**Honors Project must be spread out over a minimum of two semesters

Why Honors for You

The School of Health Professions Undergraduate Honors and Research Program is for you if you are intellectually curious, highly motivated, and willing to put in the extra work to set yourself apart.

The Honors Program provides you with an opportunity to not only deepen your understanding of research but allow you to pursue your own interests and grow personally and professionally.

It is an opportunity for talented, enthusiastic students to cultivate their ideas into a research or service project.

Benefits for You

The honors experience is designed to assist you in developing confidence and skills in critical thinking, the research process and leadership in health care settings; and improving oral and written communication skills. It is a wonderful opportunity for students who want to go beyond classroom learning and work on a project that is of interest to them.

Upon completion you will graduate with school-wide honors designated on your transcript and receive special acknowledgment at graduation.
