CCTS Regional Shared Facilities & Resources

Collaboration with the CCTS Partner Network creates many opportunities for expanding and improving research capacities, including access to unique facilities across the southeast region. This list includes resources like the UAB Cryo-Electron Microscopy Facility (CRYO-EM) and Auburn University's MRI Research Center, and is continuously being updated with more assets.

Learn more about our regional shared facilities here.

6 Tips for an Amazing Panel Experience

Gaining feedback before submitting a grant application can be invaluable, and the CCTS is proud to be a partner in this process. Follow these tips to have the best possible panel experience.

FUNDING OPPORTUNITIES

National Science Foundation Major Research Instrumentation Program

Learn more about this opportunity for instrument acquisition or development. Should you pursue participation in the program, work in coordination with institutional leadership. Researchers at the CCTS Hub (UAB) should take note of institutional review processes recently put in place.

Happy Research Administrator’s Day!
The CCTS is proud to celebrate National Research Administrator Day, observed annually on September 25th, recognizing all of those who help faculty and researchers achieve their goals! We owe much gratitude to the individuals and teams who support the dynamic research efforts across the CCTS Partner Network. Thank you to all CCTS research administrators, today and every day!
