

EXPEDITIONS

Dissemination | Implementation | Translation | Innovation

The Center for Clinical and Translational Science (CCTS) Presents:

Application of the Consolidated Framework for Implementation Research (CFIR)

**Tuesday, October 20, 2026
12-1 PM (CT), via Zoom**

Join us for CCTS Expeditions Forum, a monthly series highlighting how dissemination and implementation science (DIS) is applied across clinical, community, and public health settings. Sessions feature insightful presentations from leading experts across the CCTS Partner Network.

October presentations include:

- "From Framework to Findings: Using CFIR to Evaluate National Diabetes Prevention Program Implementation in an Academic Health System," by **Abigail "Abby" Gamble, PhD** - University of Mississippi Medical Center
- " *"The services were scrapped..."* Explorations of 2025 funding cuts and impacts on HIV prevention services for pregnant and postpartum women in southwestern Uganda," by **Patricia "Tricia" Smith, MSc** – University of Alabama at Birmingham
