

TIERS+

“Everybody is ready for clinical AI, except...”

Presented by
Thomas Kannampallil,
PhD, FACMI, FAMIA

**Tuesday, June 23, 2026
12-1pm, via Zoom**

Join Dr. Kannampallil, for a discussion on

“Everybody is ready for clinical AI, except...”

In this talk, Dr. Kannampallil will describe the design, development, and implementation of AI-based clinical decision support tools in clinical settings. Specifically, he will discuss a range of EHR-integrated implementation considerations, evaluation strategies (including pragmatic clinical trials), and devising appropriate outcome measures.
