

Ch-Ch-Ch-Ch-Changes

Kaltura users, you may have already noticed that your My Media page looks a little different these days. Here's the new way to find what you're looking for:

1. In the top left corner of your My Media page, click on Filters.

When the box below appears, sort your videos by status, media type, or ownership. If you are a collaborator on a video, click on Media I Can Publish or Media I Can Edit.

2. You can also choose the drop-down menu by clicking on Sort by Most Recent

My Media

Filters **Sort by Most Recent**

This will give you the option to sort your videos alphabetically.

Sort by Most Recent ▾

- ✓ Most Recent
- Alphabetical
- Comments
