Clinical Trials Day 2022: Celebrate with the CCTS

Clinical Trials Day is on May 20th and this year the CCTS, with the UAB Heersink School of Medicine and O'Neal Comprehensive Cancer Center, looks forward to celebrating in person at the Wallace Tumor Institute (WTI) lobby from 7:30-9:30am! Clinical Trials Day is an opportunity to recognize everyone who makes clinical trials possible, and to increase awareness of clinical research achievements and opportunities for collaboration.

The in-person event will feature giveaways, biscuits, photo opps and more. Whether you’re able to join us in person or will be participating from afar, there are ways for YOU to join in the celebration.

Don’t Miss "CEI Perspectives: Maternal Mortality" This Week!

Tune in this Wednesday, April 27th from 2-4pm to better understand the burden of maternal complications and mortality and join conversations on the health disparities that exist among the populations at greatest risk. Through discussion and creating public awareness, we hope to impact clinical practice and to explore ways to partner in research toward solutions in improving maternal outcomes in communities.

Learn more about the event and panelists and register today.

Learning Health Systems Month Recap

This five-week series provided updates on the UAB Learning Health System with presentations from national experts and a panel discussion with UAB’s Accountable Care Team. Healthcare providers, administrators, and investigators learned about using health system data in their research. This handy recap includes recordings and summaries for each session.

Check it out here.
New Delays to Your Study Launch: Plan Ahead to Keep Your Timeline in Tact

Registering a study on ClinicalTrials.gov is currently taking significantly longer than usual due to external review processes, resulting in major delays for study start times. Investigative teams are strongly encouraged to start early and in parallel to local regulatory submissions (e.g., IRB). Want to make the registration process as smooth as possible? Contact the CCTS to review your registration information before you press submit. Our team will walk you through any potential barriers to getting your study through the ClinicalTrials.gov review process more quickly.

CCTS IN THE NEWS

The CCTS is delighted to acknowledge and celebrate the steady stream of news about the outstanding accomplishments of our CCTS members.

Baskin Earns SBM Mentorship Award
Monica Baskin, PhD, (CCTS Senior Scientist) received the 2022 Society of Behavioral Medicine Health Equity Special Interest Group's Mentorship Award in recognition of her contributions to advance understanding and advocacy for health equity.

Van Gerwen, Lu, Jackson & Robison Receive Frommeyer Fellowships
Lesley Jackson, MD, is a CTSTP alumnus.
