospital facilities.

3.10 Caps or hats are not acceptable unless a part of the uniform.

3.11 Under garments will be worn and will not be visible.

3.12 Each employee is responsible for his/her daily personal hygiene.

3.13 Jewelry will be conservative/no facial jewelry permitted (except on earlobes).

No more than:

3.13.1 Anklets – 1

3.13.2 Rings may be on 2 fingers per hand (not to extend above the knuckle).

3.13.3 Earrings – No more than 2 pairs may be worn. Earrings will be no larger than two inches in diameter or length.

3.13.4 Necklace – 2 necklaces

3.13.5 Bracelet – 1 to each arm

3.13.6 Watch – 1 watch

3.14 Nails will be neat and clean; no longer than one-half inch from the end of finger.

3.15 Hair will be neat and clean.

3.16 A minimum amount of perfume, cologne or other scented products may be worn outside patient care areas.
Appendix B Continued...

3.17 Uniforms and other applicable items supplied by the Hospital Department (i.e., keys identification badge, etc.) must be returned to the department when an Individual ends employment with the Hospital or transfers to another area within the Hospital.

3.18 Dress standards will be adhered to anytime an employee is on the hospital premises and wearing an identification badge. Requests for exceptions to any of the dress standards based on cultural, religious or medical reasons must be submitted in writing by the employee to the Director, Hospital Human Resources Management for consideration. The employee will receive a written response.

4. DISCIPLINARY ACTION – Rolling 12-Month Basis:
Employees who are in violation of this standard may be sent home without pay to change clothes and return immediately to work. The Department director/manager may use their discretion as to whether or not the employee may make up time missed.

The disciplinary process will be activated consistently with University policy:
4.1 Verbal Warning with Education of Hospital and Departmental Policy (if applicable)
4.2 Written Warning with Education of Hospital and Department Policy
4.3 Suspension and Imposed Probation
4.4 Termination

5. EDUCATION:
5.1 New employees will be presented a copy of the Hospital Dress Code Standard and the Department Dress Code Standard (if applicable) during orientation.

5.2 Each Department Dress Code Standard will address specific requirements for the area (i.e., uniforms) and take into consideration the safety needs of employees and patients, or other customers (i.e., no sandals or open toed shoes, appropriate cover worn over scrub suits when outside sterile environment, etc.). It will also state locations and under what conditions the garments will be worn (i.e., no surgical shoe covers outside surgical area, etc.).

5.3 Department Dress Code Standards will be approved by the respective Associate Executive Director and a copy will be sent to the Human Resource Management, Department of Relations, Administration Building, extension 4-4458.

5.4 Hospital Dress Code Standard evaluation will occur at least annually.

6. SCOPE:
Dress Code Standards applies to all areas of the Hospital.

**REVISIONS:**  This policy is to be reviewed frequently, no less than once every three (3) years, and revised as needed.

**DATE DISTRIBUTED:**

**FILE NAME:**  It should have the same name as the old dress code standard.
Appendix C: Student Evaluation of Supervised Practice

Practicum Site: ____________________________  Academic Year: ____________

In an effort to improve the effectiveness of the supervised practice portion of the MHP program, please respond to the following statements concerning your experience. Use the following rating scale:

- Strongly agree 4
- Agree 3
- Disagree 2
- Strongly disagree 1
- Unable to comment 0

1. My knowledge and skill (from classroom and/or previous experiences) were assessed at the beginning of this practicum. 4 3 2 1 0

2. I clearly understood to whom I was directly responsible to at all times. 4 3 2 1 0

3. Throughout the rotation, the instructors/supervisors attempted to determine how much knowledge and skill I possessed before assigning a particular task. 4 3 2 1 0

4. After the practicum instructors became familiar with my level of proficiency, I was given the opportunity to “try my wings”. 4 3 2 1 0

5. Based on my experience and skill, I would describe the overall degree of supervision I received as:

   Too close ___  Commensurate with need ___  Not close enough ___

   If not commensurate with need, please comment:

6. I clearly understood what my assignments were and what was expected of me. 4 3 2 1 0

7. I understood the criteria for acceptable technical performance. 4 3 2 1 0

8. I understood what was considered acceptable student behavior. 4 3 2 1 0

9. The practicum instructors established daily learning objective for me. 4 3 2 1 0
Appendix C Continued...

Use the following rating scale:

<table>
<thead>
<tr>
<th>Rating</th>
<th>Score</th>
</tr>
</thead>
<tbody>
<tr>
<td>Strongly agree</td>

</table>

10. My rotation provided experiences that reinforced the knowledge and skill I had when I entered the rotation.  
4 3 2 1 0

11. The rotation provided new experiences from which I could learn and grow professionally.  
4 3 2 1 0

12. The rotation was a well-rounded experience.  
4 3 2 1 0

13. There were areas that were over or underemphasized.  
4 3 2 1 0

Identify those areas.

