

TriNetX

The Global Health Research Network

*Providing a Data-Driven Approach to
Clinical Trial Research & Real World Evidence*

Ask CCTS about industry-sponsored clinical study opportunities from TriNetX!

TriNetX utilizes de-identified patient data to connect industry sponsors to healthcare organizations serving the patient population under investigation. Study requests are sent to the CCTS, which works with UAB investigators to determine feasibility and interest.

Contact CCTS Research Commons to make sure a point of contact has been identified for your research unit!

2016	19 Study Opportunities Received	~2/month
2017	28 Study Opportunities Received	~3/month
2018	29 Study Opportunities Received	~6/month
