Commencement

SATURDAY, MAY 2, 2026
BARTOW ARENA
BIRMINGHAM, ALABAMA

TODAY'S CEREMONY

Welcome to the Spring 2026 Commencement of The University of Alabama at Birmingham. The pageantry of today's ceremony is the culmination and recognition of years of study, preparation, and achievement of our graduates. We hope you find the ceremony both meaningful and memorable, as it reflects the combined efforts of the faculty, the staff, and, of course, our students and their families.

Commencement begins with the traditional academic procession. The students and audience are asked to stand as the procession enters the arena and to remain standing through the singing of the National Anthem.

At the beginning of the procession, the faculty enter, led by University and School Marshals. The faculty in attendance today represent all UAB faculty in celebrating this important milestone for their students. After the faculty, a traditional bagpipe band enters and circles the arena floor. Bagpipes have long been part of academic and ceremonial traditions, marking important moments of transition. Their distinctive, resonant sound brings a sense of dignity and formality to the occasion, echoing customs passed down from the earliest academic institutions. The steady, stirring tones of the pipes honor the graduates' hard work and perseverance and symbolize both celebration and the start of a new chapter in learning and leadership.

After the bagpipes, the bearer of the Academic Mace enters, leading UAB's President, Ray L. Watts, the Senior Vice President of Academic Affairs and Provost, Janet Woodruff-Borden, university vice presidents, and other senior leadership. The platform party includes members of The Board of Trustees of the University of Alabama System, UAB's senior leadership, deans of UAB's colleges and schools, and distinguished guests.

President Watts opens the ceremony by welcoming students and guests, introducing the platform party, and recognizing the faculty. Provost Woodruff-Borden then introduces the mace bearer, recognizes students' academic achievements, and presents the candidates for conferral of their degrees and certificates. The president confers the degrees and certificates and invites students to the stage to be recognized. As each student crosses the stage, their name is called and they shake hands with their academic dean and President Watts, have a professional picture taken, and return to their seat. As this is a special day for everyone and out of respect, all graduates and guests are asked to remain seated until the conclusion of the ceremony.

President Watts closes the ceremony after all degrees have been awarded and the UAB Alma Mater has been sung. The audience is asked to stand and to remain standing for the recession of the platform party.

THE UNIVERSITY OF ALABAMA AT BIRMINGHAM

Over the five-plus decades since it was founded in 1969, the University of Alabama at Birmingham has earned international renown for its innovative academic programs, groundbreaking research and scholarship, and leading-edge patient care. In the 2025-2026 U.S. News & World Report “Best Global Universities” rankings, which focus on academic research and overall reputation, UAB was in the top 7 percent globally. In TIME’s newly released ranking of the World’s Top Universities of 2026, UAB secured the No. 137 spot overall — placing it in the top five of public institutions in the southeast.

UAB’s freshman class in fall 2025 was a record 2,526 students strong, with total enrollment of 20,868. The average ACT score for the 678 freshmen in the UAB Honors College was 29.7, with an average high school GPA of 4.22.

In the 2026 U.S. News & World Report “Best Graduate Schools” rankings, UAB had 17 programs in the top 20, including a Master’s in Health Administration program that has ranked first in the nation since 2019.

Students and their faculty mentors are engaged in one of the country’s leading research enterprises. In fiscal year 2024, UAB’s research expenditures reached a record \$866 million, extending the most successful era of research funding growth in the university’s history. Over the past decade, research funding has grown by 68 percent. UAB ranks 13th among all public universities in the United States for NIH awards and 22nd for federal R&D expenditures. All six health-related schools at UAB are in the top 20 among public universities in NIH awards.

In order to preserve that momentum, UAB launched its Research Strategic Initiative in 2023 to substantially increase its impact on people’s lives. UAB discoveries are translated into commercialization success through the Harbert Institute for Innovation and Entrepreneurship. In fiscal year 2025, the institute generated \$7.45 million in revenues and launched five startups.

