

Scholarship Opportunities

for Students in UAB Undergraduate Cancer Research

RACE²¹

The RACE21 Scholarship is open to all students currently enrolled in or admitted to a degree-granting program related to cancer research. However, priority may be given to students in the Cancer Biology program. To be considered, students must demonstrate solid academic promise and leadership qualities, and have an overall 3.0 GPA or higher. In order to receive this award, students must make efficient progress towards graduation and must be enrolled full time in coursework required for their College of Arts and Sciences degree program during the semester of designated disbursement as well as maintain a minimum overall 3.0 GPA or higher. Additionally, students are required to conduct cancer-related research at an approved UAB laboratory¹ and must present their research findings at the annual undergraduate Summer Science Expo. Students not meeting these conditions will have their scholarships terminated. The scholarships are available for undergraduate students only. The RACE21 scholarship is an annual award. Recipients of this scholarship may apply for the award in subsequent years.

¹ Rising Freshman and Sophomores are expected to complete a 9-week research summer internship. Summer internships typically will start by the first week of June and will be completed by the end of July. Additionally, students that are in their junior and senior year will be enrolled in undergraduate research hours during the Fall and Spring Semesters.
