

CCTS CLINICAL TRIALS INITIATIVE

Frannie Horn JD EdS, Program Manager, CCTS Multisite Study Support & Trial Innovation Network Hub Point of Contact; Jennifer Croker PhD, Director of Administration and Fiscal Affairs, CCTS; Mark Marchant MPH MBA CCRP, Director, Clinical Trials Administrative Office; Jason Nichols OD MPH PhD, Director, Trial Innovation Network Hub Liaison Team; Robert P. Kimberly MD, Principal Investigator, CCTS

The Trial Innovation Network is a new collaborative initiative within the CTSA Program and is composed of three key organizational partners – the CTSA Program Hubs, the Trial Innovation Centers (TICs), and the Recruitment Innovation Center (RIC). All are key partners of the Trial Innovation Network and make unique and essential contributions. Other important partners include NIH Institutes, other federal and non-federal stakeholders, researchers, patients, providers, and the public.

CRSP

Our Clinical Research Support Program provides a pool of trained, certified research nurses and coordinators to assist you with study implementation

- Interpretation and adherence to regulatory requirements
- Organizational and budget management
- Communication with sponsors
- Internal quality measures
- Data management

Contact: Meredith Fitz-Gerald

i2b2 is a self-service tool that enables researchers to access EHR data in the Cerner system significantly faster than requesting data from Enterprise Data Warehouse analysts. Investigators can use i2b2 for generating hypotheses, estimating cohort size, exploring recruitment potential, and conducting simple data analyses suitable for correlational and retrospective studies.
