1. Presentation by Andrew Keitt

2. Programs
   a. Selection of the First Group for the Teaching Certificate Program – Ronan/Jonathan

3. Technology
   a. Online Student Validation Project/Proctoring & Clickers – Jonathan/Ronan
   b. Level of Prioritization on lecture capture options from the individual school perspective – Ronan/Jonathan
   c. Turnitin/Plagiarism Tool

4. Open Discussion

5. Schedule for upcoming CTL Advisory Council meetings
   - October 3
   - November 1
   - December 5
Academic Advisory Council to the Center for Teaching and Learning (AAC-CTL)

The purpose of the Academic Advisory Council is to provide a channel for collaboration, feedback and guidance between academic units and the Center for Teaching and Learning. This includes guidance to Instructional Technology (related to technologies) and to Faculty/Student Success (related to pedagogy and best practices) that could be recommended for campus-wide adoption in both the online and classroom learning environments. Specifically, the AAC will provide such feedback and guidance as it relates to:

- Applicability to the instructional needs of UAB faculty and students
- Breadth of potential use and adoption by faculty
- Effectiveness (demonstrated through pilot projects, faculty experience, etc.)
- Ongoing support availability both at the school and University levels
- Funding
- Priority

Membership: The Council will include one faculty representative from each academic unit (college/school) and a representative from the UAB Faculty Senate. Other approved representatives, including a representative from Instructional Technology and Faculty/Student Success, may attend meetings, but are not considered voting members of the Council. The Council will be co-chaired by the Vice President of Information Technology and the Vice Provost for Faculty and Student Success. The Council may also engage representatives from the larger community as needed for more specific or detailed review.

Process: The Council will meet at least quarterly. As appropriate, representatives of the Center for Teaching and Learning and the AAC will work together to review certain technologies and programs that may enhance the campus-wide teaching and learning environment. The AAC will review such recommendations or information and assist the CTL in determining the value and priority of adopting the technology or program for the overall learning environment.
Academic Advisory Council  
*to the Center for Teaching & Learning*  

**AGENDA**  
*November 1, 2012*

1. Dr. Dawn Taylor Peterson - update on behalf of Dr. Claire Peel’s office.

2. CTL Activities Updates  
   a. Briefly update committee members on recent activities/events – Ronan/Jonathan  
   b. Feedback from the committee (Was it well-received/helpful, should it be repeated/changed, etc.?) – Ronan/Jonathan

3. Office of Vice Provost  
   a. Upcoming programming and ideas  
   b. IDEA Student Survey

4. Technology  
   a. Clicker Project (See handout) – Ronan/David  
   b. Student Validation Project (See handout) – Ronan/David  
   c. Learning Environment Evaluation

5. Open Discussion

6. Schedule for upcoming CTL Advisory Council meeting  
   - December 5  
   - Discuss scheduling of spring meeting.

Academic Advisory Council to the Center for Teaching and Learning (AAC-CTL)

The purpose of the Academic Advisory Council is to provide a channel for collaboration, feedback and guidance between academic units and the Center for Teaching and Learning. This includes guidance to Instructional Technology (related to technologies) and to Faculty/Student Success (related to pedagogy and best practices) that could be recommended for campus-wide adoption in both the online and classroom learning environments. Specifically, the AAC will provide such feedback and guidance as it relates to:

- Applicability to the instructional needs of UAB faculty and students
- Breadth of potential use and adoption by faculty
- Effectiveness (demonstrated through pilot projects, faculty experience, etc.)
- Ongoing support availability both at the school and University levels
- Funding
- Priority

Membership: The Council will include one faculty representative from each academic unit (college/school) and a representative from the UAB Faculty Senate. Other approved representatives, including a representative from Instructional Technology and Faculty/Student Success, may attend meetings, but are not considered voting members of the Council. The Council will be co-chaired by the Vice President of Information Technology and the Vice Provost for Faculty and Student Success. The Council may also engage representatives from the larger community as needed for more specific or detailed review.

Process: The Council will meet at least quarterly. As appropriate, representatives of the Center for Teaching and Learning and the AAC will work together to review certain technologies and programs that may enhance the campus-wide teaching and learning environment. The AAC will review such recommendations or information and assist the CTL in determining the value and priority of adopting the technology or program for the overall learning environment.
Education Technology:

1. **Audience response systems (Clickers):** At our last meeting we recommended that, with little difference in service, features, or preference from our evaluation group, we select the system with the lowest cost to the student as an institution standard. Options include:

   a. i>clcker2 - $35.99; $9 for 180-day, web-based smart device option ($16 for 365 days)

   b. ResponseCardNXT (Turning Technologies): $40 [includes $1 year licenses for web-based smart device option]; $9 for 180-day, web-based smart device option ($15 for 365 days)

   c. Currently, both options are used on campus: i>clcker is used in the College of Arts and Sciences (Biology, Psychology and Justice Science courses); and the School of Nursing. Turning Technologies’ solution is used in the schools of medicine and optometry.

________________________________________________________________________________________
2. **Student Validation & Exam Proctoring:** We recommended that we initiate a pilot project to test use of Kryterion Webassessor's exam proctoring solution alongside the ProctorU solution currently used in the Schools of Business, engineering, and College of Arts & Sciences. We need to identify courses in which we will pilot this solution so that we can initiate this effort.

Academic Advisory Council
to the Center for Teaching & Learning

AGENDA
December 5, 2012

1. CTL Activities Planned for Spring - Jonathan
   - Monthly topical sessions for the two Teaching Certificate groups (Teaching with Technology and Effective Teaching Practices)
   - Special Presentation on Brain-Based Learning (The physiology and psychology of how the human brain learns and remembers.)
   - IDEA-Related training. Will attend the 2-day Academic Chairs Training workshop at the IDEA training conference in February to prepare for the following two offerings at UAB:
     - How to make use of IDEA results and feedback for faculty and chairs (to be offered each fall and spring semester).
     - Workshop for new chairs on the process of administering IDEA evaluations and interpreting the data (to be offered annually).
   - Methods and criteria other than student course evaluations for assessing teaching (to be offered each semester—until campus is sufficiently saturated).
   - Confronting Cheating – Common Situations with Advise from a Lawyer [Tentatively for spring—may be later].

2. UAB learning environment evaluation project - Ronan

3. Campus media management evaluations - Ronan

4. Lecture recording solutions update - Ronan

5. Critical Thinking Series – presenter identification – Ronan

6. Open Discussion

7. Schedule for upcoming CTL Advisory Council meeting
   - Discuss scheduling of spring meeting.

What is need for Jan. repeat of 2-Day Quick Course? Have to find a way to match-up with faculty schedules.
