InnoHack 2016 Instructions and Rules:

1. In order to participate in the event, you must be registered by the start of the event and have paid the registration fee. You can register the day of the event; however, registration will close 2 hours before the start of the event.

2. You can only register as an individual. Each participant must come willing to be randomly assigned to a team and participate fully with that team.

3. Each team must have access to Microsoft PowerPoint.

4. Each team must submit a voice-over PowerPoint proposal of their idea by email to the judging panel. The email should be received by the judging panel no later than the submission deadline. Any email received after the submission deadline will not be accepted for entry. (It is highly encouraged after submitting the proposal that teams confirm with the judging panel that their team idea has been received.)

5. The judging panel will select 5 finalists for final presentations. These finalists will present their proposal in person to 5 judges. They will be provided 10 minutes for their presentation and an additional 5 minutes will be answering questions from the judges.

6. Teams will be allowed to choose their workspace throughout Innovation Depot. Designated areas will be assigned for certain events.

7. This is a 24-hour, overnight event. Once the hack portion of the InnoHack begins, teams are not allowed to leave Innovation Depot. If a team or individual leaves, they forfeit their entry in the event.

8. Teams are allowed to use any resources they choose to create their ideas.

9. Each entry must be original, of the Participant’s or Participant’s teams own creation and newly written during the Hackathon and must not have been entered in any other competition or program similar to the Hackathon, including other competitions conducted by Sponsors.
