

Overcome Barriers to Discovery with CCTS Research Vouchers

Let CCTS help you cross the finish line.

The Center for Clinical and Translational Science (CCTS) Voucher Program provides **up to \$5,000 in direct research support** to investigators throughout the Partner Network.

Projects should align with the CCTS mission. Voucher funds should be used to offset expenses for clinical and translational research services that will enable a grant or manuscript.

The mission of the CCTS is to address disparities and diseases disproportionately represented within the Deep South as we accelerate discovery to improve human health.
