2015 10TH ANNUAL UAB HEALTH DISPARITIES RESEARCH SYMPOSIUM

The UAB Health Disparities Research Symposium is UAB's annual forum designed to keep scientists at UAB and other academic institutions across the Southeast, including key minority institutions, at the forefront of health disparities research. The event highlights the work of investigators in basic science and clinical, behavioral, social, and community-based research as it relates to health disparities, enabling scholars to share ideas and build important networks in the scientific community. The symposium, now in its tenth year, works hand in hand with other programs of the UAB Minority Health and Health Disparities Research Center to encourage investigators to enter the field of health disparities research. Thank you for your participation and support.
