# CCTS FORUM

## Building on Success: A Vision for Clinical Trials

**MONDAY, February 11  
4:00–5:30 PM**

**Budgeting, recruitment, time to activation — how will innovations addressing these and other clinical trial processes enhance *your* success?**

This month's CCTS Forum will focus on changes underway in the clinical trial space, where infrastructure improvements (e.g., **OnCore**, PowerTrials, GreenPhire, **Smart IRB**, **SHARe**, **i2b2**, and others) have laid the foundation for a leap forward in clinical trial effectiveness.

CCTS Director Dr. Robert Kimberly will lead the discussion, which will explore:

- approaches to clinical trial budgeting, featuring peer financial prototypes that set new standards for cost-effectiveness across the clinical trial lifecycle
- recruitment methods to grow study portfolios and meet enrollment targets
- platforms that speed time to activation for both investigator and industry-sponsored trials and multi-site studies
- recommendations from the national **Clinical Trials Transformation Initiative**

Bring your questions and insights as we explore leveraging these and other CTSA-led innovations to empower your clinical trials (and get ahead of national certification efforts).

### SPEAKERS

**Robert Kimberly, MD**

Director, Center for Clinical and Translational Science  
Senior Associate Dean, Clinical and Translational Research  
Associate Vice President, Medicine and Biomedical Research  
UAB School of Medicine

**Mark Marchant, MPH, MBA, CCRP**

Director, Clinical Trials Administrative Office  
UAB School of Medicine
