BIOLOGY

The Biology Department reserves the right to cancel any lecture sections with fewer than 10 students or lab sections with fewer than 15 enrolled. Students who register for a laboratory section that conflicts with other classes or work should not expect to be able to change sections when classes start. Students who miss the first laboratory session may be subject to the university policy of being administratively withdrawn from the class. Students will not be allowed to change or add laboratory sections without the signature of the instructor or laboratory coordinator beginning the first day of class. Labs will begin the week of June 4, 2007.

**NOTE:** All biology courses that have required associated laboratories will require a signature of the laboratory coordinator to add the class beginning the first day of classes. No one will be added to a class (even if it has not yet met) without the proper signature.

**Please Note:** Students are not allowed to add any Biology class after classes begin without the express written signatures of the lecture professor and appropriate lab coordinator.

CHEMISTRY

All chemistry labs will begin the first full week of classes for the Summer semester 2007. This is the week beginning on Monday, June 4, 2007. A copy of your registration form must be presented to your lab instructor during the first lab session in order to check in and perform the first experiment. The Chemistry Department reserves the right to cancel any lecture or lab section with fewer than 10 students enrolled. Students who register for a lab section that conflicts with other classes or work will not be able to change sections after classes start. Students who miss the first laboratory session will be subject to the university policy of being administratively withdrawn from the class. Suitable protective clothing must be worn in the Laboratories. Such clothing as shorts and sandals are not permitted and will be grounds for refusal of admittance to the laboratories.

**NOTE:** During registration after classes begin a signature is required. Such clothing as shorts and sandals are not permitted. Suitable protective clothing must be worn in the Laboratories.

To be eligible to register for CH 115 (General Chemistry I), a student must have completed Chemistry 100 or a full year of high school chemistry with a grade of C or higher and completed MA 106 with a grade of C or higher or be concurrently enrolled in MA 106 or a higher level MA course. The Chemistry Department will rigorously enforce the policy that students who have not fulfilled this requirement will be administratively withdrawn from CH 115.

### COMPUTER SCIENCE

All CS 101 lectures require a corresponding lab. Please choose a lab section that is listed just below the lecture section. Students whose lab and lecture sections do not correspond may be dropped from the course entirely. All CS 101 labs have a mandatory first day attendance policy. For all CS 101 lecture sections, first day of class, midterm exam and final exam attendance is mandatory.

African-American Studies

The program in African-American Studies offers an interdisciplinary approach to the black experience. The program is designed to provide a comprehensive understanding of black culture and society in Africa, the Caribbean, and North and South America. For information, contact Dellita Martin-Ogunsola, Interim Director of African American Studies, 1055 11th Street South, 1055 Building, Room 102, 975-9652.

Co-op Work Program

In order for a cooperative education (co-op) experience to be recognized by the University and posted to an academic transcript, a student must register for co-op prior to the term he/she plans to participate. If a student fails to register for co-op by the last day to add classes, as published in the class schedule, the co-op experience will not be posted to his/her transcript retroactively. Students will be assessed a University fee of $40 per work period as a parallel (part-time) Co-op student or $60 per work period as an alternating (full-time) Co-op student. Failure to register for co-op may affect a student's status at UAB as well as eligibility for loan deferment and/or health insurance. Students who are registered for co-op may consult their academic department to determine if they are eligible to receive academic credit for their experience. For more information, please contact the co-op program in Career Services, 934-4324.