UAB’s research is also being translated into world-class patient care. UAB Hospital is now the nation’s fifth largest hospital according to Becker’s Hospital Review, up three spots from 2025. UAB Medicine is in the midst of a \$73 million expansion of the Emergency Department that will double its capacity. In November 2024, the UAB Health System Authority assumed ownership of the Ascension St. Vincent’s Health System in central Alabama. Former St. Vincent’s sites of care and operations are now known as UAB St. Vincent’s. UAB is Alabama’s largest health system, with 133 locations serving all 67 counties.

In 2025, UAB officially launched a new visual identity to reflect its dynamic growth, commitment to excellence and bold vision for the future. For the first time in its history, UAB now shares a primary monogram that will be used across the enterprise, including the university, UAB Medicine and Athletics.

With more than 35,000 employees, UAB is the largest employer in Alabama, with a statewide economic impact exceeding \$12.1 billion annually in fiscal year 2022, up from \$7.15 billion in fiscal year 2016. In 2025, UAB was named among the nation’s top higher-ed employers in the Great Colleges to Work For program from Modern Think, earning the prestigious Honor Roll distinction for the first time.

UAB ALMA MATER

The UAB Alma Mater was composed by Birmingham native David McNeeley in 2003. A competition was held, and a committee comprising UAB faculty, administrators, students, and alumni selected it from numerous submissions. The Alma Mater expresses the unifying sentiments of pride, respect, and cherished memories for the university.

THE ACADEMIC COSTUME

The custom of wearing academic caps, gowns, and hoods can be traced to the twelfth century. At that time both men and women wore long, full, flowing robes. This mode of dress gradually changed so that by the end of the seventeenth century only legal and official personages wore gowns. However, certain guilds and universities established the tradition of wearing prescribed apparel. In universities, the details of the dress distinguish the different degrees of learning and the faculty. In the United States, as a result of our English heritage, caps and gowns have been used from colonial times, especially at our older universities such as Columbia (King's College), New York University, University of Pennsylvania, Bryn Mawr, Yale, and others. Around 1885, there was a widespread student movement to wear caps and gowns at commencement. The faculties approved this dignified graduation dress and soon adopted the custom of wearing gowns at academic ceremonies.

In 1895, the Intercollegiate Commission presented American institutions of higher learning the Intercollegiate Code. This code regulated the design of gowns and hoods as well as the colors and materials to be used. The code was subsequently adopted by more than 95 percent of U.S. colleges and universities. It has given America an impressive but simple method of signifying scholastic honors.

The code provides for three types of gowns. The gown for the bachelor's degree is made of green material and has long pointed sleeves. The gown for the master's degree is made with an oblong sleeve open at the wrist. The rear part of this oblong shape is square cut and the front part has an arc cut away. The gown for the doctor's degree has bell-shaped sleeves. It is faced with velvet and has three bars of velvet on each sleeve. The color of the velvet trim may be black or the same color as the velvet which edges the gown.

The green oxford or mortarboard-style cap is worn for all degrees, but only the doctor's cap may be made of velvet and have a gold tassel.

The hood is the most important and distinctive feature of the American code. An understanding of the system makes it possible to distinguish readily bachelor's, master's, and doctor's hoods and to recognize the university which gave the degree. The doctor's hood is four feet in length and made with a wide panel. The master's and bachelor's hoods are three and one-half and three feet in length, respectively. They are made of black cloth and are lined with silk in the official academic colors of the institution which conferred the degree. The hoods worn by graduates of The University of Alabama at Birmingham are lined in green silk with a gold chevron. The trim of all hoods is velvet, two inches, three inches, and five inches wide for bachelor's, master's, and doctor's degrees, respectively. The color of the velvet trim indicates the discipline or faculty to which the degree pertains. Each discipline has been assigned a different color by the Intercollegiate Code. The following is a list of colors assigned to several of the disciplines within The University of Alabama at Birmingham.

