Obesity and Related Comorbidities Coding Fact Sheet for Primary Care Pediatricians

While coding for the care of children with obesity and related comorbidities is relatively straightforward, ensuring that appropriate reimbursement is received for such services is a more complicated matter. Some insurance carriers will deny claims submitted with “obesity” International Classification of Diseases, 9th Revision, Clinical Modification (ICD-9-CM) codes (eg, 278.00), essentially carving out obesity-related care from the scope of benefits. Therefore, coding for obesity services is fundamentally a two-tiered system in which the first tier requires health care professionals to submit claims using appropriate codes and the second tier involves the practice-level issues of denial management and contract negotiation.

This coding fact sheet provides a guide to coding for obesity-related health care services. Strategies and a template letter for pediatric practices to handle carrier denials.

Procedure Codes

Body Fat Composition Testing

There is no separate Current Procedural Terminology (CPT®) code for body fat composition testing. This service would be included in the examination component of the evaluation and management (E/M) code reported.

Calorimetry

<table>
<thead>
<tr>
<th>Code</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>94690</td>
<td>Oxygen uptake, expired gas analysis; rest, indirect (separate procedure)</td>
</tr>
<tr>
<td>94799</td>
<td>Unlisted pulmonary service or procedure [Note: Special report required.]</td>
</tr>
</tbody>
</table>

Glucose Monitoring

<table>
<thead>
<tr>
<th>Code</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>95250</td>
<td>Ambulatory continuous glucose monitoring of interstitial tissue fluid via a subcutaneous sensor for up to 72 hours; sensor placement, hookup, calibration of monitor, patient training, removal of sensor, and printout of recording</td>
</tr>
<tr>
<td>95251</td>
<td>Ambulatory continuous glucose monitoring of interstitial tissue fluid via a subcutaneous sensor for up to 72 hours; interpretation and report</td>
</tr>
</tbody>
</table>

Routine Venipuncture
36415 Collection of venous blood by venipuncture
36416 Collection of capillary blood specimen (eg, finger, heel, ear stick)

Venipuncture Necessitating Physician’s Skill

36406 Venipuncture, younger than 3 years, necessitating physician’s or other qualified healthcare professional's skill, not to be used for routine venipuncture; other vein
36410 Venipuncture, 3 years or older, necessitating physician’s other qualified healthcare professional's skill (separate procedure), for diagnostic or therapeutic purposes (not to be used for routine venipuncture)

Digestive System Surgery Codes

43644 Laparoscopy, surgical, gastric restrictive procedure; with gastric bypass and Roux-en-Y gastroenterostomy (Roux limb 150 cm or less)
43645 Laparoscopy, surgical, gastric restrictive procedure; with gastric bypass and small intestine reconstruction to limit absorption
43842 Gastric restrictive procedure, without gastric bypass, for morbid obesity; vertical-banded gastroplasty
43843 Gastric restrictive procedure, without gastric bypass, for morbid obesity; other than vertical-banded gastroplasty
43845 Gastric restrictive procedure with partial gastrectomy, pylorus-preserving duodenoileostomy and ileoileostomy (50 to 100 cm common channel) to limit absorption (biliopancreatic diversion with duodenal switch)
43846 Gastric restrictive procedure, with gastric bypass for morbid obesity; with short limb (150 cm or less) Roux-en-Y gastroenterostomy
43847 Gastric restrictive procedure, with gastric bypass for morbid obesity; with small intestine reconstruction to limit absorption
43848 Revision, open, of gastric restrictive procedure for morbid obesity; other than adjustable gastric band (separate procedure)

Health and Behavior Assessment/Intervention Codes

*These codes cannot be reported by a physician*, nor can they be reported on the same day as preventive medicine counseling codes (99401–99412).

96150 Health and behavior assessment (eg, health-focused clinical interview, behavioral observations, psychophysiologic monitoring, health-oriented questionnaires), each 15 minutes face-to-face with the patient; initial assessment
96151 Health and behavior assessment (eg, health-focused clinical interview, behavioral observations, psychophysiologic monitoring, health-oriented questionnaires), each 15 minutes face-to-face with the patient; reassessment

The focus of the assessment is not on mental health, but on the biopsychosocial factors important to physical health problems and treatments.