How was this advantageous or disadvantageous to you?

14. I received constructive evaluations and comments about my progress.

APPENDIX D:
Policy Regarding Student Participation in I-131 Therapy

Any student participating in or observing an Iodine-131 therapy must notify the Clinical Coordinator within 24-hours of participation and must have a thyroid uptake performed 24 – 48 hours following participation/observation.

The uptake must be performed at the practicum site or at the UAB Radiation Safety Office. A copy of the results should be submitted to the Program Director.
I. Introduction

The University of Alabama at Birmingham (UAB), also referred to herein as "University," has developed this Identity Theft Prevention Policy to facilitate the University’s Identity Theft Prevention Program ("Program") pursuant to the Federal Trade Commission’s ("FTC") Red Flags Regulation (16 CFR § 681.2), which implements Section 114 of the Fair and Accurate Credit Transactions (FACT) Act of 2003 and the final rules implementing section 315 of the FACT Act. The regulations require each financial institution or creditor to develop and implement a written Identity Theft Prevention Program (Program) to detect, prevent, and mitigate identity theft in connection with the opening of certain accounts and the maintenance of certain existing accounts. For the purpose of these regulations, UAB is considered a creditor and has developed this policy with consideration of the size and complexity of the University's operations, its account systems and the nature and scope of the University's activities.

II. Scope and Applicability of Policy

Managing and protecting data are responsibilities shared by all members of the University community. This policy complements existing “Red Flags” policies of the UAB Health System (UABHS), and other existing University policies related to data security, data protection, and information disclosure. Such policies include, but are not limited to, the UAB Data Protection and Security Policy and the UAB Information Disclosure and Confidentiality Policy. These and other related policies combine to promote UAB’s effort to comply with the Health Insurance and Portability and Accountability Act (HIPAA), the Family Educational Rights and Privacy Act (FERPA), Graham Leach Bliley Act (GLBA), Payment Card Industry (PCI) standards, and the Federal Information Security Management Act (FISMA).

This policy applies to Primary Covered Accounts in Appendix (A) and does not apply to accounts covered under the UABHS “Red Flags” policy.

1. Excepting those individuals covered by the existing UABHS “Red Flags” policy, all other individuals, (faculty, staff, students, and visitors), schools, departments, affiliates and/or other similar entities within the University community, including employees of contracted or outsourced non-UAB entities who have access to covered account Personal Identifying Information (PII) are subject to this policy.
Appendix E Continued...

2. All customer PII not covered by the UABHS “Red Flags” policy is covered under this policy including, but not limited to, PII data contained in centralized institutional systems, department/unit systems, systems created or operated by third party vendors under the direction of UAB, and PII data stored or maintained in any other capacity or medium where there is a reasonable foreseeable risk of identity theft.

III. Definitions and Program

A. Definitions Used in this Program

1. **Identity Theft** is a fraud committed or attempted using the identifying information of another person without authority.
2. **Red Flag** is a pattern, practice, or specific activity that indicates the possible existence of identity theft.
3. An **Account** is a continuing relationship established by a person with a financial institution or creditor to obtain a product or service for personal, family, household or business purposes. Account includes: (i) An extension of credit, such as the purchase of property or services involving a deferred payment; and (ii) A deposit account.
4. A **Covered Account** is (i) any account the University offers or maintains primarily for personal family or household purposes, that allows multiple payments or transactions, including one or more deferred payments; and (ii) any other account the University identifies as having a reasonable foreseeable risk to customers or the safety and soundness of the University from identity theft. A list of covered accounts under this policy can be found in Appendix A.
5. **Program Administrator** is the individual designated with primary responsibility for oversight of the Identity Theft Policy. See Section VII below.
6. An **Identity Theft Prevention Officer** is someone designated by a department with covered accounts to serve as a liaison to the Program Administrator and is responsible for ensuring that the requirements of the Identity Theft Prevention Policy are incorporated in departmental procedures. This person also may be responsible for ensuring the implementation of other University policies that safeguard and protect data from unauthorized access, use, and disclosure.
7. **Personal Identifying Information (PII)** is any name or number that may be used, alone or in conjunction with any other information, to identify a specific person. Below are examples of data fields that are considered PII:
   1. Taxpayer Identification Number (SSN, ITIN or EIN)
   2. System Generated Identification Number (student number or patient number, etc.)
   3. Government Passport Number
   4. Government Issued Driver’s License or Identification Number
   5. Name
   6. Date of Birth
   7. Address
   8. Telephone Number(s)
   9. Personal Identification Number (PIN)
Appendix E Continued...

