

Your child will enjoy this fun winter craft while working on their hand strength and grasping skills!

# Let's Make SNOWFLAKES!

## Items Needed:

- ✧ Glue
- ✧ Glitter
- ✧ Wax Paper
- ✧ Marker
- ✧ String

**Step 1:** Have your child draw a large snowflake shape on wax paper with a marker.

**Step 2:** Encourage your child to squeeze the glue bottle as they trace the snowflake shape. (Hint: Make a thick line for the glitter to stick to)

**Step 3:** Have the child open the glitter container. Prompt them to gently shake glitter over the glue. You may have them try to take pinches of glitter to sprinkle on as well.

**Step 4:** Allow the glue to fully dry. Next encourage child to slowly peel the snowflake off of the wax paper using their thumb and pointer finger.

**Step 5:** Add a string to an end of the snowflake and hang up in desired location.
