

Water Play

Have Fun This Summer With These Activities:

- 💧 **SINK or FLOAT:** Fill a baby pool or large container with water. Have your child place various items in the water and see which items will float or sink.
- 💧 **MUSICAL SPRINKLERS:** Set out 1-2 sprinklers in the yard. Dance, jump, or skip through the sprinklers until the music stops and everyone freezes in a goofy pose.
- 💧 **TOY WASH:** Gather all water proof toys and place outside in a bucket. Let your child give each toy a “bath” by using sponges or a scrub brush.
- 💧 **CAR WASH:** Have your child help wash the car by using sponges, towels, or water hose.
- 💧 **WATER BULLEYE’S:** Draw a bulleye’s on the sidewalk or driveway. Toss water balloons or sponges towards the middle.
- 💧 **SLIP ‘N SLIDE:** Add shaving cream at the end of the Slip ‘N Slide for extra fun!

Helps Kids:

- ➔ Improve bilateral coordination
- ➔ Explore environments
- ➔ Increases sensory awareness
- ➔ Promotes social participation
- ➔ Improves upper body and hand strength