10. E-mail Address
11. Blazer ID
12. Password
13. Computer Internet Protocol Address

B. Fulfilling Requirements of the Red Flags Regulations
Under the red flags regulations, the University is required to establish an “Identity Theft Prevention Program” tailored to its size, complexity and the nature of its operation. Each University department with covered accounts that maintains, disseminates or disposes of covered account PII data shall designate an individual who will serve as the department’s Identity Theft Prevention Officer.

The Identity Theft Prevention Program must contain reasonable policies and procedures to:
   1. Identify relevant red flags for new and existing covered accounts and incorporate those red flags into the Program;
   2. Detect red flags that have been incorporated into the Program;
   3. Prevent identity theft by responding appropriately to any red flags that are detected;
   4. Mitigate identity theft once it has occurred; and
   5. Update the program periodically to reflect changes in risks to the customer and the University from identity theft.

IV. Identification of Red Flags
In order to identify relevant red flags, the University departments should consider the types of accounts that it offers and maintains, methods it provides to open its accounts, methods it provides to access its accounts, and its previous experiences with identity theft. The University has identified the following red flags in each of the categories listed in this section. Additional red flags may be identified by each department and included in the department’s procedures to prevent, detect, and mitigate identity theft.

A. Notifications and Warnings from a Credit Reporting Agency
   1. A report of fraud accompanying a credit report;
   2. A notice or report from a credit agency of a credit freeze on an applicant;
   3. A notice or report from a credit agency of an active duty alert for an applicant;
   4. Receipt of a notice of address discrepancy in response to a credit report request; and
   5. Indication from a credit report of activity that is inconsistent with an applicant’s usual pattern of activity.
   1. A recent significant increase in the number of inquiries.
   2. An unusual number of recently established credit relationships.
   3. A material change in the use of credit, especially with respect to recently established credit relationships.
   4. An account that was closed for cause or identified for abuse of account privileges by a financial institution or creditor.
Appendix E Continued...

B. Suspicious Documents
1. An identification document or card that appears to be forged, altered or inauthentic;
2. An identification document or card on which a person’s photograph or physical description is not consistent with the person presenting the document;
3. Any other document with information that is not consistent with existing PII maintained by the department or presented by the person opening an account or engaging in an account transaction; and
4. An application for service that appears to have been altered or forged, or gives the appearance of having been destroyed and reassembled.

C. Suspicious Personal Identifying Information (PII)
1. PII presented that is inconsistent with other information on record that the person has provided (example: inconsistent date of birth, SSN, address or telephone numbers, etc.);
2. Identifying information presented that is the same as information shown on other applications that were found to be fraudulent;
3. Identifying information presented that is consistent with fraudulent activity (such as an invalid phone number or fictitious billing address);
4. A Social Security Number presented that is the same as one given by another person;
5. An address or phone number presented that is the same as that of another person not reasonably expected to be a part of the same household; and
6. Failure to provide complete PII in person, on the phone, or on an application when reminded to do so.

D. Suspicious Covered Account Activity or Unusual Use of Account
1. Change of address for an account is followed by a request to change the person’s name;
2. Payments stop on an otherwise consistently up-to-date account;
3. Account is used in a way that is not consistent with prior use;
4. Mail sent to the person is repeatedly returned as undeliverable;
5. Notice is received by the University that a person is not receiving mail sent by the University;
6. Notice is received by the University that an account has unauthorized activity;
7. A breach is detected in the University's computer system security; and
8. Unauthorized access to or use of a person’s account information is detected.

E. Alerts from Others
1. Notice to the University received from an identity theft victim, law enforcement or other individual that the University has opened or is maintaining a fraudulent account for a person engaged in identity theft.
2. Notice to the University from any organization that an account may be fraudulent.
Appendix E Continued...

V. Detecting Red Flags

A. New Covered Accounts

In order to detect any of the red flags associated with the establishment of a new covered account, University personnel shall take the following steps to obtain and verify the identity of the person opening the account:

1. Require certain identifying information such as name, date of birth, academic records, home address, or other identification or combination thereof. The identifying information may vary by department contingent upon the nature of the services provided and the data maintained in departmental records.
2. Verify the person’s identity at the time of issuance of an identification card (review of driver’s license, passport, or other government-issued photo identification).
3. Examine documents presented for identification purposes for evidence of falsification or tampering.
4. Validate that the person has met all other University or departmental requirements associated with the opening of a new account.