96152 Health and behavior intervention, each 15 minutes, face-to-face; individual
96153 Health and behavior intervention, each 15 minutes, face-to-face; group (2 or more

*CPT copyright 2012 American Medical Association. All rights reserved.*
patients)

96154 Health and behavior intervention, each 15 minutes, face-to-face; family (with patient present)

96155 Health and behavior intervention, each 15 minutes, face-to-face; family (without patient present)

The focus of the intervention is to improve the patient’s health and well-being using cognitive, behavioral, social, and/or psychophysiologic procedures designed to ameliorate the specific obesity-related problems.

Medical Nutrition Therapy Codes

These codes cannot be reported by a physician.

97802 Medical nutrition therapy; initial assessment and intervention, individual, face-to-face with patient, each 15 minutes

97803 Medical nutrition therapy; reassessment and intervention, individual, face-to-face with the patient, each 15 minutes

97804 Medical nutrition therapy; group (2 or more individuals), each 30 minutes

Healthcare Common Procedural Coding System (HCPCS)
Level II Procedure and Supply Codes

Current Procedural Terminology codes are also known as Healthcare Common Procedure Coding System (HCPCS) Level I codes. HCPCS also contains Level II codes. Level II codes (commonly referred to as HCPCS [“hick-picks”] codes) are national codes that are included as part of the Health Insurance Portability and Accountability Act of 1996 (HIPAA) standard procedural transaction coding set along with CPT codes.

Healthcare Common Procedure Coding System Level II codes were developed to fill gaps in the CPT nomenclature. While they are reported in the same way as CPT codes, they consist of 1 alphabetic character (A–V) followed by 4 digits. In the past, insurance carriers did not uniformly recognize HCPCS Level II codes. However, with the advent of HIPAA, carrier software systems must now be able to recognize all HCPCS Level I (CPT) and Level II codes.

HCPCS Education and Counseling Codes

S9445 Patient education, not otherwise classified, nonphysician provider, individual, per session

S9446 Patient education, not otherwise classified, nonphysician provider, group, per session

S9449 Weight management classes, nonphysician provider, per session

S9451 Exercise class, nonphysician provider, per session

S9452 Nutrition class, nonphysician provider, per session

S9454 Stress management class, nonphysician provider, per session

S9455 Diabetic management program, group session

S9460 Diabetic management program, nurse visit

S9465 Diabetic management program, dietitian visit

S9470 Nutritional counseling, dietitian visit
### Diagnosis Codes

278.02 Overweight
278.1 Localized adiposity
278.8 Other hyperalimentation

Genitourinary System

611.1 Hypertrophy of the breast

Mental Disorders

300.00 Anxiety state, unspecified
300.02 Generalized anxiety disorder
300.4 Dysthymic disorder
307.50 Eating disorder, unspecified
307.51 Bulimia nervosa
307.59 Other disorders of eating
308.3 Other acute reactions to stress
308.9 Unspecified acute reaction to stress
311 Depressive disorder, not elsewhere classified
313.1 Misery and unhappiness disorder
313.81 Oppositional defiant disorder

Musculoskeletal System and Connective Tissue

732.4 Juvenile osteochondrosis of lower extremity, excluding foot

Nervous System and Sense Organs

327.23 Obstructive sleep apnea (adult) (pediatric)
348.2 Benign intracranial hypertension

Skin and Subcutaneous Tissue

701.2 Acquired acanthosis nigricans

Symptoms, Signs, and Ill-Defined Conditions

780.51 Insomnia with sleep apnea, unspecified
780.53 Hypersomnia with sleep apnea, unspecified
780.54 Hypersomnia, unspecified
780.57 Unspecified sleep apnea
780.59 Sleep disturbance; other
780.71 Chronic fatigue syndrome
780.79 Other malaise and fatigue
783.1 Abnormal weight gain
783.3 Feeding difficulties and mismanagement
783.40 Lack of normal physiological development, unspecified
783.43 Short stature
783.5 Polydipsia
783.6 Polyphagia
783.9 Other symptoms concerning nutrition, metabolism, and development
786.05 Shortness of breath
789.1 Hepatomegaly
790.22 Impaired glucose tolerance test (oral)
790.29 Other abnormal glucose; prediabetes not otherwise specified
790.4 Nonspecific elevation of levels of transaminase or lactic acid dehydrogenase (LDH)
790.6 Other abnormal blood chemistry (hyperglycemia)

Other

NOTE: The ICD-9-CM codes that follow are used to deal with occasions in which circumstances other than a disease or injury are recorded as diagnoses or problems. Some carriers may request supporting documentation for the reporting of V codes.

