

Directions to the Pediatric Simulation Center

From SON/SHP/Volker Hall...

Enter Children's at the 7th Avenue entrance to the McWane building. After going through the rotating doors, stop at the information desk and obtain a visitor badge. Go the main set of elevators past the information desk (on the left). Go to the second floor. Make a left off of the elevators and then an immediate right down a long hallway. You should see a paper sign on the wall that says Simulation Center and Sleep Center. After passing the X Ray counter, there will be a set of stairs on your left. You will have to look for an exit sign to find the steps. Go up the steps to the 3rd floor. Make a left down the hall and the Conference Room will be on your right. We will have signs posted on the door.

From the WIC...

Enter Children's via the crosswalk from the WIC on the 2nd floor. You will come out into the main lobby of the Russell Hospital. Follow the blue river on the floor to the left past the gift shop. Stay on the river and wind around through the Harbor Building and go left over a crosswalk that takes you over 6th Avenue. Once you cross over the crosswalk, make a left down the hall before the main elevators. You should see a paper sign on the wall that says Simulation Center and Sleep Center. After passing the X Ray counter, there will be a set of stairs on your left. You will have to look for an exit sign to find the steps. Go up the steps to the 3rd floor. Make a left down the hall and the Conference Room will be on your right. We will have signs posted on the door.