B. Existing Accounts

In order to detect any of the red flags identified above for an existing account, University personnel shall take the following steps to monitor transactions on an account:

1. Verify the person’s identity at the time of re-issuance of an identification card (review of driver’s license, passport, or other government-issued photo identification etc.).
2. Verify the identification of a person who is requesting information in person or by telephone, facsimile, email, or other media.
3. Verify the validity of requests to change PII by mail, email, or other media and provide the person a reasonable means of promptly reporting incorrect data changes.
4. Notify the individual by e-mail, U. S. mail, telephone, any other means agreed upon by the individual, or by any combination of these methods when PII changes occur and provide the person a reasonable means to promptly report incorrect data changes.
5. Review periodically the list of data fields included in Section III of this policy under the definition of PII and update the list when new data fields are identified that may become relevant to the prevention, detection, and mitigation of identity theft.

C. Consumer (“Credit”) Report Requests

In order to detect any of the red flags identified above when a credit or background report is sought, University personnel will take the following steps to assist in identifying address discrepancies:

1. At the time a request for a credit report is made to the consumer reporting agency, require written verification from the person that the address provided by the person is accurate.
2. In the event that notice of an address discrepancy is received, verify that the credit report pertains to the person for whom the requested report was made.
3. Report to the consumer reporting agency an address for the person that the University has reasonably confirmed is accurate.

Appendix E Continued...

VI. Preventing and Mitigating Identity Theft

In the event University personnel detect any identified red flags, such personnel shall notify their supervisor or the individual designated as the department’s Identity Theft Prevention Officer. Depending on the department’s assessment of the degree of risk posed by the red flag, one or more of the following steps should be taken.

A. Prevent and Mitigate

1. Delay opening an account until a reasonable belief has been formed that the person for whom a business relationship is being established has been properly identified;
2. Continue to monitor a covered account for evidence of identity theft;
3. Contact the person for whom a red flag was detected;
4. Place the account on hold to prevent unauthorized access or use;
5. Change any passwords or other security devices that permit access to covered accounts;
6. Provide the person with a new identification number or account number;
7. Notify the Program Administrator for determination of the appropriate step(s) to take;
8. Notify UAB Police Department, Criminal Investigation Division;
9. Make corrections to the account to remove unauthorized activity, but maintain documentation to support an investigation;
10. File or assist in filing a Suspicious Activities Report (“SAR”); or
11. Determine that no response is warranted under the particular circumstances.

B. Protect Covered Account Personal Identifying Information (PII)

In order to further prevent the likelihood of identity theft occurring with respect to covered account PII, the department’s Identity Theft Prevention Officer shall take the following steps with respect to its internal operating procedures. These steps may require coordination with UAB Information Technology, Health System Information Services, or any other division responsible for the department’s technical support.

1. Secure all websites containing the ability to access covered account PII;
2. Ensure that office computers with access to covered account PII are password protected;
3. Avoid use of Social Security Numbers when possible;
4. Ensure computer virus protection is up to date;
5. Require and keep only the kinds of information that are necessary for University purposes;
6. Properly store and secure all paper documents, files, CDs, floppy disks, zip drives, flash drives, tapes, and backups containing covered account PII in locked cabinets that are not accessible by any unauthorized individual;
7. Store file cabinets containing covered account PII in a locked room that is not accessible by any unauthorized individual;
8. Designate an employee within the department who will be responsible for controlling
keys to the file cabinet and room, authorizing copies of the keys, and ensuring
distribution of those keys only to employees with legitimate authorized need;

Appendix E Continued...

9. Ensure that sensitive papers are not left on employees’ desks when they are away from
their workstations and that employees work with data in such a way as not to cause an
unauthorized disclosure of information;
10. Include tracking and delivery confirmation when the University is legally required to
provide PII to a third-party; and
11. Ensure complete and secure destruction of paper documents, computer files, and other
data storage mechanisms containing covered account PII when a decision has been
made to no longer maintain such information.

VII. Program Administration
A. Oversight
The President of the University, or her or his designee, shall appoint a Program Administrator
responsible for the identity theft prevention program. The Program Administrator shall work
with the identity theft prevention officers designated by the departments to develop,
implement, and monitor the effectiveness of this program and policy. Also, the Program
Administrator shall communicate policy changes and updates to the Program.