V18.0 Family history of diabetes mellitus
V18.19 Family history of other endocrine and metabolic diseases
V49.89 Other specified conditions influencing health status
V58.67 Long-term (current) use of insulin
V58.69 Long-term (current) use of other medications
V61.01 Family disruption due to family member on military deployment
V61.02 Family disruption due to return of family member from military deployment
V61.03 Family disruption due to divorce or legal separation
V61.04 Family disruption due to parent-child estrangement
V61.05 Family disruption due to child in welfare custody
V61.06 Family disruption due to child in foster care or in care of non-parental family member
V61.07 Family disruption due to death of family member
V61.08 Family disruption due to other extended absence of family member
V61.09 Other family disruption
V61.20 Counseling for parent-child problem, unspecified
V61.29 Parent-child problems; other
V61.49 Health problems with family; other
V61.8 Health problems within family; other specified family circumstances
V61.9 Health problems within family; unspecified family circumstances
V62.81 Interpersonal problems, not elsewhere classified
V62.89 Other psychological or physical stress not elsewhere classified; other
V62.9 Unspecified psychosocial circumstance
V65.19 Other person consulting on behalf of another person
V65.3 Dietary surveillance and counseling

CPT copyright 2012 American Medical Association. All rights reserved.
V65.41  Exercise counseling
V65.49  Other specified counseling
V69.0   Lack of physical exercise
V69.1   Inappropriate diet and eating habits
V69.8   Other problems relating to lifestyle; self-damaging behavior
V69.9   Problem related to lifestyle, unspecified
V85.51  Body mass index, pediatric, less than 5th percentile for age
V85.52  Body mass index, pediatric, 5th percentile to less than 85th percentile for age
V85.53  Body mass index, pediatric, 85th percentile to less than 95th percentile for age
V85.54  Body mass index, pediatric, greater than or equal to 95th percentile for age

Obesity Services: Sample Carrier Letter

To: Claims Processing Department or Health Plan Medical Director  
RE: Bundling services related to obesity evaluation and treatment  
Claim # ____________________

The above referenced claim inappropriately bundled separately reported services. I would like to clarify that Current Procedural Terminology (CPT®) guidelines indicate that services that are identified with specific codes should be reported separately from any other code(s) and therefore, they should not be bundled into any other code(s). Unfortunately, many carriers are unaware that they are violating CPT guidelines when they inappropriately bundle 2 services together when each of the involved services has a separate CPT code. This concept is found throughout CPT guidelines. Some examples include

“If an abnormality/ies is encountered or a preexisting problem is addressed in the process of performing this preventive medicine service, and if the problem/abnormality is significant enough to require additional work to perform the key components of a problem-oriented E/M service, then the appropriate Office or Other Outpatient code 99201–99215 should also be reported. Modifier 25 should be appended to the Office or Other Outpatient code to indicate that a significant, separately identifiable E/M service was provided by the same physician on the same day as the preventive medicine service.”

“Immunizations and ancillary studies involving laboratory, radiology, other procedures, or screening tests identified with a specific CPT code are reported separately.”

The CPT guidelines are applicable to any other screening tests or procedures that are identified with a specific CPT code such as calorimetry, glucose monitoring, and venipuncture. Therefore, physicians are correct in reporting such services separately from any accompanying evaluation and management service. Those separately reportable services that are not recognized by a carrier should be designated as noncovered benefits and billable to the patient.

Enclosed is a copy of the original claim that was submitted with a request that you process reimbursement as indicated on the claim. I look forward to receiving your response. If you have any questions, please feel free to contact me at ____________________.

Sincerely,
