Join us for an engaged discussion on:

Tips, Tricks, and Examples of Dissemination and Implementation Science Training Awards

**Tuesday, January 20, 2026
12-1 PM (CT), via Zoom**

Join us for the next session of the **CCTS ExpeDITlons Forum**, a monthly series exploring how effective interventions, clinical approaches, and policy innovations are translated into practice across clinical, community, and public health settings. This session will highlight practical insights from recent Dissemination & Implementation training award recipients and mentors, offering real-world examples of implementation-focused research.

Featured presentations include:

- **Kathryn Foti, PhD, MPH** | *"Implementation of streamlined, standardized blood pressure measurement protocols in primary care"*
- **Lily Gutnik, MD, MPH, FACS** | *"Global Breast and Cervical Cancer Control: Implementing a Bundled Screening Approach in a Resource-Limited Setting"*
- **Renee Heffron, PhD, MPH** | *"Tips and Tricks for Training Awards from the Mentor's Perspective"*

We look forward to another engaging and informative discussion.