B. Staff Training and Compliance Reports
1. The individual designated as the identity theft prevention officer for a department shall
coordinate with the Program Administrator to provide staff training that is necessary to
detect, prevent, and mitigate identity theft.
2. Periodically, as requested by the Program Administrator, the department’s identity theft
prevention officer shall submit a report to the Program Administrator on compliance
with this Program. The annual report should include all known identity theft incidents
that have occurred during the year. Also, the annual report should address the
effectiveness of this policy and related procedures against the risk of identity theft. Any
recommendations for changes to the Program should be included as well.

C. Service Provider Arrangements
In the event the University engages a service provider to perform an activity in connection with
one or more covered accounts, the University, through its contract review process, shall take
the following steps to ensure the service provider performs its activity in accordance with
reasonable policies and procedures designed to detect, prevent, and mitigate the risk of
identity theft.
1. Require in any contract that service providers have identity theft policies and
procedures in place; and
2. Require in any contract that service providers report any red flags or identity theft
incidents associated with University accounts/records to the University employee with
primary oversight of the service provider relationship.
D. Non-disclosure of Specific Practices
For the effectiveness of the University’s Identity Theft Prevention Program, knowledge about specific red flag identification, detection, mitigation, and prevention practices should be limited to the Program Administrator, Identity Theft Prevention Officers, and departmental employees who are responsible for the implementation of this policy. Any documents that may be reviewed or produced in order to develop or implement this Program that list or describe such specific practices and the information those documents contain are considered confidential and should not be shared with other employees or the public. Also, all documents reviewed or produced as a result of identity theft, or in the investigation of potential identity theft, are considered confidential.

Appendix E Continued...

E. Program Updates
Changes in Federal regulations may require immediate changes to this policy. Also, the Program Administrator shall periodically review and update this policy and program to reflect changes in risks to customers and the University from identity theft. In doing so, the Program Administrator will consider the University’s experiences with identity theft incidents, changes in identity theft methods related to the prevention, detection and mitigation of identity theft, and changes in the University’s business arrangements with other entities. After considering these factors and others as deemed necessary, the Program Administrator will be responsible for recommending policy changes to the appropriate University administrators.

VIII. Implementation of Policy
The Vice President for Financial Affairs and Administration through the Associate Vice President for Financial Affairs is responsible for procedures to implement this policy.
The University of Alabama at Birmingham  
School of Health Professions  
HEALTH PHYSICS PROGRAM

APPENDIX F:  
Identity Theft Prevention Policy  
UAB List of Covered Accounts

As of March 1, 2011
The definition of a “covered account” is promulgated by the following regulatory agencies: Federal Trade Commission (FTC) 16 CFR 681.2; Department of the Treasury Office of the Comptroller of the Currency (OCC) 12 CFR 41.9; Federal Reserve System (FRS) 12 CFR 222.9; Federal Deposit Insurance Corporation (FDIC) 12 CFR 334.9; Department of the Treasury Office of Thrift Supervision (OTS) 12 CFR 571.9; National Credit Union Administration (NCUA) 12 CFR 717.9.

A “covered account” means: (i) an account that a financial institution or creditor offers or maintains, primarily for personal, family, or household purposes, that involves or is designed to permit multiple payments or transactions, such as a credit card account, mortgage loan, automobile loan, margin account, cell phone account, utility account, checking account, or savings account: and (ii) any other account that the financial institution or creditor offers or maintains for which there is a reasonable foreseeable risk to customers or the safety and soundness of the financial institution or creditor from identity theft, including financial, operational, compliance, reputation or litigation risks.

The University will evaluate its accounts and customer relationships to update this list periodically as required by the regulations.

Covered Accounts Identified as of March 1, 2011:  
1. Banner Student Records - Undergraduate Admissions, Graduate Admissions, Registrar’s Office, Financial Aid, Housing Office, Student Accounting, and all other departments with access to student records in Banner  
2. Student Loan Accounts - Office of Student Accounting Services  
3. Campus Card – UAB Campus Card Office  
4. Blazer Bucks Accounts (BlackBoard) - UAB Campus Card Office  
5. Advancement Accounts (Banner: Alumni and other Contributors) - Office of Development, Alumni, and External Relations  
6. Retiree Payment Accounts - Benefits Office - Human Resources Management  
8. Patient Accounts - Dental Clinics - School of Dentistry  
9. Patient Accounts - Optometry Clinic – School of Optometry
