

Tuesday Tip

Bare Necessities

There are several ways to navigate courses in Canvas. The course tabs that run along the left-hand side of each course help students easily get from Assignments to Quizzes to Discussions. NOTE: Students do not see tabs that are grayed out as these are "empty".

Course Name

Instructor: Instructor Name & instructorname@uab.edu

Having unnecessary tabs available to click on may be confusing. Simplify things for you and your students by updating the course navigation following these simple steps:

1. Go to the bottom of these tabs and click on Settings.

2. On the Settings page, click the Navigation tab. NOTE: While you will not see a red line in Canvas, this line denotes the separation between tabs that are visible and those that are hidden.

The screenshot shows the Canvas Settings page, Navigation tab. The 'Navigation' tab is highlighted with a red box. A red horizontal line is positioned below the 'Proctoru' item in the list, indicating a separation between visible and hidden tabs.

MyLab and Mastering	⚙️ ▼

Drag items here to hide them from students.
Disabling most pages will cause students who visit those pages to be redirected to the course home page.

3. To hide a tab, simply drag it below the red line shown above OR click the dropdown on the right of the label and then click Disable.
