CCTS FORUM

Innovation by Design: An Introduction to the Strategic Use of Design Thinking

WEDNESDAY, OCTOBER 4
4:45–6:00 PM

How might we improve training for early stage investigators?

In increasingly complex times, innovation and collaboration skills are becoming vital and both principles are fundamental in Design Thinking. Join us for a high-energy Forum that will teach you how to be a more innovative problem-solver by applying the process of Design Thinking as taught by the Stanford d.school. Together we'll explore how human-centered design can help us develop innovative trainings for our early stage clinical and translational investigators.

SPEAKER

Molly Wasko, PhD
Associate Dean for Research, Innovation, and Faculty Success
Professor and Chair of the Department of Management, Information Systems, & Quantitative Methods
UAB Collat School of Business
CCTS Executive Council Member

Sharpening Your Science, Improving Human Health, Addressing Disparities in the Deep South
