IN TURN-OF-THE-CENTURY VIENNA
SEX MAKES THE WORLD 'GO ROUND.
WHAT A SHAME IT ISN'T LOVE.

Arthur Schnitzler wrote this play in Vienna in 1896, and he saw around him a society preoccupied with glamour and pleasure and surface appearance—with the whipped cream which was so tasty on the Viennese pastries which everyone enjoyed. Beneath the surface he saw emptiness. His characters are preoccupied with sexual relationships in many forms, within and across social classes, all of them lacking the love which makes the relationship worthwhile. Only in the final scene—the single scene without sexual content—do people come close to friendship. But here, too, they fail, leaving both characters thinking about what might have been. We might ask ourselves how different our society is from Schnitzler’s.

When the play was written, it was considered so daring that it could not be produced—both because of its overt sexuality and because of its point of view. It did not appear on stage in Austria until 1921.

As an addition to Schnitzler’s script, our dancers characterize the quality of the sexual relationships throughout the play. In a larger sense, society dances on and on as the scenes between individuals pass by. Life can be funny as it passes, but ultimately for Schnitzler and for many of us life without love is a melancholy time.

The German title Reigen means a dance, a square dance, in which people continually change partners until the dance comes full circle and completes the “round” which defines the French title La Ronde.