Arts	<i>White</i>	Nursing	<i>Apricot</i>
Business	<i>Drab</i>	Optometry	<i>Seafoam green</i>
Dentistry	<i>Lilac</i>	Philosophy	<i>Dark Blue</i>
Education	<i>Light Blue</i>	Public Health	<i>Salmon Pink</i>
Engineering	<i>Orange</i>	Science	<i>Gold-yellow</i>
Fine Arts	<i>Brown</i>	Social Science	<i>Citron</i>
Medicine	<i>Green</i>		

A few years ago, some Ivy League colleges approved the wearing of gowns which were not black but the official school colors. This trend has expanded so that currently many colleges and universities have adopted special-colored gowns. The members of The Board of Trustees of The University of Alabama System wear a green gown with gold trim at The University of Alabama at Birmingham academic ceremonies. Colored gowns worn by many faculty identify the doctoral degrees of many American and foreign universities.

THE CEREMONIAL ACADEMIC MACE

The ceremonial academic mace appeared in European universities during the fourteenth century and represented the amalgamation of two much older staff-like devices of similar length and shape. These were the regal scepter and the medieval battle mace. Kings throughout history have carried scepters as insignia of the lawful authority of just rulers. The battle mace was first used by medieval princes as an effective hand weapon in combat.

In the fourteenth century, the royal scepter and the battle mace were combined to produce the ceremonial academic mace. It was carried before royalty, mayors of cities, and chief officers of the medieval universities.

In modern times, the mace is used on ceremonial occasions in the life of the university. In commencement exercises, the mace specifically indicates the authority of the university president to award degrees. The mace immediately precedes the presidential party in the ceremonial procession. For each commencement ceremonies, the mace will be carried by four different distinguished faculty members-- Dr. Linda Moneyham, recipient of the 2025 President's Award for Excellence in Teaching; Dr. Ashita Tolwani, recipient of the 2025 Ellen Gregg Ingalls/UAB National Alumni Society Award for Lifetime Achievement in Teaching; Dr. Brandon Blakenship, the recipient of the 2025 President's Award for Excellence in Teaching; and Dr. George Howard, the recipient of the 2025-2026 Distinguished Faculty Lecturer Award.

The UAB mace is fashioned in three metals: brass, bronze, and stainless steel. The use of these metals--especially stainless steel--is intended to signify Birmingham's traditional role as an iron and steel producing center.

At the lower end of the mace are three medallions of enamel on copper. One medallion bears the image of the lamp of knowledge. Another bears the traditional symbol of the physician, the Caduceus (Aesculapius, Greco-Roman god of medicine, was embodied at the temple of Kos as a statue holding a serpent, a symbol of long life, healing, and knowledge. A staff and a second serpent were added later to form the Caduceus). The third medallion is the UAB logo in gold on a green enamel background with a red enamel glow on the collar to symbolize the molten metal characteristic of old Birmingham and its blast furnaces.

The UAB mace was commissioned, designed, and executed in 1989 by the noted Alabama sculptor, Cordray Parker, with the help of Heidi J. Bowman on the enameled medallions. In 2021, Jamey Worrell, Ph.D., Professor of Accounting in the Collat School of Business, handcrafted a new stand for the mace. He sourced lumber from felled trees on UAB's campus and around Birmingham, selecting wood that represents some of the university's best qualities: oak for strength, hickory for resiliency, elm for knowledge, and cherry for passion.

The mace was made possible through the generosity of the late Samuel B. Barker, Ph.D., and his late wife, Justine. Dr. Barker, distinguished professor emeritus and dean emeritus of UAB, was the first dean of the UAB Graduate School and a leading patron of the arts in Birmingham.

THE UAB PRESIDENT'S MEDAL

The UAB President's Medal is designed to recognize individuals who have attained scholarly distinction and/or have rendered distinguished service to UAB. Recipients are selected by the President of UAB upon the advice and recommendation of senior university officials. Selection as the recipient of this medal is one of the highest honors bestowed by UAB.

The award is comprised of an antique brass medallion and plaque, suitably inscribed, mounted in a cherry stand. The UAB President's Medal is awarded at a commencement ceremony.
