Clinical Laboratory Science professionals are a vital part of the healthcare team providing critical diagnostic information to physicians and other healthcare professionals.

Our students learn how to select, perform and interpret complex testing to diagnose, treat, manage and assess risk for human disease including tests in: Hematology, Microbiology, Transfusion Medicine, Molecular Biology, Clinical Chemistry, and Immunology.

If you want to make a difference in the lives of others and play an integral role in healthcare, then Clinical Laboratory Sciences is for you.
