

Tuesday Tip

5 New Respondus Lockdown Browser Features

The new Respondus LockDown Browser (RLDB) app is now available in Canvas. To access the RLDB, click on the “LockDown Browser” link located in the course navigation menu on the left side. You will be prompted to “Authorize Respondus Monitor Server” the first time you access the link. Once a quiz is created in the Quizzes area, instructors may enable the app and its settings by clicking the “LockDown Browser” link.

Here are five advanced settings and how they work (see the screen shot below):

- 1. Prevent an early browser exit** – This prevents students from exiting the browser until an exam is completed. This can be used in testing centers in which a proctor can enter a password to exit an exam early.
- 2. iPad Setting** - [Click here](#) for instructions on allowing students to take an exam with an iPad using the free [LockDown Browser app](#).
- 3. Screen reader accessibility** – This allow specific students to access an exam with screen reader accessibility programs. See [Respondus Accessibility](#) for an additional step that’s required by the student.
- 4. Calculator** – Provide students a calculator in the Lockdown Browser toolbar.
- 5. Print Function** – Provide students the ability to print from the toolbar.

LockDown Browser Settings

Don't require Respondus LockDown Browser for this exam

Require Respondus LockDown Browser for this exam

Require LockDown Browser to view feedback and results

Password Settings

Access code for this exam (optional)

[-] **Advanced Settings**

Lock students into the browser until exam is completed [\[explain\]](#)

Allow students to take this exam with an iPad (using the "LockDown Browser" app from iTunes) [\[explain\]](#)

Allow specific students to access this exam with screen readers (e.g. JAWS, Window-Eyes) [\[explain\]](#)

Enable Calculator on the toolbar [\[explain\]](#)

Enable Printing from the toolbar [\[explain\]](#)

Cancel Save and Close

For additional information, select the “explain” link that follows each setting.

IMPORTANT NOTE: The “Require Respondus LockDown Browser” checkbox is no longer available in the Quiz settings. Additionally, ONLY users with “teacher” role in Canvas courses are able to access the RLDB link. Users with “Instructional Designer” or “Teaching Assistant” role can still create quizzes but only users with “teacher” role can enable the RLDB.
