Now Accepting CCTS Predoctoral Clinical/Translational Research Program (TL1) Applications

This mentored research experience provides the tools and expertise to thrive as investigators in any setting (e.g., academic medicine, government, pharma). The immersive program provides 12 months of protected time for trainees to develop projects focused on reducing health disparities and/or diseases that disproportionately affect the Deep South. The program provides a stipend and support for tuition, among other benefits.

CCTS Announces Gold Star Award for Excellence in Clinical Research Accrual & Recruitment

Since the CCTS Clinical Research Support Program launched the Recruitment & Retention and Feasibility Worksheets earlier this year, teams have been utilizing this resource to improve study recruitment and retention. The CCTS Gold STAR (Striving Toward Accrual Radiance) Awards were created to celebrate teams achieving success through this resource.

We’re happy to congratulate the eMERGE – (Electronic Medical Records and Genomics) study from the UAB Translational Pharmacogenomics Program, led by Dr. Nita Limdi, our inaugural Gold STAR Award winners.

Special Edition Spotlight!
CCTS Congratulates Jamye Hester, Administrative Projects Specialist, for receiving the prestigious UAB VIP Award!

The UAB VIP Awards honor employees whose work exemplifies and embodies one or more of the university’s shared values. Honorees are nominated by their colleagues and selected by a committee of individuals from across the campus and UAB Hospital.

"It is with Jamye’s help that we have been able to assemble the teams we need in order to fulfill our mission. She really has become a trusted colleague by everyone in our organization and she serves as a front door and a front-facing representative of our organization to all parts of UAB, as well as our Partner Network which reaches across three states in the Southeast."
