XpertDox
Clinical, Education, Research

Ask CCTS about XpertTrial, a clinical trial search engine and patient recruitment tool!

86% of all clinical studies fail to enroll the required number of patients on time and current hospital websites are inefficient in recruiting such patients. XpertTrial accelerates and improves recruitment by streamlining and automating the process.

Contact CCTS Research Commons to make sure a point of contact has been identified for your research unit!

May 2019	139 Participant Inquiries
June 2019	250 Participant Inquiries
July 2019	265 Participant Inquiries
