Mining the Genome: Check Out the All of Us Research Program

Over 439,000 people (and counting) have participated in the All of Us Research Program, resulting in one of the largest and most diverse datasets ever assembled.

Here are the 3 things to know about this new incredibly accessible data tool.

Case Studies in Mentoring Returns on January 10

Over nine sessions, Drs. Lisa Jackson and Christy Carter will walk participants through common (and not-so-common) mentoring challenges. These case-based discussions help participants discover new strategies to maximize the benefits of this career-enhancing skill.

Register today.

CCTS IN THE NEWS

The CCTS is delighted to acknowledge and celebrate the steady stream of news about the outstanding accomplishments of our CCTS members.

Kenneth Saag, MD, MSc, named President of the American College of Rheumatology
Dr. Saag is the KL2 and TL1 Principal Investigator for the CCTS.

SON drives oncogenic RNA splicing in glioblastoma by regulating PTBP1/PTBP2 switching and RBFOX2 activity
Dr. Ahn is a previous CCTS Pilot Awardee.
FUNDING OPPORTUNITY

DK007545 NIH-NRSA Training Grant Research Fellowship – Interdisciplinary Training in Kidney-Related Research

NIH-funded training grant post-doctoral fellowships are available for research training in the areas broadly related to kidney, urology and non-malignant hematology diseases. Trainees will pursue a one to two-year research program in the laboratory of an established basic or clinical research mentor, supplemented with training in advanced biostatistics and bioethics courses. Applications due February 1, 2022 @ 5PM CST.
